Setup and Assembly

Assembly is required for this dining set. Please follow the detailed assembly instructions provided in the separate manual

included with your package. It is recommended to have a clear, flat workspace, possibly a workbench or saw horses, to facilitate assembly.

Assembly Tips:

- **Review Instructions:** Read through all steps before beginning.
- **Organize Parts:** Lay out all components and hardware to ensure nothing is missing. The manufacturer often includes spare parts.
- **Align Holes Carefully:** Some users have reported that holes may not always align perfectly. Gentle manipulation or loosening other bolts may be necessary to achieve proper alignment. Do not overtighten bolts until all components are loosely fitted.
- **Two-Person Assembly:** For the table and chairs, assembly may be easier with two people due to the size and weight of components.
- **Final Tightening:** Once all parts are in place, gradually tighten all bolts evenly.

Maintenance and Care

Proper care will extend the life and appearance of your dining set:

- **Cushion Care:** The fabric covers of the cushions are designed with zipper closures for easy removal. Machine wash covers on a gentle cycle with cold water, or hand wash. Air dry only. Do not bleach or iron.
- **Frame Cleaning:** Wipe the metal frame with a damp cloth and mild soap. Rinse thoroughly and dry completely to prevent water spots and maintain the rust-resistant coating. Avoid harsh chemicals or abrasive cleaners.
- **Seasonal Storage:** During harsh weather conditions or off-season, it is recommended to store cushions indoors and cover the furniture with a weather-resistant cover to protect it from elements.
- **Regular Inspection:** Periodically check all bolts and connections to ensure they remain tight. Retighten as necessary.

Troubleshooting

If you encounter issues with your ALAULM Patio Dining Set, please refer to the following common solutions:

Problem	Possible Cause	Solution
Parts do not align during assembly.	Bolts overtightened prematurely; slight manufacturing tolerance variations.	Loosen all bolts on the current section, gently adjust components to align holes, then gradually tighten all bolts evenly. Do not force parts.
Set feels wobbly after assembly.	Bolts not fully tightened; uneven ground.	Ensure all bolts are securely tightened. If on uneven ground, adjust the table's foot pads (if applicable) or place shims under legs.
Damaged or missing parts upon arrival.	Shipping damage; packaging issues.	Contact ALAULM customer support immediately with your order details and photos of the damage. Do not attempt to assemble damaged parts.

If you cannot resolve the issue, please contact ALAULM customer support for further assistance.
