3. PRODUCT OVERVIEW

Familiarize yourself with the components of your Baseus Picogo Power Bank:

- A. Magnetic Charging Surface:** For wireless charging compatible devices.
- B. LED Indicators:** Display battery level and charging status.
- C. Power Button:** To turn on/off and activate low current mode.
- D. USB-C Port:** For wired charging and recharging the power bank.
- E. Built-in Kickstand:** For hands-free viewing while charging.

Small. Sleek. Super Portable.

4. SETUP

4.1 Initial Charging of the Power Bank

Before first use, it is recommended to fully charge your Baseus Picogo Power Bank. Connect the provided USB-C cable to the power bank's USB-C port and the other end to a compatible USB power adapter (not included). The LED indicators will illuminate to show the charging progress.

4.2 Checking Battery Level

Press the power button once to check the current battery level. The LED indicators will light up:

- 1 LED: 0-25%
- 2 LEDs: 25-50%
- 3 LEDs: 50-75%
- 4 LEDs: 75-100%

5. OPERATING INSTRUCTIONS

5.1 Magnetic Wireless Charging (Qi2 15W)

For magnetic wireless charging, ensure your device is MagSafe compatible (e.g., iPhone 12-16 Series) or has a magnetic case. Simply align the power bank with the back of your phone. The strong magnets will securely attach, and charging will begin automatically. The LED indicator for magnetic charging will illuminate.

5.2 Wired Charging (USB-C 20W)

To charge your device via cable, connect one end of the provided 60W Nylon Braided USB-C cable to the power bank's USB-C port and the other end to your device's charging port. The power bank will automatically detect the device and begin charging at up to 20W output.

Wireless & Wired, Just Take Charge

Figure 5.2: Illustration of the Baseus Picogo Power Bank's dual charging capabilities, supporting both 15W wireless and 20W USB-C wired charging simultaneously.

5.3 Using the Built-in Kickstand

The integrated aluminum kickstand allows for hands-free viewing while your device charges. Simply pull out the kickstand from the back of the power bank and position your phone horizontally or vertically on a flat surface. This is ideal for watching videos, making video calls, or browsing content.

Video 5.3: A demonstration of the Baseus Picogo Power Bank's built-in kickstand, showing how it can be used to prop up a phone for hands-free viewing while charging.

5.4 Low Current Mode

For charging low-power devices like AirPods or smartwatches, double-press the power button to activate low current mode. This ensures optimal and safe charging for smaller devices.

6. MAINTENANCE

- Keep the power bank away from water, fire, and extreme temperatures.
- Clean the device with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Store in a cool, dry place when not in use.
- Avoid dropping or subjecting the power bank to strong impacts.

7. TROUBLESHOOTING

7.1 Power Bank Not Charging Device

- Ensure the power bank is sufficiently charged. Check LED indicators.
- For wireless charging, ensure proper alignment and MagSafe compatibility.
- For wired charging, ensure the cable is securely connected and not damaged.
- Try restarting the power bank by pressing the power button.

7.2 Charging Slows Down at 80%

Your iPhone may slow charging at 80% to protect the battery. This can happen if it gets too warm during charging as part of iOS's thermal control strategy. Charging will resume once the device cools down. Moving your phone to a cooler area may help.

9. SAFETY INFORMATION

To ensure safe operation and prolong the lifespan of your power bank, please adhere to the following safety guidelines:

- Do not disassemble, open, or shred the battery pack.
- Do not expose the power bank to heat or fire. Avoid storage in direct sunlight.
- Do not short-circuit the battery pack.
- Do not expose the power bank to mechanical shock.
- In case of battery leakage, do not allow the liquid to come into contact with skin or eyes. If contact has been made, wash the affected area with copious amounts of water and seek medical advice.
- Keep the power bank out of reach of children.
- Dispose of the power bank in accordance with local regulations. Do not dispose of it as household waste.
- The product meets global standards and is certified by FCC, UL, TÜV, DOE, CEC, UN, IEC, and RoHS, ensuring safety and environmental compliance.

10. WARRANTY AND SUPPORT

Baseus offers a **24-month warranty** for your PicoGo Power Bank, ensuring worry-free ownership. Additionally, you receive **lifelong 24/7 professional support**. For any technical assistance, product guidance, or warranty claims, please contact our customer service team. Free returns or replacements are available for guaranteed satisfaction.
