Aroepurt IMDH-HS

Aroepurt Lifephone Star Phone Case Cover with Tempered Glass Screen Protector

MODEL: IMDH-HS

Instruction Manual

Introduction

This manual provides detailed instructions for the installation, operation, and maintenance of your Aroepurt Lifephone Star Phone Case Cover (Model: IMDH-HS) and its accompanying Tempered Glass Screen Protector. This product is designed to offer robust protection and enhanced functionality for your Lifephone Star device.

The case features a frosted surface with a delicate feel and a colorful reflective light effect. It combines a hard PC back panel with a soft silicone frame and four-corner shock airbags for comprehensive protection. The included adhesive metal finger ring support offers 360-degree rotation and magnetic car bracket compatibility.

What's in the Box

- 1 x Aroepurt Lifephone Star Phone Case Cover (IMDH-HS)
- 1 x Tempered Glass Screen Protector

Setup

1. Phone Case Installation

1. Ensure your Lifephone Star device is clean and free of dust or debris.
2. Gently align the phone with the case, starting with one side.
3. Press the phone firmly into the case, ensuring all corners and edges are securely seated within the silicone frame.
4. Verify that all ports, buttons, and camera cutouts align correctly with your device.

Image: The Aroepurt Lifephone Star Phone Case, showing the integrated ring stand and the separate tempered glass screen protector. The case features a colorful geometric pattern on a marble-like background.

2. Tempered Glass Screen Protector Installation

1. **Clean the Screen:** Use the provided cleaning wipes (if included, otherwise a microfiber cloth) to thoroughly clean your phone's screen. Ensure no dust, smudges, or fingerprints remain.
2. **Align the Protector:** Carefully peel off the protective film from the adhesive side of the tempered glass. Align the screen protector with your phone's screen, paying close attention to the edges, camera, and speaker cutouts.
3. **Apply:** Once aligned, gently lower the screen protector onto the screen. It will adhere automatically.
4. **Remove Bubbles:** If any air bubbles appear, gently push them towards the edges of the screen using a soft cloth or a squeegee card.

