Aoxun 10' x 12' Grey w/20" Fan

Aoxun Hardtop Gazebo with Fan User Manual

Model: 10' x 12' Grey w/20" Fan

1. Product Overview

The Aoxun Hardtop Gazebo with Fan is designed to provide a comfortable and versatile outdoor living space. Featuring a durable aluminum frame and a double galvanized steel roof, this pavilion offers superior protection and ventilation. It includes integrated netting and curtains for privacy and insect control, along with a smart ceiling fan for enhanced comfort.

2. Key Features

- **Durable Double-Top Gazebo:** This patio gazebo features a galvanized steel double roof for superior heat insulation and ventilation, ensuring a cool, airy space. Rust and fade-resistant, it withstands harsh weather like snow and wind.
- **Versatile Netting & Curtain Design:** Equipped with zippered netting for open views and ventilation, plus 3-belt curtains for privacy and warmth. Top hooks allow for hanging lights or fans, enhancing both functionality and aesthetics.
- **Smart Ceiling Fan with Lighting:** Enjoy remote/app-controlled 6-speed airflow and 3 light colors (3000K-6000K), dimmable from 10%-100%. With 1500 lumens, it covers 100-225 sq ft. Features adjustable downrods and flicker-free lighting for year-round comfort.
- **Powerful All-Weather Comfort:** Designed for year-round use, this weather-resistant fan delivers powerful yet quiet airflow (<30dB) perfect for patios and gazebos. Its reversible DC motor ensures optimal cooling in summer and even heat distribution in winter, while the 2-hour auto-shutoff timer adds energy-saving convenience.

- **Easy Assembly & Versatile Design:** This spacious 10'x12'x9.6' gazebo (120 sq ft) offers multi-functional use for dining, gatherings, or even car protection, while featuring hassle-free setup with included hardware and clear instructions (typically 2-4 hours with 3-4 people).

Figure 2.2: Illustration of the dual-layer curtain system, highlighting the inner netting for ventilation and the outer curtain for privacy and weather protection.

3. Setup and Assembly

Assembly of the Aoxun Hardtop Gazebo typically requires 3-4 people and takes approximately 2-4 hours. All necessary hardware and clear instructions are included in the packaging. Ensure you have adequate space and follow the step-by-step guide provided with your product for safe and efficient installation.

3.1. Site Preparation

Choose a level and stable surface for installation. Ensure the area is clear of obstructions and provides sufficient space for the gazebo's dimensions (10' x 12').

3.2. Assembly Steps Overview

1. Unpack all components and verify against the parts list.

2. Assemble the main frame structure according to the diagrams.
3. Install the galvanized steel roof panels.
4. Attach the netting and privacy curtains.
5. Install the ceiling fan and connect power.
6. Secure the gazebo to the ground using appropriate anchoring methods (stakes or expansion bolts) for enhanced wind resistance.

Figure 3.1: Product dimensions and fan specifications, crucial for planning installation space and understanding component sizes.

Figure 3.2: Illustration demonstrating how different anchoring methods affect the gazebo's wind resistance, from basic ground placement to secure bolting.

4. Operating Instructions

4.1. Ceiling Fan Operation

The integrated ceiling fan can be controlled via remote or a dedicated app. It offers 6-speed airflow settings to suit your comfort needs.

- **Speed Settings:** Adjust fan speed from gentle breeze (Speed 1-2) to strong cooling air (Speed 5-6).
- **Reversible DC Motor:** Press the F/R key on the remote control to switch between summer mode (downward airflow for cooling) and winter mode (upward airflow for even heat distribution).
- **Timer Function:** Utilize the 2-hour auto-shutoff timer for energy saving.

Figure 4.1: Visual guide to the fan's reversible motor function and its six-speed settings, illustrating how to optimize airflow for different seasons.

