Key Features:

- **Spacious Contemporary Design:** 42-inch wide seat and 24.6" height for full-body relaxation. Modern bucket silhouette with curved armrests and wraparound backrest.
- **360° Fluid Motion System:** Dual-bearing swivel mechanics for quiet rotation, engineered for stability up to 500 lbs capacity.
- **Premium Multi-Layer Comfort:** Plush corduroy upholstery, thick 6-inch high-resilience foam base, and 2-inch memory foam layer. Includes removable lumbar and side pillows.
- **Heavy-Duty Solid Wood Frame:** Reinforced frame and engineered joint system for durability and a 500 lbs weight capacity.
- **Easy to Clean:** Fabric resists spills, and cushion covers are removable for machine washing.

IMPORTANT SAFETY INFORMATION

Please read and adhere to the following safety guidelines to ensure safe and proper use of your swivel barrel chair:

- Always assemble the chair strictly according to the provided instructions.
- Do not exceed the maximum weight limit of **500 lbs (approximately 227 kg)**.
- Use the chair only on stable, flat, and level surfaces to prevent tipping or instability.
- Keep the swivel mechanism clear of any obstructions to ensure smooth operation and prevent potential injury.
- Ensure all screws and fasteners are securely tightened after assembly and periodically check them for tightness.

SETUP GUIDE

1. Unpacking

Carefully remove all components from the packaging. Inspect all parts for any damage that may have occurred during shipping. Retain packaging materials until assembly is complete in case of returns or exchanges.

2. Component Check

Verify that all listed components and hardware are present before beginning assembly. Refer to the included parts list in your physical instruction manual.

3. Assembly

Assembly of the Deolme Swivel Barrel Chair is required. Follow the step-by-step instructions and use all provided tools and hardware included in your package. It is recommended to assemble the chair with two people for ease and safety.

- Attach the metal swivel base to the main chair body. Ensure all screws are tightened securely.
- Place the main cushion onto the chair base.
- Position the backrest and side pillows as desired for optimal comfort.

Note: Some users have reported that the screws for the bottom swivel part may not sit completely flush as indicated in some diagrams. Ensure they are tightened firmly without over-tightening.

OPERATING INSTRUCTIONS

1. Swivel Function

Your Deolme Swivel Barrel Chair features a 360-degree rotation capability. To operate, simply apply gentle pressure with your feet or body to rotate the chair in any direction. The dual-bearing mechanism ensures a smooth and quiet rotation.

Image: Visual representation of the chair's 360-degree swivel capability.

Pro Tip: Spin slowly for smooth operation – there is no need to push hard. Excessive force is unnecessary and may strain the mechanism over time.

2. Comfort Adjustment

The chair comes with a removable lumbar pillow and two side pillows. Adjust their placement to find your preferred level of comfort and support for reading, relaxing, or napping.

MAINTENANCE AND CARE

1. Cleaning the Upholstery

The chenille fabric is designed to resist spills. For liquid spills, wipe immediately with a clean, dry cloth within 15 seconds to prevent absorption. For general cleaning, all cushion covers (pillow, seat, and backrest) feature zippers and can be easily removed for machine washing. Use a gentle cycle with cold water and a mild detergent. Air dry or tumble dry on low heat.

2. General Care

- Periodically check all screws and bolts to ensure they remain tight. Re-tighten as necessary.

- Avoid exposing the chair to direct sunlight for prolonged periods to prevent fading of the fabric.
- Keep the chair away from direct heat sources.
- To maintain the integrity of the fabric, avoid using harsh chemicals or abrasive cleaners.

TROUBLESHOOTING

This section addresses common questions and minor issues you might encounter with your Deolme Swivel Barrel Chair.

Problem	Possible Cause	Solution
Chair does not swivel smoothly.	Obstruction in the swivel mechanism; excessive force being applied.	Ensure no objects are caught under the base. Apply gentle, consistent pressure for rotation.
Screws on the base do not sit flush.	Design variation or slight manufacturing tolerance.	Ensure screws are tightened firmly to secure the base, even if they are not perfectly flush. Do not over-tighten.
Fabric appears stained after a spill.	Spill not wiped immediately; incorrect cleaning method.	For fresh spills, blot immediately. For set stains, remove cushion covers and machine wash as per cleaning instructions.