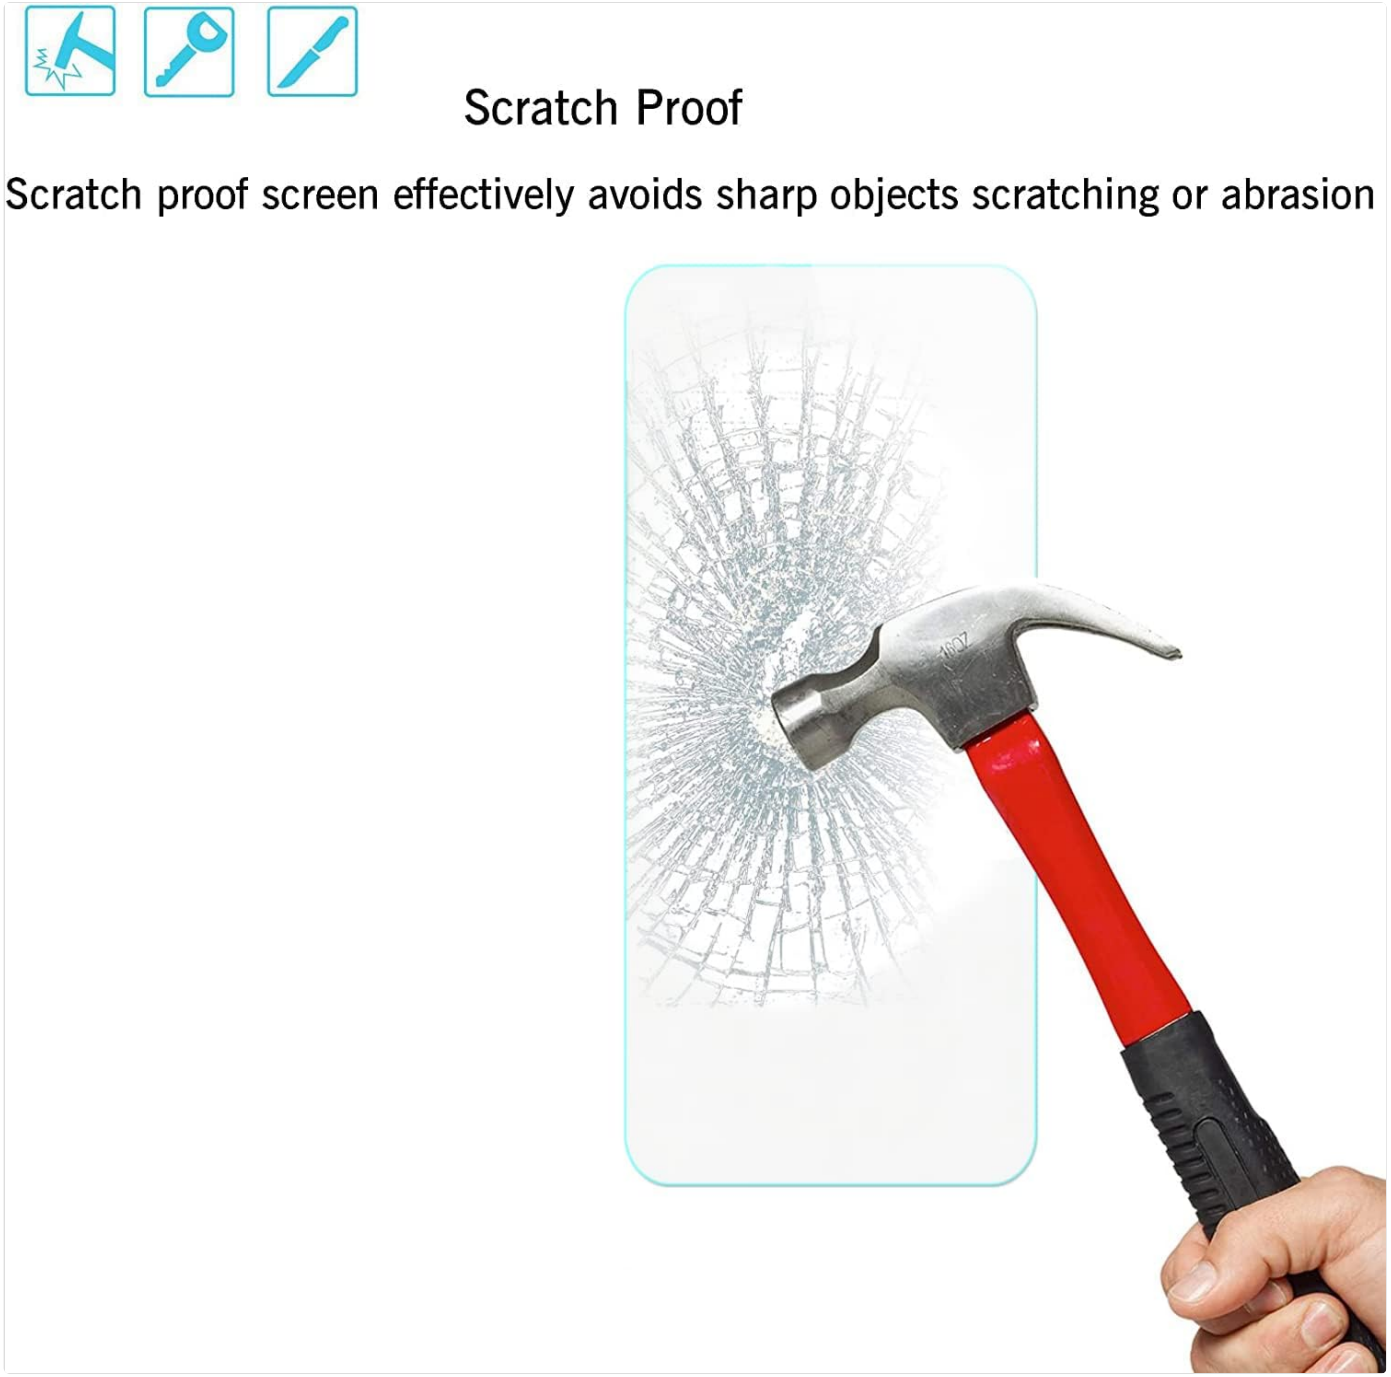

Image: Diagram illustrating the features of the tempered glass screen protector, including 9H high hardness, perfect adhesion, shatterproof properties, case-friendly design, 99.9% super transparency, and anti-fingerprint coating.

3. Ring Support Attachment (Optional)

The adhesive metal finger ring support can be attached directly to the phone case or used separately. If attaching to the case:

1. Clean the desired attachment area on the back of the phone case.
2. Peel off the protective film from the adhesive side of the ring support.
3. Firmly press the ring support onto the case for at least 30 seconds to ensure strong adhesion.

Operating

1. Using the Ring Stand

- The integrated ring stand can rotate 360 degrees, allowing for comfortable viewing angles in both portrait and landscape orientations.

- Pull out the ring to use it as a kickstand for hands-free media viewing or video calls.
- Insert your finger through the ring for a more secure grip on your phone, reducing the risk of accidental drops and enabling easier one-hand operation.

Image: Illustration demonstrating how the ring stand facilitates one-hand operation, allowing users to reach more areas of the screen comfortably.

2. Magnetic Car Mount Compatibility

- The metal plate integrated into the ring stand allows the case to be securely attached to magnetic car mounts (not included).
- Simply place the back of the case onto a compatible magnetic car mount for hands-free navigation or calls while driving.
- **Note:** This case does not support wireless charging due to the metal ring component. Remove the case for wireless charging.

Maintenance

Cleaning the Phone Case

- To clean the phone case, remove it from your device.
- Wipe the case with a soft, damp cloth. For stubborn dirt, a mild soap solution can be used.
