# Unold 48950 Ice Cream and Slush Machine User Manual

Brand: Unold | Model: 48950

## 1. INTRODUCTION

The Unold 48950 is a versatile 2-in-1 appliance designed to create a variety of frozen treats, including soft serve ice cream, slushies, frozen cocktails, milkshakes, and cold drinks. Featuring a powerful compressor, it eliminates the need for pre-freezing ingredients or ice cubes, delivering refreshments quickly and efficiently. With a generous 2-liter capacity and five predefined programs, this machine is ideal for entertaining and daily use.

This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your Unold 48950 machine. Please read it thoroughly before first use and keep it for future reference.

## 2. IMPORTANT SAFETY INSTRUCTIONS

To reduce the risk of fire, electric shock, or injury, basic safety precautions should always be followed, including:

- Read all instructions before operating the appliance.

- Do not immerse the main unit, cord, or plug in water or other liquids.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use, before assembling or disassembling parts, and before cleaning.
- Avoid contact with moving parts.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been dropped or damaged in any manner.
- The use of attachments not recommended or sold by the manufacturer may cause fire, electric shock, or injury.
- Do not use outdoors.
- Do not let the cord hang over the edge of a table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Ensure adequate ventilation around the machine during operation.

### 3. PRODUCT COMPONENTS

Familiarize yourself with the parts of your Unold 48950 machine:

- **Main Unit:** Houses the compressor and control panel.
- **Removable Container:** 2-liter capacity (max 1.5 liters for processing).
- **Lid:** Transparent lid for the container.
- **Mixing Paddle:** For stirring ingredients.
- **Digital Touch Display:** For program selection and status indication.
- **Control Knob:** Used for power, consistency selection, and menu navigation.
- **Dispensing Lever:** To release the finished product.
- **Drip Tray:** Collects any drips from the dispenser.
- **Recipe Booklet:** Includes creative ideas for various frozen treats.

Image: A detailed view of the Unold 48950's control panel, highlighting the digital touch display and the multi-function knob for consistency and menu selection. The display shows program options like 'slushie', 'soft ice cream', 'cocktail', 'milkshake', and 'cold drink'.

## 4. SETUP

- 1. Unpack:** Carefully remove the machine and all its components from the packaging. Retain packaging for future storage or transport.
- 2. Placement:** Place the main unit on a stable, level, and dry surface. Ensure there is sufficient space around the machine for proper air circulation, especially around the ventilation openings.
- 3. Initial Cleaning:** Before first use, wash the removable container, mixing paddle, lid, and drip tray with warm, soapy water. Rinse thoroughly and dry completely. The container and drip tray are dishwasher-safe.
- 4. Assembly:** Insert the clean, dry container into the main unit. Place the mixing paddle inside the container, ensuring it is properly seated. Secure the lid onto the container.
- 5. Power Connection:** Plug the power cord into a grounded electrical outlet. The machine is now ready for operation.

## 5. OPERATING INSTRUCTIONS

The Unold 48950 features five predefined programs for various frozen treats. Follow these steps for general operation:

1. **Prepare Ingredients:** Prepare your desired mixture according to a recipe. Ensure the total volume does not exceed 1.5 liters to allow for expansion during freezing.
2. **Add Mixture:** Pour the prepared mixture into the removable container.
3. **Select Program:** Turn the control knob to power on the machine. Use the digital touch display and the control knob to navigate and select one of the five programs:
  - **Soft Ice Cream:** For creamy, smooth soft serve.
  - **Slushie:** For refreshing, icy drinks.
  - **Cocktail:** For frozen mixed beverages.
  - **Milkshake:** For thick, blended milkshakes.
  - **Cold Drink:** For simply chilling beverages without freezing to a solid consistency.
4. **Start Process:** Once the program is selected, the machine will begin the freezing and mixing process. The compressor cooling ensures quick results, typically within 30 minutes for slushies.
5. **Monitor Consistency:** You can adjust the consistency level using the control knob during operation if needed.
6. **Dispense:** Once the desired consistency is reached, place a serving bowl or glass under the dispensing lever and pull the lever to release the product.
7. **Keep Cool:** The machine can maintain the optimal temperature of the finished product for hours if needed.

Image: The Unold 48950 machine displayed with three different finished products: a glass of soft serve ice cream, a cup of orange slush, and a chocolate milkshake, showcasing its versatility.

## 6. CLEANING AND MAINTENANCE

Regular cleaning ensures the longevity and hygienic operation of your Unold 48950 machine.

- 1. Unplug:** Always unplug the machine from the power outlet before cleaning.
- 2. Disassemble:** Remove the lid, mixing paddle, removable container, and drip tray.
- 3. Wash Removable Parts:** The removable container and drip tray are dishwasher-safe. The lid and mixing paddle can be washed by hand with warm, soapy water. Rinse thoroughly and dry completely.
- 4. Clean Main Unit:** Wipe the exterior of the main unit with a soft, damp cloth. Do not use abrasive cleaners or immerse the main unit in water.
- 5. Cleaning Program:** The machine features an 'extrude/clean' function on the digital display. For a quick rinse, you can add a small amount of water to the container and run this program.
- 6. Storage:** Ensure all parts are completely dry before reassembling or storing the machine. Store in a cool, dry place.

## 7. TROUBLESHOOTING

If you encounter issues with your Unold 48950, refer to the following common problems and solutions:

- **Machine does not turn on:**

Check if the power cord is securely plugged into a working electrical outlet. Ensure the control knob is turned to the 'On' position.

- **Mixture is not freezing or is too soft:**

Verify that the correct program (e.g., 'Soft Ice Cream' or 'Slushie') has been selected. Ensure the ambient room temperature is not excessively high, as this can affect freezing performance. The maximum capacity for processing is 1.5 liters; exceeding this can impact freezing.

- **Machine is noisy during operation:**

A certain level of noise is normal due to the compressor and mixing paddle operation. If the noise is unusually loud or grinding, ensure the mixing paddle is correctly installed and there are no obstructions in the container.

- **Product is not dispensing properly:**

Check if the dispensing lever is fully open. Ensure the mixture is not too thick or frozen solid, which might block the dispenser.

- **Container mechanism breakage:**

Some users have reported issues with the mechanism that secures the mixing container breaking over time, leading to leaks. Handle the container and its attachment points with care during assembly, disassembly, and cleaning to minimize stress on these parts. If this issue occurs, contact customer support.

If the problem persists after attempting these solutions, please contact Unold customer support for further assistance.

## 8. TECHNICAL SPECIFICATIONS

Feature	Specification
Brand	Unold
Model Number	48950
Color	White
Capacity	2 Liters (max 1.5 Liters for processing)
Material	Plastic
Item Weight	1000 Grams (1 kg)
Mode of Operation	Automatic
Refrigerant	R290 (climate-friendly)
Package Dimensions	50.9 x 44.5 x 29.8 cm
Included Components	1 recipe booklet

44,2 cm

43,5 cm

22,6 cm
