MAINTENANCE

To ensure the longevity of your crocheted cats and remaining materials:

- **Finished Items:** Hand wash your amigurumi cats with mild soap and cold water. Gently squeeze out excess water and air dry. Avoid machine washing or drying to prevent damage.
- **Yarn Storage:** Store unused yarn in a cool, dry place away from direct sunlight to prevent fading or damage. Keep it in a sealed bag to protect it from dust and pests.
- **Tools:** Keep your crochet hook and needles clean and dry. Store small accessories like stitch markers and safety eyes in their original packaging or a small container to prevent loss.

TROUBLESHOOTING

Common Issues and Solutions:

- **Stitches are too tight/loose:** The instruction card and video tutorials provide guidance on proper yarn tension and loop size. Practice holding the hook in different grips (pencil or knife) to find what works best for you.
- **Yarn fraying/splitting:** The Zepiany beginner yarn is designed to be non-fraying. If you encounter issues, ensure you are using the correct hook size and gentle technique.
- **Missing parts:** Double-check your kit contents upon arrival. If any pieces are missing, contact Zepiany customer service immediately for assistance.
- **Difficulty following instructions:** Re-watch the video tutorials, pausing and rewinding as needed. The slow-motion demonstrations are designed to clarify each step.