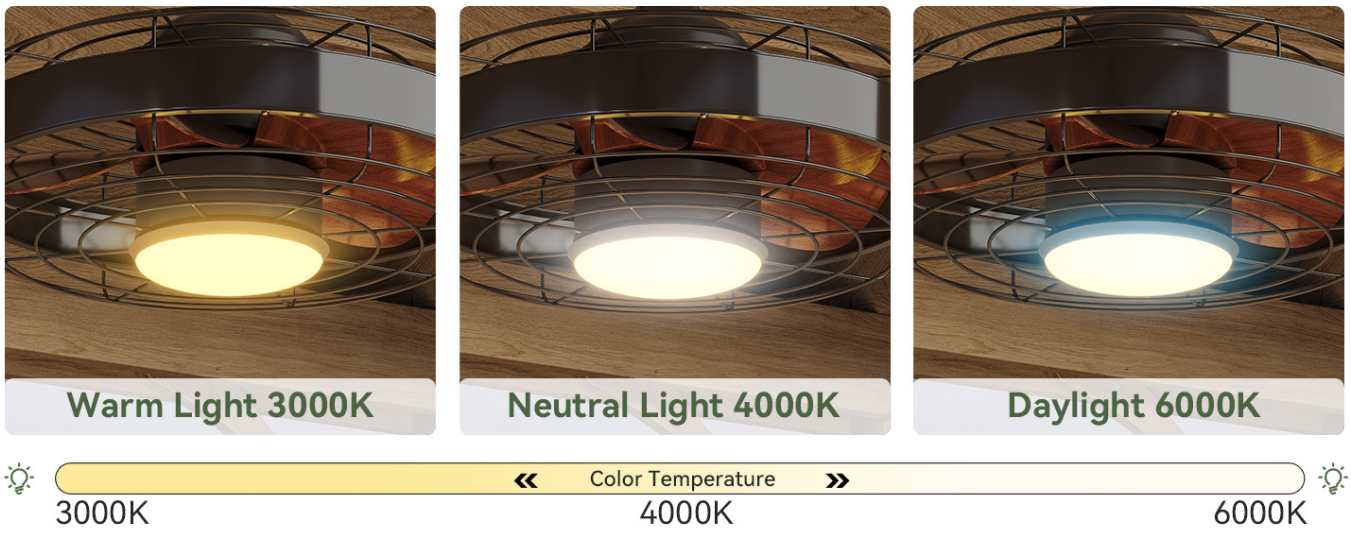

Figure 4.2: Depiction of the fan's dual operational modes, demonstrating how it provides cooling in summer and helps distribute warmth in winter.

4.2. Lighting Control

The fan includes integrated lighting with adjustable brightness and color temperature.

- **Color Temperature:** Choose from Warm Light (3000K), Neutral Light (4000K), or Daylight (6000K).
- **Brightness:** Dimmable from 10% to 100% to create the desired ambiance.

Figure 4.3: Illustration of the fan's lighting capabilities, showcasing adjustable brightness and three distinct color temperature options.

