GenXenon G06

GenXenon G06 Smart Glasses User Manual

Model: G06

INTRODUCTION

Thank you for choosing the GenXenon G06 Smart Glasses. These innovative glasses combine stylish design with advanced audio technology, offering UV400 polarized lenses, Bluetooth 5.3 connectivity, and intelligent features like auto on/off and touch controls. This manual provides detailed instructions to help you set up, operate, maintain, and troubleshoot your new smart glasses.

WHAT'S IN THE BOX

- GenXenon G06 Smart Glasses
- Magnetic Charging Cable
- Hard Case
- Lens Cloth
- User Manual

SETUP

1. Charging the Glasses

Before first use, fully charge your GenXenon G06 Smart Glasses. The glasses feature dual 100mAh batteries, providing 5+ hours of playtime or calls, and 5 days of standby. A full charge takes approximately 70 minutes.

1. Connect the magnetic charging cable to the charging ports located on the inside of each temple arm.
2. Plug the USB end of the cable into a compatible USB power adapter (not included).
3. The orange indicator light will be on during charging. It will turn off approximately 1 minute after the glasses are fully charged.

2. Bluetooth Pairing

The GenXenon G06 Smart Glasses use Bluetooth 5.3 for seamless connection to your devices.

1. Unfold the temple arms of the glasses. The glasses will automatically power on.
2. On your smartphone or other Bluetooth-enabled device, go to the Bluetooth settings.
3. Search for available devices and select "G06" (or similar identifier) from the list.
4. Once connected, you will hear an audio confirmation, and the glasses are ready for use.

OPERATING INSTRUCTIONS

Auto On/Off by Wearing Sensor

The glasses feature an intelligent wearing sensor. They automatically switch on when you wear them and switch off when you take them off, conserving battery life.

Audio Playback and Calls

Enjoy high-quality audio and manage calls with the open-ear design and integrated speakers.

- **Play/Pause Music:** Tap the touch control area once.
- **Next Track:** Double-tap the right touch control area.
- **Previous Track:** Double-tap the left touch control area.
- **Answer/End Call:** Tap the touch control area once during an incoming call.
- **Reject Call:** Long press the touch control area for 2 seconds during an incoming call.

Magnetic Charging

Magnetic Charging: The orange light is always on when charging, and the green light turns off after being fully charged for 1 minute

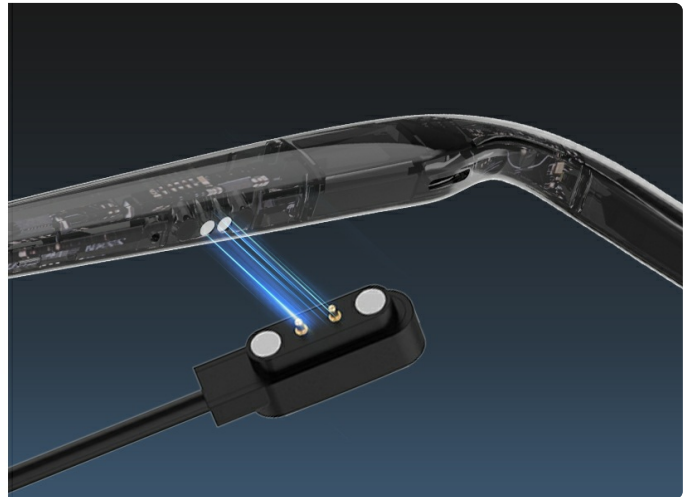

Image: Open directional sound field for audio.

Volume Control and Outdoor Mode

- **Adjust Volume:** Slide your finger forward on the right temple for volume up, and backward for volume down.
- **Outdoor Mode:** Triple-click the right touch control area to activate Outdoor Mode, which increases volume and optimizes sound for outdoor environments.

Image: Intuitive touch interaction for volume control.

Voice Assistant

Activate your device's voice assistant for hands-free control.

- **Wake Up Voice Assistant:** Long press the left touch control area for 2 seconds.

Remote Shooting

Capture photos remotely using your smart glasses.

- **Remote Photo Capture:** First, open the camera application on your connected phone. Then, tap the right touch control area once to take a photo.

MAINTENANCE

Cleaning

To maintain the clarity of your lenses and the integrity of the frame:

- Use the provided lens cloth to gently wipe the lenses.

- For stubborn smudges, use a specialized lens cleaning solution and a soft, lint-free cloth.
- Avoid using abrasive materials or harsh chemicals, as these can damage the lenses and frame.

Storage

When not in use, store your smart glasses in the provided hard case or soft drawstring bag to protect them from scratches and damage.

TROUBLESHOOTING

If you encounter issues with your GenXenon G06 Smart Glasses, refer to the following common solutions:

Problem	Possible Solution
Glasses not powering on	Ensure the glasses are fully charged. Unfold the temple arms completely to activate the auto on/off sensor.
Unable to pair via Bluetooth	Ensure Bluetooth is enabled on your device and the glasses are in pairing mode (unfolded). Forget previous pairings on your device and try again. Ensure the glasses are charged.
No sound or low volume	Check the volume levels on both the glasses (slide control) and your connected device. Ensure the glasses are properly positioned on your face. Activate Outdoor Mode for increased volume.
Sound leakage (others can hear audio)	The open-ear design allows for some ambient sound awareness. Reduce the volume if privacy is a concern.
Voice assistant not responding	Ensure the glasses are connected to your phone and the voice assistant is enabled on your device. Long press the left touch control area for 2 seconds to activate.
One side of the glasses not working/charging	Ensure both magnetic charging points are clean and properly connected to the cable. If the issue persists, contact customer support.
