SETUP

1. Charging the Device

Before first use, fully charge your smartwatch. Connect the magnetic charging cable to the charging points on the back of the watch and plug the USB end into a power adapter (not included) or a computer's USB port. The watch will display a charging indicator.

- A full charge typically takes approximately 3 hours.
- The 960mAh battery provides up to 30 days of typical use and 100 days of standby time.

Linterna LED y batería de gran capacidad

As night fell, my phone was running out of battery. I was about to take out the flashlight from outside my sleeping bag, but found that the zipper of my backpack was frozen. Fortunately, my watch still had 90% battery. I easily pressed the button on the side of the watch, and a strong light shot out, enough to illuminate the entire tent!

2. App Installation

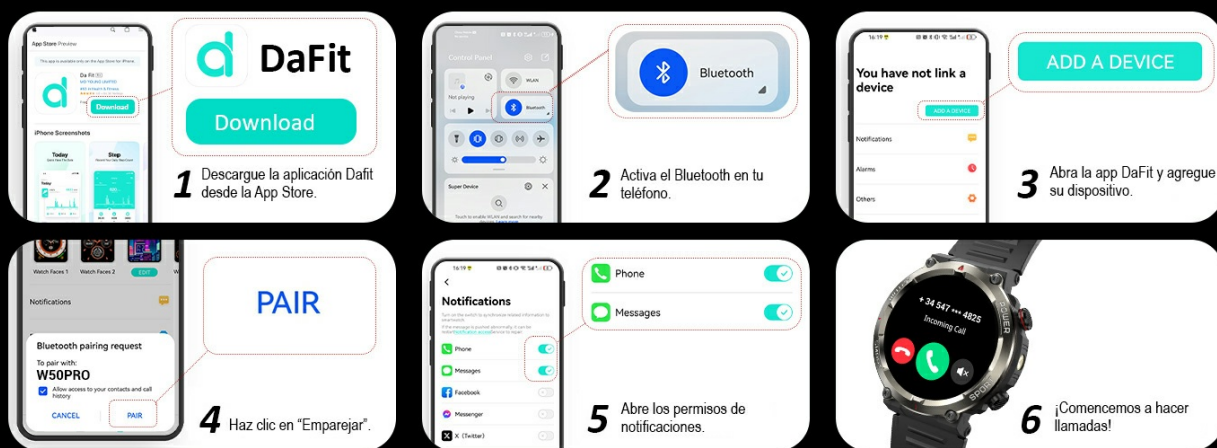

Download and install the "Da Fit" application on your smartphone. You can find it in the App Store (iOS) or Google Play Store (Android).

3. Device Pairing and Bluetooth Calls

To connect your smartwatch and enable Bluetooth calling:

1. Download the Da Fit app from your phone's app store.
2. Enable Bluetooth on your smartphone.
3. Open the Da Fit app and add your device.
4. Confirm the pairing request on your phone and watch.
5. Grant necessary notification permissions within the Da Fit app for calls and messages.
6. Once paired, you can make and receive calls directly from your watch.

Cómo conectar un reloj y hacer una llamada

1 Descargue la aplicación DaFit desde la App Store.

2 Activa el Bluetooth en tu teléfono.

3 Abra la app DaFit y agregue su dispositivo.

4 Haz clic en "Emparejar".

5 Abre los permisos de notificaciones.

6 ¡Comencemos a hacer llamadas!

OPERATING INSTRUCTIONS

1. Basic Navigation

- **Touchscreen:** Swipe left/right, up/down to navigate menus and access features. Tap to select.
- **Function Buttons:** Use the physical buttons on the side of the watch for quick access to specific functions or to return to the home screen.

2. Flashlight and Compass

The W50PRO includes a built-in flashlight and compass for outdoor activities.

- **Flashlight:** Activate the flashlight feature from the watch's menu. It offers fixed and intermittent modes for various situations.
- **Compass:** Access the compass feature from the watch's menu for accurate directional guidance.

Tamaño del producto

¿Qué incluye la caja?

4. Health Monitoring

The smartwatch is equipped with high-precision sensors to monitor various health indicators:

- **Heart Rate:** Real-time heart rate monitoring.
- **Blood Oxygen (SpO2):** Monitor your blood oxygen levels.
- **Sleep Monitor:** Tracks sleep quality and patterns.
- **Stress Levels:** Provides insights into your stress levels.

All health data synchronizes with the Da Fit app for detailed analysis and trend tracking.

100+ Modos Deportivos

6. Customizing Watch Faces

The Da Fit app provides a wide selection of watch faces to suit various styles. You can also upload personal photos as wallpaper and adjust text color and widget layout to create a unique watch interface.