- Avoid using harsh chemicals, abrasive cleaners, or solvents, as these may damage the case's finish or material.
- Ensure the case is completely dry before reattaching it to your phone.

Cleaning the Screen Protector

- Use a microfiber cloth to gently wipe the screen protector and remove fingerprints or smudges.
- For deeper cleaning, lightly dampen the microfiber cloth with water or a screen cleaner specifically designed for electronics.
- Avoid excessive moisture or spraying liquids directly onto the screen.

Troubleshooting

1. Screen Protector Bubbles

- **Issue:** Air bubbles are present under the screen protector after installation.
- **Solution:** Gently push bubbles towards the nearest edge using a soft cloth or a credit card wrapped in cloth. For persistent bubbles, carefully lift the nearest edge of the protector slightly to release the air, then reapply. Ensure the screen is dust-free before reapplication.

2. Ring Stand Adhesion Issues

- **Issue:** The ring stand is not adhering properly to the case.
- **Solution:** Ensure the surface of the case is clean and dry before applying the ring stand. Press firmly for an extended period (e.g., 30 seconds to 1 minute) upon initial application. Allow 24 hours for the adhesive to fully cure before heavy use.

3. Case Fit Issues

- **Issue:** The case does not fit the phone correctly, or buttons are difficult to press.
- **Solution:** Double-check that you have the correct case model for your Lifephone Star device. Remove the phone from the case and reinsert it, ensuring all corners are properly seated. If the issue persists, verify the phone model compatibility.

Specifications

Feature	Detail
Product Dimensions	0.39 x 0.39 x 0.39 inches
Item Weight	2.46 ounces
Special Features	360 Rotating Ring, Car Magnetic Fixing, Stylish Design, Shock Airbags
Form Factor	Basic Case
