Dytole DY107 Black

Dytole Wireless Headset DY107 User Manual

Model: DY107 Black

Brand: Dytole

INTRODUCTION

Thank you for choosing the Dytole Wireless Headset DY107. This manual provides detailed instructions to help you get started and make the most of your new headset. Designed for professionals, this headset offers crystal-clear calls, long battery life, and versatile connectivity options for various devices and platforms.

What's in the Box

- Dytole Wireless Headset (Black)
- USB Dongle
- Smart Dock with Digital Display
- User Manual
- Type-C Cable

SETUP GUIDE

Charging the Headset

Before first use, fully charge your headset. The Smart Dock provides a convenient charging solution.

1. Connect the Type-C cable to the Smart Dock and a power source.
2. Place the Dytole Wireless Headset onto the Smart Dock. Ensure the charging contacts align.
3. The digital display on the dock will show the charging status. A full charge provides up to 65 hours of use. A 10-minute quick charge provides 2 hours of talk time.

The Dytol Wireless Headset DY107 charging on its Smart Dock, which also features a digital display for battery status and a convenient storage slot for the USB dongle.

Connecting to Devices

The Dytol Wireless Headset offers two primary connection methods: Bluetooth 5.3 and a 2.4G USB Dongle.

Bluetooth Connection

1. Ensure the headset is powered on.
2. On your device (PC, laptop, tablet, mobile phone), navigate to Bluetooth settings.

3. Search for available devices and select "DY107" from the list.
4. Once connected, the headset will indicate successful pairing.

USB Dongle Connection (Plug and Play)

1. Insert the 2.4G USB Dongle into an available USB port on your computer.
2. The dongle will automatically connect to the headset. The indicator light on the dongle will turn solid blue when paired.
3. On your computer's sound settings, ensure "DY107" is selected as both the input (microphone) and output (speaker) device.

Work Smarter, Connect Faster
Bluetooth **V5.3** for freedom
USB Dongle for plug-and-play stability (even without Bluetooth)

Bluetooth 5.3

The Dytolo Wireless Headset DY107 seamlessly connects to laptops, PCs, tablets, and mobile phones, supporting popular communication platforms like Zoom, Microsoft Teams, and Google Meet.

OPERATING INSTRUCTIONS

Basic Controls

- **Power On/Off:** Use the dedicated power button on the headset.
- **Volume Control:** Adjust volume using the +/- buttons on the earcup.
- **MFB Button (Multi-Function Button):** Press to answer/end calls, play/pause audio.
- **Mute Function:** Press the mute button on the microphone boom to mute/unmute your microphone.

Microphone Adjustment

The microphone boom is 270° adjustable, allowing you to position it for optimal voice pickup or to switch between left and right ear wearing preferences. Rotate the earcups for a comfortable fit.

10-Minute Charge, 2-Hour Power Never Miss a Moment

The advanced noise-canceling microphone ensures crystal-clear communication by filtering out background noise, making it ideal for professional calls.

More Than a Charger

Foldable stand design for easy viewing and hands-free calls

The multifunctional charging dock not only charges the headset but also serves as a convenient stand for your mobile phone or tablet, enhancing your workspace efficiency.

Your browser does not support the video tag.

MAINTENANCE

Battery Management

The headset features a long-lasting battery providing up to 65 hours of usage. For optimal battery life, charge the headset regularly using the provided Smart Dock.

The digital display on the Smart Dock provides real-time battery status, allowing you to monitor charge levels easily.

Clear Calls in Any Environment

Benefit from rapid charging: a mere 10 minutes on the dock provides 2 hours of talk time, ensuring you're always ready for your next call.

Cleaning

- Wipe the headset and charging dock with a soft, dry cloth.
- Avoid using abrasive cleaners or solvents.
- Keep the charging contacts on the headset and dock clean and free of debris.

TROUBLESHOOTING

Common Issues and Solutions

Issue	Possible Cause	Solution
-------	----------------	----------

Issue	Possible Cause	Solution
No Sound / Cannot Hear Audio	Headset not connected or selected as output device.	Ensure the headset is paired via Bluetooth or the USB dongle is properly inserted. Check your device's sound settings to confirm "DY107" is selected as the output device.
Microphone Not Working	Microphone muted or not selected as input device.	Press the mute button on the microphone boom to unmute. Verify "DY107" is selected as the input device in your computer's sound settings.
Cannot Pair via Bluetooth	Headset not in pairing mode or too far from device.	Ensure the headset is powered on and in pairing mode (refer to device's Bluetooth settings for instructions). Move the headset closer to your device. Clear previous Bluetooth connections if necessary.
Short Battery Life	Headset not fully charged or aging battery.	Ensure the headset is fully charged before use. If battery life significantly degrades, contact customer support.
Intermittent Connection	Interference or out of range.	Move closer to your connected device. Avoid obstacles between the headset and device. Reduce interference from other wireless devices.