Esferas de reloj personalizables

¡Genial! Por fin llegué a mi destino. La vista que tenía ante mí era tan impresionante que la imaginé como fondo de pantalla de mi reloj. El reloj Blackview me dio orientación y seguridad durante mis exploraciones al aire libre. ¡Es increíblemente confiable!

7. Other Practical Functions

The Blackview W50PRO includes additional features for daily convenience:

- Weather Forecast
- Music Control
- Camera Remote Control
- Alarms
- Sedentary Reminder
- Drink Water Reminder
- Stopwatch
- Countdown Timer
- Find Phone
- Calculator
- Games
- Brightness Adjustment

Múltiples funciones inteligentes

MAINTENANCE

1. Cleaning

Regularly clean your smartwatch and strap to prevent skin irritation and maintain device functionality. Use a soft, damp cloth to wipe the screen and casing. For the strap, follow the manufacturer's cleaning recommendations based on the material (silicone or nylon).

2. Water Resistance

The Blackview W50PRO Smartwatch features an IP68 water resistance rating. This means it is protected against dust ingress and can withstand immersion in water up to 1.5 meters for up to 30 minutes. It is suitable for daily use, such as hand washing or light rain. Avoid using it in hot water, saunas, or during diving, as steam and high pressure can compromise the seals.

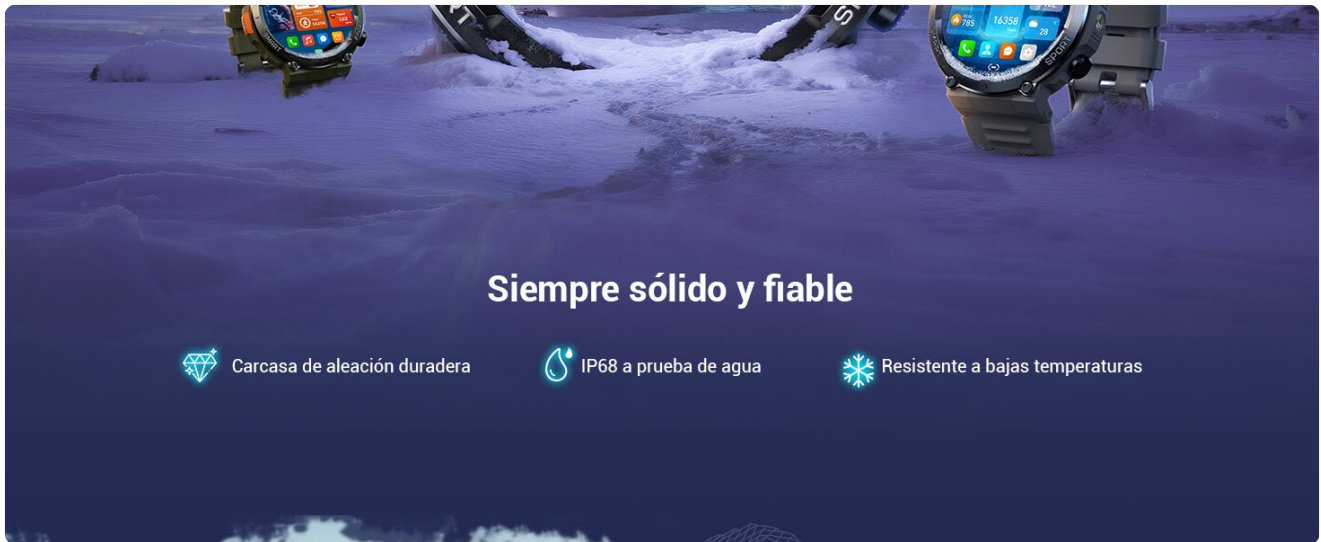

Image: Durability features including IP68 water resistance.

3. Battery Care

To prolong battery life:

- Avoid extreme temperatures.
- Do not let the battery completely drain frequently.
- Charge the device using the provided magnetic charging cable.

TROUBLESHOOTING

If you encounter issues with your Blackview W50PRO Smartwatch, try the following:

- **Device not turning on:** Ensure the watch is fully charged.
- **Cannot pair with phone:** Check if Bluetooth is enabled on both devices. Restart both the watch and phone. Ensure the Da Fit app has necessary permissions.
- **Inaccurate health data:** Ensure the watch is worn snugly on your wrist. Clean the sensors regularly.
- **Notifications not received:** Verify that notification permissions are granted in the Da Fit app and your phone's settings. Ensure the app is running in the background.
- **Short battery life:** Reduce screen brightness, disable unnecessary features, and limit frequent heart rate monitoring.

For persistent issues, refer to the Da Fit app's help section or contact customer support.
