5. SETUP

5.1 Charging the Power Bank

Before first use, fully charge your power bank.

1. Connect a compatible USB-C cable to the power bank's USB-C input port, or a Lightning cable to the power bank's Lightning input port.
2. Connect the other end of the cable to a USB wall adapter (not included) or a computer's USB port.
3. The LED display will show the charging progress. When it reaches 100%, the power bank is fully charged.
4. Charging time is approximately 4 hours with a suitable fast charger.

5.2 Checking Battery Level

Press the power button once to view the remaining battery percentage on the LED display.

6. OPERATING INSTRUCTIONS

6.1 Charging Your Devices

The power bank can charge up to three devices simultaneously using its integrated cables and additional ports.

1. **Using Integrated Cables:**
 - Gently pull out the integrated Lightning cable and connect it to your Apple device.
 - Gently pull out the integrated Type-C cable and connect it to your USB-C device.
2. **Using USB-A Output:**
 - Connect your device's USB-A charging cable to the power bank's USB-A output port.
3. **Using USB-C Output:**
 - Connect your device's USB-C charging cable to the power bank's USB-C port (this port functions as both input and output).
4. The power bank will automatically detect the connected device and begin charging. The LED display

will show the charging status.

5. Disconnect your device once it is fully charged.

Note: The intelligent charging management system optimizes charging speed for connected devices.

7. MAINTENANCE

Proper maintenance ensures the longevity of your power bank.

- Clean the power bank with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- If not used for extended periods, charge the power bank at least once every three months to maintain battery health.
- Avoid overcharging or completely draining the battery frequently.
