

WilTec 65412

Wiltec Outdoor Cat Enclosure

MODEL 65412 INSTRUCTION MANUAL

1. Introduction

Thank you for choosing the Wiltec Outdoor Cat Enclosure, Model 65412. This enclosure is designed to provide a safe, stimulating, and comfortable outdoor environment for your cats. It offers ample space for movement, fresh air, and natural light, enhancing your cat's well-being while ensuring their security. This manual provides essential information for the correct assembly, operation, and maintenance of your cat enclosure. Please read these instructions carefully before assembly and retain them for future reference.

2. Safety Instructions

- Always assemble the enclosure on a flat, stable surface to prevent tipping.
- Ensure all screws and fasteners are securely tightened during assembly. Periodically check for loose connections.
- Keep small parts and tools out of reach of children and pets during assembly.
- Do not allow children to climb on or play inside the enclosure unsupervised.
- Regularly inspect the enclosure for any damage, such as broken mesh or splintered wood, and repair as necessary to prevent injury to your pets.
- Ensure the enclosure is placed in a location that offers adequate shade and protection from extreme weather conditions.
- The enclosure is designed for domestic cats. Do not use it for other animals or purposes.

3. Package Contents

Before beginning assembly, verify that all components listed below are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Wooden frame components (fir wood)
- Galvanized steel mesh panels
- Waterproof asphalt roof panels
- Removable waterproof tarp
- Platforms and resting box components
- Access door(s) with locking mechanism
- Assembly hardware (screws, hinges, latches)
- Instruction manual

4. Assembly Instructions

Assembly typically requires two people. Follow the numbered steps carefully. Tools required: screwdriver, hammer (optional), measuring tape.

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out. Refer to the parts list to identify each piece.
2. **Assemble Base Frame:** Connect the base wooden beams using the provided screws. Ensure the frame is square and stable.
3. **Attach Side Panels:** Securely attach the side mesh panels to the base frame. Ensure the galvanized steel mesh is facing outwards.
4. **Install Rear and Front Panels:** Mount the rear and front panels, including the main access door frame. Ensure the door frame is correctly oriented for opening.
5. **Install Internal Platforms and Resting Box:** Assemble the internal platforms and the enclosed resting box. Secure them at the desired heights within the enclosure. The main platform measures 69 x 33 cm. The resting box provides a private space for your cat.

Verschiedene Aktivitäten

Image: This view highlights the various activity areas within the enclosure, including platforms for climbing and observation, and a cozy resting box for privacy. The surfaces are designed to be claw-friendly.

6. **Attach Roof Structure:** Assemble the wooden roof frame and attach it to the top of the enclosure walls.
7. **Install Waterproof Roof:** Place the waterproof asphalt roof panels onto the roof structure. Secure them according to the instructions to ensure weather protection. Then, attach the removable waterproof tarp over the roof for additional protection against rain and UV rays.

Abnehmbare Abdeckung

Wasserresistent

UV-beständig

Image: The removable cover provides water-resistant and UV-resistant protection for the enclosure, ensuring a dry and comfortable environment for your cats in various weather conditions.

- 8. Install Doors and Latches:** Attach the large access door (150 x 56 mm) for pet owners and the smaller cat door, if applicable, using the provided hinges. Install the safety latches to ensure the doors are securely closed.

