## 6. Maintenance

### 6.1 Upholstery Care (Lambswool)

- **Regular Cleaning:** Vacuum the lambswool upholstery regularly using a soft brush attachment to remove dust and loose debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub. For stubborn stains, use a mild upholstery cleaner specifically designed for lambswool or delicate fabrics. Test on an inconspicuous area first.
- **Avoid Harsh Chemicals:** Do not use bleach, abrasive cleaners, or solvents, as these can damage the fabric.
- **Drying:** Allow any cleaned areas to air dry completely. Do not use heat.

### 6.2 Frame and Slats

- Wipe the wooden and MDF components with a soft, damp cloth. Dry immediately.

- Periodically check all bolts and screws for tightness and re-tighten if necessary to maintain stability.
- Ensure the wooden slats remain properly seated in their supports.

## 7. Troubleshooting

- **USB Ports Not Working:** Ensure the daybed's power cord (if applicable) is securely plugged into a functional wall outlet. Check the device's charging cable for damage.
- **Drawers Not Sliding Smoothly:** Check for obstructions under the drawers. Ensure the wheels are clean and free of debris. Verify that the drawers were assembled correctly and the wheels are properly attached.
- **Bed Frame Wobbles:** Re-check all assembly bolts and screws. Tighten any loose connections. Ensure the bed is placed on a level surface.
- **Squeaking Noises:** Tighten all hardware. If squeaking persists, apply a small amount of lubricant (e.g., silicone spray) to metal-on-metal contact points or where slats meet the frame, avoiding upholstery.
