> Aroepurt Phone Case and Tempered Glass Screen Protector User Manual for Kxd Blue Sea A16 Plus (Model IMDH-HS)

## Aroepurt IMDH-HS

# Aroepurt Phone Case and Tempered Glass Screen Protector User Manual

For Kxd Blue Sea A16 Plus (Model IMDH-HS)

## INTRODUCTION

---

Thank you for choosing the Aroepurt Phone Case and Tempered Glass Screen Protector for your Kxd Blue Sea A16 Plus. This manual provides essential information for the proper installation, use, and maintenance of your product to ensure optimal protection and functionality.

## WHAT'S IN THE BOX

---

- 1 x Aroepurt Phone Case (Model IMDH-HS)
- 1 x Tempered Glass Screen Protector

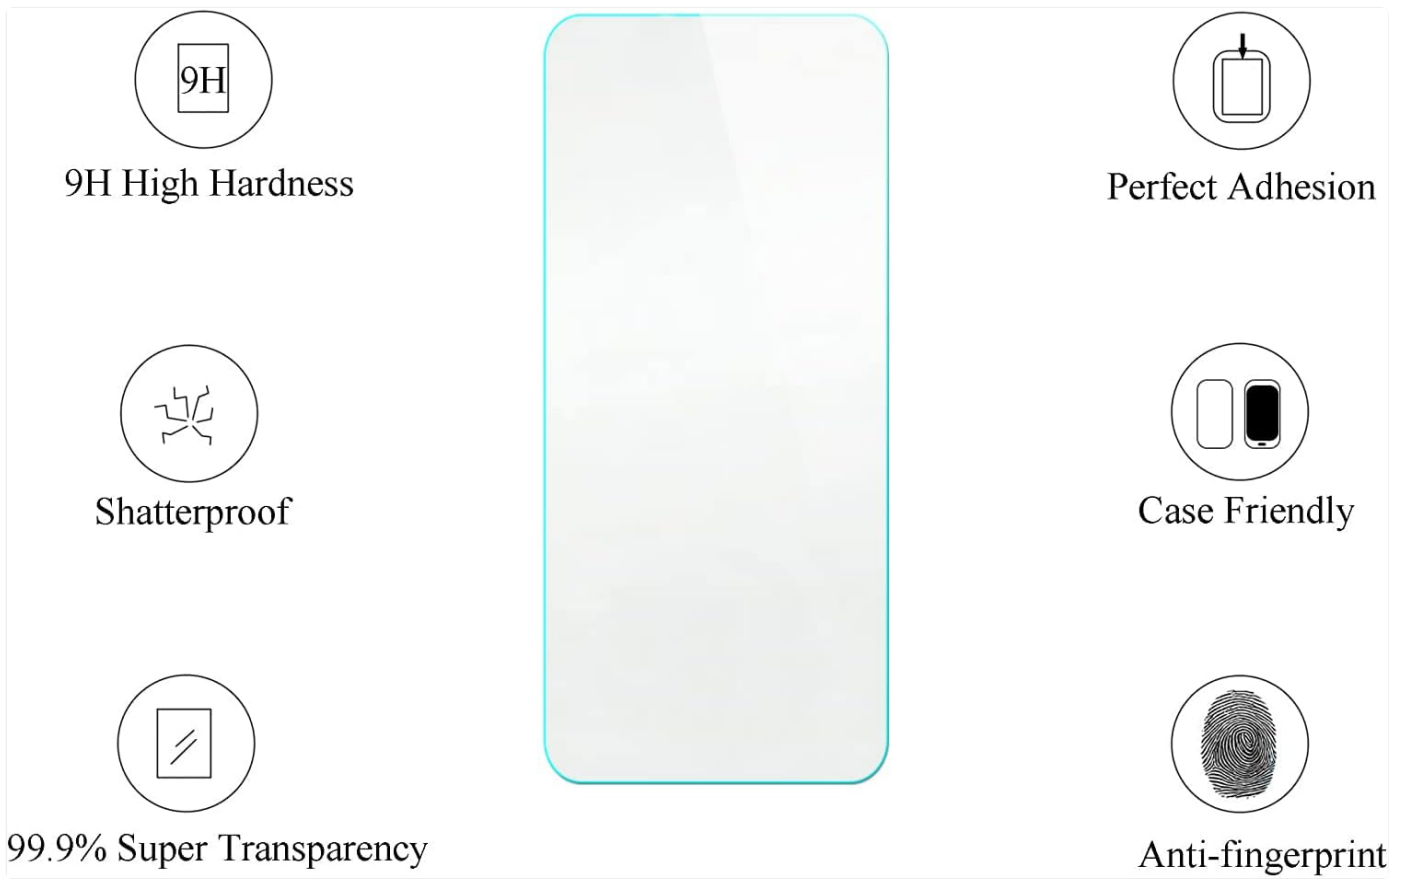

## SETUP AND INSTALLATION

---

### 1. Installing the Tempered Glass Screen Protector

Follow these steps to correctly install the tempered glass screen protector:

1. **Clean the Screen:** Use a microfiber cloth to thoroughly clean your phone's screen, removing all dust, smudges, and fingerprints. Ensure the screen is completely dry.
2. **Align the Protector:** Carefully align the tempered glass screen protector with your phone's screen. Pay attention to the cutouts for the speaker, camera, and home button (if applicable).
3. **Apply:** Once aligned, gently place the protector onto the screen. It will adhere automatically.
4. **Remove Bubbles:** If any bubbles appear, gently push them towards the edges of the screen using a soft cloth or squeegee.

## 2. Installing the Phone Case

To install the phone case:

1. Ensure your phone is clean and free of debris.
2. Gently insert your Kxd Blue Sea A16 Plus phone into the soft silicone frame of the case.
3. Press firmly around the edges to ensure the phone is securely seated within the case.

## OPERATING INSTRUCTIONS

---

### Using the Integrated Ring Support

The phone case features an adhesive metal finger ring support for enhanced grip and hands-free viewing. This ring can rotate 360 degrees and pivot 180 degrees.

- **Finger Grip:** Slide your finger through the ring for a secure hold, reducing the risk of accidental drops.
- **Kickstand Function:** Rotate the ring to a desired angle to prop up your phone for comfortable horizontal or vertical viewing.
- **One-Hand Operation:** The ring support allows for easier one-handed operation, enabling you to reach more areas of your screen.

