SETUP: BATTERY INSTALLATION

The remote controller requires two AAA batteries (not included) for operation. Follow these steps to install the batteries:

1. Locate the battery compartment cover on the back of the remote control.
2. Slide the cover downwards or press the latch to open the compartment.
3. Insert two AAA batteries, ensuring that the positive (+) and negative (-) terminals align correctly with the markings inside the compartment.
4. Close the battery compartment cover by sliding it back into place until it clicks securely.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your remote controller.

Battery Replacement

Replace the batteries when the remote's display dims, buttons become unresponsive, or the transmission indicator light (if present) fails to illuminate. Always use two new AAA batteries and ensure correct polarity during installation.

Cleaning

To clean the remote control, gently wipe its surface with a soft, dry cloth. Avoid using liquid cleaners, abrasive materials, or chemical solvents, as these can damage the remote's finish or internal components.

TROUBLESHOOTING

If you encounter issues with your remote controller, refer to the following common solutions:

- **Remote Not Responding:**

- Check if the batteries are installed correctly and have sufficient charge. Replace with new AAA batteries if necessary.
- Ensure there are no obstructions between the remote control and the air conditioner's receiver sensor.
- Confirm that the remote is pointed directly at the air conditioner unit.

- **Air Conditioner Not Responding:**

- Verify that the air conditioner unit is powered on and receiving electricity.
- Confirm that this remote control is compatible with your specific air conditioner model (RC-AGU1ED0I, RC-AGS1EA0E, RAR).
- If the issue persists, try resetting the air conditioner unit by turning off its power supply for a few minutes and then turning it back on.
