SETUP AND ASSEMBLY

Assembly is required for this storage sideboard. The package includes a clear, step-by-step instruction manual with illustrations and clearly marked spare parts to guide you through the process.

Important Assembly Notes:

- **Two-Person Assembly:** It is highly recommended to have two people for assembly due to the size and weight of the components.
- **Review Instructions:** Carefully review all instructions and illustrations before starting each step to ensure correct orientation and placement of parts.
- **Door Alignment:** When attaching the doors, install one screw in each hinge first. Do not tighten completely. Adjust the doors to ensure a slight, even space between the side panels and the door edges, and to prevent rubbing at the top or bottom. Once aligned, tighten all screws. This precision helps achieve proper door function.

High-definition Tempered Glass

4-5x stronger than regular glass, tempered glass is lightweight & space-brightening

Adjustable Shelves

Internal adjustable shelves let you customize storage space effortlessly

OPERATING INSTRUCTIONS

Storage and Organization:

- The sideboard features four doors, providing ample storage space.
- Three internal shelves are adjustable, allowing you to customize the storage layout to suit various item sizes and organizational needs.
- The upper section includes glass panels, ideal for displaying decorative items, glassware, or collections.
- The lower section with solid doors offers concealed storage for items you prefer to keep out of sight.

Versatile Placement:

This cabinet is designed for multi-room use and can function effectively in kitchens, dining rooms, or living rooms. It can serve as a pantry, a bookcase with doors, a tall bathroom storage cabinet, or a glass display cabinet.

MAINTENANCE

The surface of this pantry cabinet features a waterproof paint finish, making it easy to clean. To maintain its appearance and longevity:

- Wipe surfaces regularly with a soft, damp cloth.
- Avoid using abrasive cleaners or harsh chemicals, as these can damage the finish.
- Promptly clean any spills to prevent staining.

TROUBLESHOOTING

Common Issues and Solutions:

- **Doors Not Closing Properly or Uneven Gaps:**
 - Check hinge adjustments. Loosen the screws on the hinges slightly, adjust the door position to achieve even gaps and proper closure, then re-tighten the screws.
 - Ensure the cabinet is placed on a level surface. Uneven flooring can cause the cabinet frame to twist, affecting door alignment.
- **Shelves Bowing:**
 - Avoid placing excessively heavy items on the shelves. Distribute weight evenly.
 - If a shelf shows signs of bowing, consider reinforcing it or redistributing the load.
- **Unpleasant Odor:**
 - New furniture may have a slight odor from manufacturing. Ensure adequate ventilation in the room for several days after assembly.
