- **Cleaning the Case:** Wipe the PU leather surface with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the material.
- **Cleaning the Screen Protector:** Use a microfiber cloth to gently wipe the screen protector. For stubborn smudges, a screen cleaner specifically designed for electronics can be used.
- **Avoid Extreme Conditions:** Do not expose the case to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.

6. TROUBLESHOOTING

- **Screen Protector Bubbles:** If bubbles appear after installation, gently lift the nearest edge of the protector and reapply, pushing the air out with a soft cloth. Ensure the screen is free of dust before reapplication.
- **Case Not Fitting Properly:** Ensure your phone model is indeed the Eudora E55 Plus. Remove the phone and reinsert it, making sure it snaps into place correctly.
- **Magnetic Closure Weak:** Check if there are too many cards or bulky items in the card slots, which might prevent the magnetic flap from closing securely.