Leichter Zugang

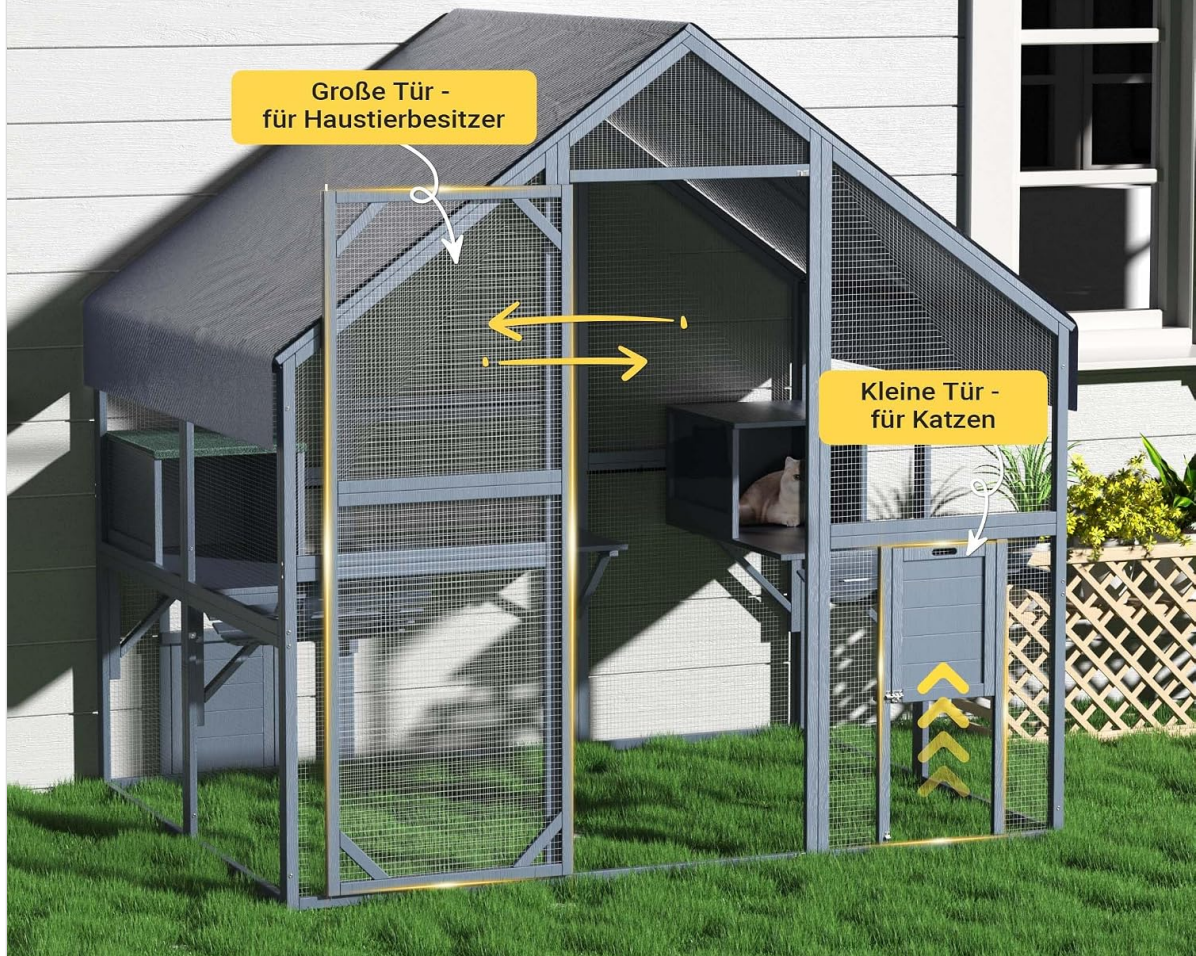

Image: The enclosure features a large door for easy human access and a smaller door specifically designed for cats, allowing them convenient entry and exit.

