4. SETUP AND ASSEMBLY INSTRUCTIONS

Assembly is required for this product. It is recommended that two adults assemble the dresser. Please follow the steps below carefully.

1. **Prepare the Area:** Clear a spacious, flat, and clean area for assembly. Lay down a blanket or cardboard to protect the furniture pieces and your floor from scratches.
2. **Identify Components:** Unpack all parts and identify them using the included parts list in your physical manual. Group similar parts together.
3. **Assemble the Frame:** Begin by assembling the main frame of the dresser. Attach the side panels to the top and bottom panels using the provided hardware (dowels, screws, cam locks). Ensure all connections are tight and secure.
4. **Install Drawer Runners:** Attach the drawer runners to the inside of the dresser frame, ensuring they are level and correctly oriented for smooth drawer operation.
5. **Assemble Drawers:** For each drawer, attach the side panels to the front and back panels. Insert the bottom panel into the grooves. Secure the drawer front panel, which features the handle-free design.
6. **Attach Drawer Slides:** Install the corresponding drawer slides to the sides of each assembled drawer.
7. **Insert Drawers:** Carefully slide each assembled drawer into its respective runner in the dresser frame. Test each drawer for smooth operation.
8. **Install Anti-Tip Kit:** Securely attach the anti-tip device to the back of the dresser and to a wall stud, following the specific instructions provided with the kit. This step is crucial for safety.
