4. SETUP AND INSTALLATION

Follow these steps to properly install the watch band onto your Skeiwatch C30, S50, or S55 SmartWatch:

1. **Prepare the Band:** Locate the quick-release pins on the ends of the watch band.
2. **Attach First Side:** Press the pin inward and align it with the lug hole on one side of your smartwatch. Release the pin to secure it in place. Gently pull on the band to ensure it is firmly attached.
3. **Attach Second Side:** Repeat the process for the other end of the watch band, attaching it to the remaining lug hole on your smartwatch.
4. **Verify Connection:** Once both sides are attached, gently tug on the band to confirm that both pins are securely seated in the watch lugs.

How to install the Band

1. Press the pins and insert it into the watch lug.

2. Turn the band over.

3. Install the other side and make sure that they are attached firmly.

4. Turn the strap over again and you're done!

5. USAGE AND ADJUSTMENT

The stretch nylon bands are designed for comfort and easy adjustment:

- **Wearing:** Slide your hand through the loop of the band and position the watch face on your wrist.
- **Adjusting Size:** Use the adjustable buckle to tighten or loosen the band until it fits comfortably and securely on your wrist. Ensure it is snug enough for accurate sensor readings but not overly tight to restrict circulation.

6. MAINTENANCE AND CARE

To ensure the longevity and hygiene of your watch bands, follow these care instructions:

- **Cleaning:** The fabric bands are washable. Hand wash with mild soap and cool water. Avoid harsh detergents or abrasive cleaners.
- **Drying:** Air dry completely before reattaching to your smartwatch. Do not tumble dry or expose to direct heat.
- **Storage:** Store bands in a clean, dry place away from direct sunlight when not in use.
- **Avoid Chemicals:** Keep the bands away from strong chemicals, solvents, and perfumes, which can damage the material.