Sicheres Design

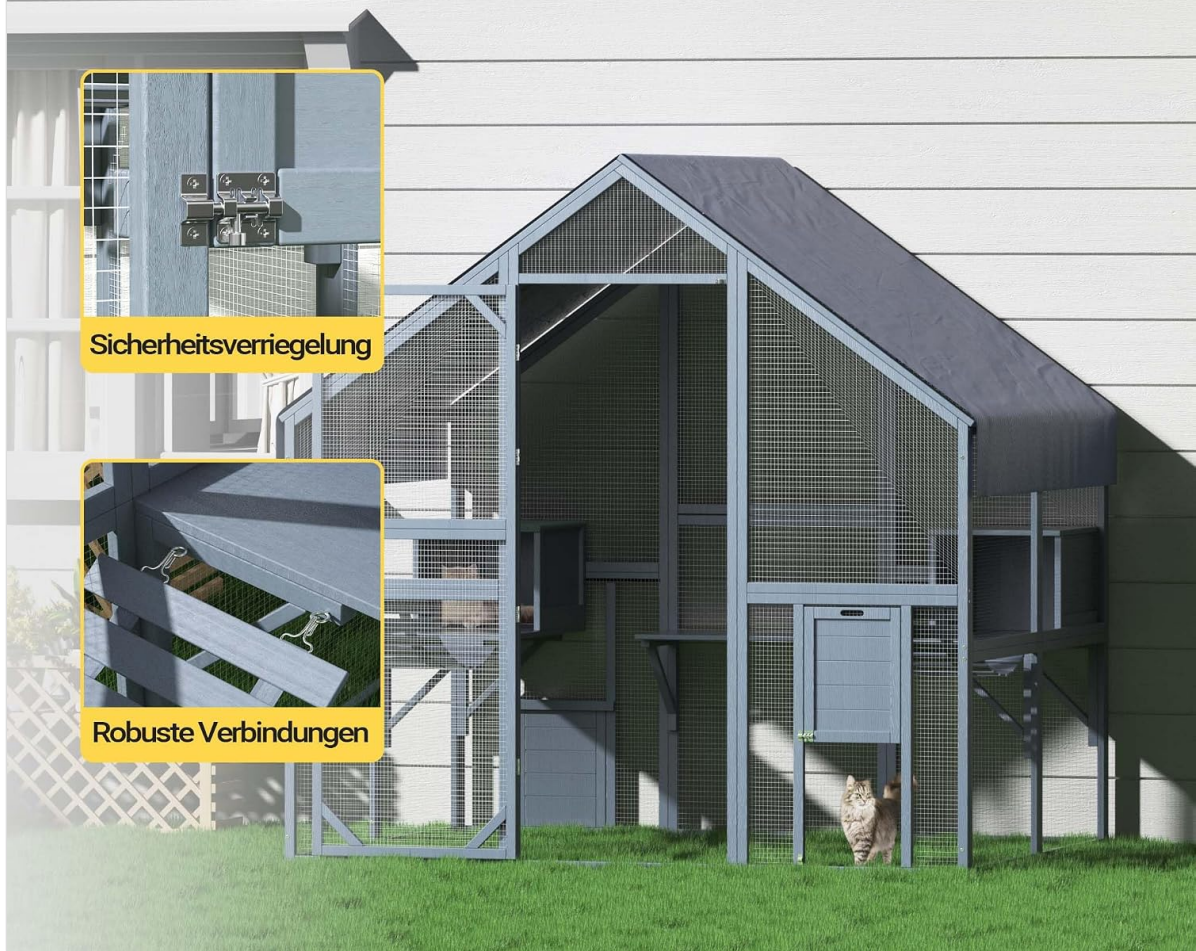

Image: This detail shows the secure design elements, including a safety latch on the door and robust connections throughout the wooden frame, ensuring the enclosure's stability and preventing escapes.

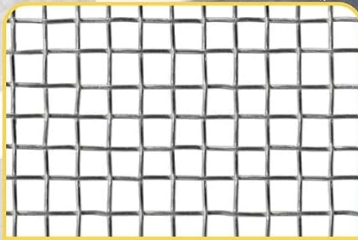

- 9. Final Inspection:** Once assembled, double-check all connections for tightness and stability. Ensure there are no sharp edges or protruding screws that could harm your pets.

The enclosure is constructed from fir wood with weather-resistant paint, galvanized mesh, and waterproof Oxford fabric for durability.

5. Operating Instructions

- **Introducing Your Cat:** Allow your cat to explore the enclosure at their own pace. You may place familiar bedding, toys, or treats inside to encourage them.
- **Access:** Use the large door for easy entry and exit when cleaning or interacting with your cats. Ensure the door is securely latched when not in use.
- **Supervision:** While the enclosure is secure, it is recommended to supervise your cats, especially during their initial uses, to ensure they adapt well and are safe.
- **Environmental Enrichment:** Utilize the platforms and resting box to provide varied activity levels and resting spots for your cats. Consider adding additional cat-safe toys or scratching posts.

6. Maintenance

- **Regular Cleaning:** Clean the enclosure regularly to maintain hygiene. Remove any waste, sweep or vacuum debris, and wipe down surfaces with pet-safe cleaners.

- **Wood Treatment:** The fir wood is treated with weather-resistant paint. To prolong its lifespan, especially in harsh climates, consider applying an additional non-toxic, pet-safe wood sealant or stain annually.
- **Mesh Inspection:** Periodically check the galvanized steel mesh for any signs of damage, rust, or weakening. Repair or replace damaged sections promptly to maintain security.
- **Roof Maintenance:** Ensure the waterproof asphalt roof and removable tarp are free of debris and standing water. Inspect for tears or damage and repair as needed to maintain water resistance.
- **Hardware Check:** Regularly inspect all screws, hinges, and latches for tightness. Tighten any loose hardware to ensure the structural integrity and security of the enclosure.

7. Troubleshooting

- **Enclosure feels wobbly:** Check all screws and connections. Ensure they are tightened securely. Verify the enclosure is on a level surface.
- **Water pooling inside:** Inspect the roof panels and tarp for proper installation and any damage. Ensure the enclosure is not placed in a depression where water can collect around the base.
- **Door not closing properly:** Check hinges for alignment and damage. Ensure the latch mechanism is clear of obstructions and functioning correctly.
- **Cats not using the enclosure:** Introduce your cats gradually. Place familiar items, treats, or catnip inside. Ensure the enclosure is in a quiet, comfortable location.

8. Specifications

Model Number	65412
Product Dimensions (L x W x H)	187 x 140 x 187 cm (73.6 x 55.1 x 73.6 inches)
Item Weight	31.89 Kilograms (70.3 lbs)
Material	Fir Wood, Galvanized Steel Mesh, Asphalt, Oxford Fabric
Color	Gray
Special Features	Water Resistant, Multiple Platforms, Resting Box, Secure Latch
Recommended Pet Type	Cat (Domestic Cats)
Usage	Outdoor