Flush Mount /Sloped Max 15° Mount

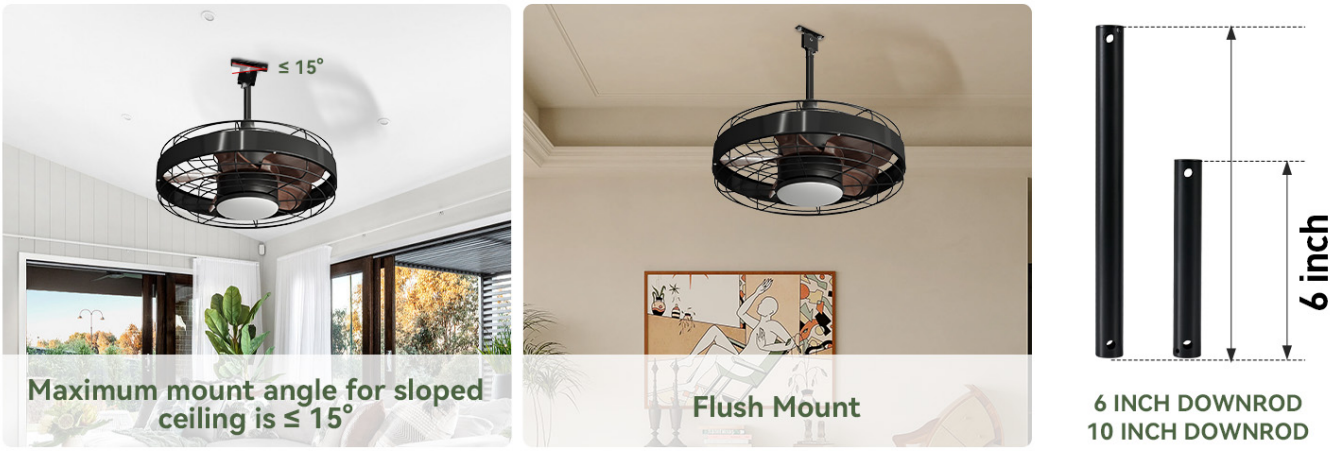

Figure 4.4: Close-up view of the fan's lighting, demonstrating the visual difference between warm, neutral, and daylight color temperatures.

5. Maintenance

Regular maintenance will ensure the longevity and optimal performance of your Aoxun Hardtop Gazebo.

- **Cleaning:** Periodically clean the galvanized steel roof and aluminum frame with a mild soap solution and water. Rinse thoroughly and dry.
- **Fabric Care:** The netting and curtains can be spot cleaned with a damp cloth. For deeper cleaning, refer to the fabric care instructions provided with the product. Ensure they are completely dry before storing or retracting to prevent mildew.
- **Fastener Check:** Annually inspect all bolts, screws, and connections to ensure they are tight and secure. Tighten any loose fasteners.
- **Winter Preparation:** In areas with heavy snow, it is recommended to clear snow accumulation from the roof to prevent structural damage. Consider disassembling and storing the fabric components during harsh winter months.

Figure 5.1: Overview of the gazebo's all-weather resistance, highlighting its durability against sun, rain, and snow, which informs maintenance needs.

Figure 5.2: Illustration of the roof's slope drainage system, which aids in preventing water accumulation and reducing leaks, simplifying roof maintenance.

6. Troubleshooting

This section provides solutions to common issues you might encounter with your Aoxun Hardtop Gazebo.

Problem	Possible Cause	Solution
Fan not operating	No power, remote battery low, or fan motor issue.	Check power connection. Replace remote batteries. If issue persists, contact customer support.
Lights not working	Power issue, bulb failure (if replaceable), or control malfunction.	Ensure power is connected. Check light settings on remote/app. Contact support if lights remain off.
Water pooling on roof	Improper assembly or excessive snow/debris accumulation.	Verify roof panel installation. Clear any debris or snow from the roof.
Curtains/Netting not sliding smoothly	Track obstruction or damage.	Inspect tracks for debris. Clean and lubricate if necessary.

7. Specifications

Attribute	Detail
Brand	Aoxun
Model	10' x 12' Grey w/20" Fan
Material	Aluminum Frame, Galvanized Steel Roof
Product Dimensions	144"L x 120"W x 115.2"H (10' x 12' x 9.6')
Item Weight	58 pounds
Water Resistance Level	Water Resistant
UV Protection	50 (99% UV Protection)
Assembly Required	Yes
Fan Type	Ceiling Fan with Light
Fan Diameter	20 inches
Power Cord Length	16.4 ft

8. Warranty and Support

Aoxun is committed to customer satisfaction. For any assistance, please refer to the following:

- **Returns:** This product is eligible for 30-day easy returns. Please refer to your purchase platform for detailed return policies.
- **Customer Support:** Should you need any assistance, our support team guarantees a 24-hour response to ensure your complete satisfaction. Contact information can typically be found on the product packaging or the retailer's website.
- **Protection Plans:** Extended protection plans may be available for purchase. Check with your retailer for options such as 2-Year or 3-Year Protection Plans.