# One-Hand Operation

Touch more spots on the screen

## Magnetic Car Mount Compatibility

The metal plate integrated into the ring support allows for compatibility with magnetic car mounts. Simply attach your phone case to a magnetic car mount (not included) for secure in-car navigation or hands-free use.

**Note:** This case does **not** support wireless charging when the metal ring is attached or if the phone is placed on a wireless charger with the case on. Please remove the case for wireless charging.

## SUPPORT MAGNETIC CAR MOUNT

Not include magnetic car mount,  
not support wireless charging.

## MAINTENANCE

---

To keep your phone case and screen protector in optimal condition:

- **Cleaning the Case:** Wipe the case regularly with a soft, damp cloth. For stubborn dirt, a mild soap solution can be used, followed by wiping with a clean, damp cloth and air drying.
- **Cleaning the Screen Protector:** Use a microfiber cloth to gently wipe the screen protector. For smudges, a screen cleaner spray designed for electronics can be used.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the case material or screen protector coating.
- **Avoid Extreme Temperatures:** Prolonged exposure to extreme heat or cold can affect the material integrity of the case.

## TROUBLESHOOTING

---

This section addresses common questions or minor issues you might encounter.

**Q: My screen protector has bubbles after installation.**

A: Small bubbles can often be pushed out towards the edges using a soft cloth or a credit card wrapped in a cloth. If large bubbles persist, it might indicate dust particles. Carefully lift a corner of the protector, remove any dust with a dust absorber sticker, and reapply.

**Q: The ring support feels loose.**

A: The ring support is designed for 360-degree rotation and 180-degree pivot. If it feels excessively loose or does not hold its position, ensure it is fully extended or retracted. If the adhesive base is loose, it may need to be re-adhered or replaced.

**Q: My phone is not wirelessly charging with the case on.**

A: The integrated metal ring in the case interferes with wireless charging. Please remove the case before placing your phone on a wireless charging pad.

## SPECIFICATIONS

---

Feature	Detail
Product Model	IMDH-HS
Compatibility	Kxd Blue Sea A16 Plus
Case Material	Hard PC (Polycarbonate) back panel, Soft Silicone frame
