# JOYBOS Mop and Bucket Set User Manual

Model: JBS-TC-0377952309

## 1. INTRODUCTION

---

This manual provides detailed instructions for the assembly, operation, and maintenance of your JOYBOS Mop and Bucket Set. Designed for efficient home floor cleaning, this hands-free flat mop system features a stainless-steel handle and includes 6 washable and reusable microfiber pads. Please read this manual thoroughly before first use to ensure proper function and longevity of your product.

## 2. SETUP AND ASSEMBLY

---

Follow these steps to assemble your JOYBOS Mop and Bucket Set:

1. **Unpack Components:** Carefully remove all components from the packaging. Ensure you have the mop handle sections, mop head, microfiber pads, and the bucket.

2. **Assemble Mop Handle:** Connect the stainless-steel handle sections by twisting them together clockwise until secure.
3. **Attach Mop Head:** Securely attach the assembled handle to the mop head.
4. **Install Microfiber Pad:** Refer to the detailed steps below for attaching a microfiber pad to the mop head.
5. **Position Bucket:** Place the bucket on a flat, stable surface. The bucket features 8 vacuum suction cups on its base to prevent displacement during use. Ensure the surface is clean and smooth for optimal suction.

## 2.1 Attaching the Microfiber Pad

Proper installation of the microfiber pad ensures effective cleaning and secure attachment.

### How to install the mop

- 1** Insert one side of the mop slot into the fixing buckle

- 2** Spread the mop board to the side of the movable buckle

- 3** Pull up the movable buckle and insert the other side of the mop

- 4** Flatten the buckle downwards to complete the installation

Image 2.2: Visual guide for installing the microfiber mop pad onto the mop head.

1. **Step 1:** Insert one side of the mop pad into the fixing buckle on the mop head.
2. **Step 2:** Spread the mop pad across the mop board, aligning it with the movable buckle on the opposite side.
3. **Step 3:** Pull up the movable buckle and insert the other side of the mop pad.
4. **Step 4:** Flatten the buckle downwards to secure the pad completely.

### 3. OPERATING INSTRUCTIONS

The JOYBOS Mop and Bucket Set is designed for hands-free cleaning, separating clean and dirty water for optimal hygiene.

#### 3.1 Filling the Bucket

Fill the 'Wash' chamber of the bucket with water. You may add a small amount of floor cleaning solution if desired. Ensure the water level is below the 'MAX' line indicated on the bucket.

Image 3.1: Illustration of the 7-layer scraper mechanism within the bucket, demonstrating clean and dirty water separation.

### 3.2 Wetting and Washing the Mop Pad

To wet and clean the mop pad:

1. Insert the mop head into the 'Wash' chamber of the bucket.
2. Move the mop handle up and down several times. The internal scraper will remove dirt and hair from the pad while submerging it in clean water.

Image 3.2: The mop head being cleaned in the wash chamber, showing dirt being scraped off.

### 3.3 Wringing and Drying the Mop Pad

To wring out excess water from the mop pad:

1. Transfer the mop head to the 'Dry' chamber of the bucket.
2. Move the mop handle up and down several times. The wringer mechanism will squeeze out water, leaving the pad damp for cleaning.
3. Adjust dryness: 1-2 times for 'DRY+', 2-4 times for 'DRY++', and 6+ times for 'DRY+++' (drier).

Image 3.3: Demonstrating the hands-free squeeze dry function, with indicators for different levels of dryness.

Image 3.4: The mop head in the dry chamber, showing water being squeezed out.

### 3.4 Cleaning Surfaces

The flat mop head and 360° spin feature allow for versatile cleaning:

- Use for various floor types including hardwood, tile, and laminate.
- The rectangular flat mop head is designed to reach deep underneath furniture and into tight corners.
- The mop can also be used for cleaning walls, windows, and baseboards.

Image 3.5: The rectangular flat mop head effectively cleaning under furniture.

Image 3.6: Demonstrating the versatility of the mop for cleaning floors, windows, walls, and under furniture.

## 4. MAINTENANCE

---

Regular maintenance ensures the longevity and performance of your JOYBOS Mop and Bucket Set.

### 4.1 Cleaning Microfiber Pads

The microfiber pads are reusable and machine washable. After each cleaning session, remove the pad from the mop head and wash it with similar colors. Avoid using fabric softeners, as they can reduce the pad's absorbency. Air dry or tumble dry on low heat.

### 4.2 Cleaning the Bucket

After each use, empty the dirty water from the bucket. Rinse both chambers thoroughly with clean water. The

bucket is made of durable polypropylene plastic, which is easy to clean. For stubborn residue, a mild detergent can be used. Ensure the bucket is dry before storage to prevent mildew.

### 4.3 Storage

Store the mop and bucket set in a cool, dry place. The compact design allows for easy storage in corners or utility closets.

## 5. TROUBLESHOOTING

If you encounter issues with your JOYBOS Mop and Bucket Set, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Mop pad not fully wetting in wash chamber.	Mop head not fully submerged or aligned.	Ensure the mop head is fully inserted and aligned with the wash chamber. Adjust the angle if necessary.
Bucket feels unstable during use.	Suction cups not properly engaged.	Ensure the bucket is placed on a clean, smooth, non-porous surface. Press down firmly on the bucket to engage the 8 vacuum suction cups.
Mop pad not wringing out effectively.	Mop head not fully inserted into dry chamber or insufficient pumping.	Ensure the mop head is fully inserted into the dry chamber. Pump the handle up and down more vigorously or for more repetitions.
Mop handle sections become loose.	Sections not twisted tightly enough.	Twist the handle sections clockwise until they are securely tightened.

## 6. SPECIFICATIONS

Key specifications for the JOYBOS Mop and Bucket Set (Model: JBS-TC-0377952309):

**Brand:** JOYBOS

**Model Number:** JBS-TC-0377952309

**ASIN:** B0F5HF1SBC

**Color:** White

**Material:** Plastic (Polypropylene), Stainless Steel

**Handle Material:** Stainless Steel

**Handle Type:** Straight handle

**Head Material:** Plastic

**Special Feature:** 360° Spin, Hands-Free Self-Cleaning Wringer, 8 Vacuum Suction Cups
