Dreyoo DR-Dreyoo-1769

Dreyoo Bathtub Pop-Up Drain Stopper Instruction Manual

Model: DR-Dreyoo-1769

1. Product Overview

The Dreyoo Bathtub Pop-Up Drain Stopper is designed for universal fit in most bathtubs, featuring a convenient pop-up mechanism. It includes interchangeable thread studs (3/8" and 5/16") and a star-shaped lock washer for a secure, leak-resistant seal. The durable construction ensures reliable performance.

2. Package Contents

Please verify that all components are present in your package:

- 1 x Pop-Up Drain Stopper (Chrome finish)
- 1 x 3/8" Threaded Stud
- 1 x 5/16" Threaded Stud
- 1 x Star Shape Lock Washer

3. Setup and Installation

Follow these steps for proper installation:

1. **Confirm Drain Size:** Before installation, measure or confirm the thread size of your existing bathtub drain.
2. **Select Thread Stud:** Choose either the 3/8" or 5/16" threaded stud that matches your bathtub drain.
3. **Attach Stud:** Screw the selected stud firmly into the bottom of the plastic pop-up mechanism of the drain stopper.
4. **Install Stopper:** Insert the assembled drain stopper into your bathtub drain opening. Ensure the star shape lock washer is properly seated for a tight seal.

4. Operation

The Dreyoo Bathtub Pop-Up Drain Stopper operates with a simple push mechanism:

- **To Close:** Press down firmly on the top of the drain stopper until it clicks into the closed position. This will seal the drain, allowing the tub to fill with water.
- **To Open:** Press down firmly on the top of the drain stopper again. It will pop up, opening the drain and allowing water to flow out.

The pop-up design allows for convenient foot operation during showering.

5. Maintenance

Regular cleaning and maintenance will ensure the longevity and proper function of your drain stopper:

- **Cleaning:** Periodically remove the drain stopper from the drain. Clean any accumulated hair or debris from the rubber gasket and the stopper mechanism using a mild cleaner and a soft brush.
- **Gasket Inspection:** Inspect the rubber gasket for any signs of wear, cracks, or damage. A damaged gasket can lead to leaks.
- **Reassembly:** After cleaning, ensure all components are reassembled correctly, especially the star shape lock washer, to maintain a tight seal.

6. Troubleshooting

If you encounter issues with your drain stopper, consider the following:

- **Drain Leaks:** If the drain stopper is leaking, ensure the star shape lock washer is correctly installed and tightened.

Check the rubber gasket for any damage or misalignment.

- **Stopper Not Popping Up/Down:** Verify that the internal spring mechanism is not obstructed by debris. If the mechanism appears broken, replacement may be necessary.
- **Improper Fit:** If the stopper does not fit securely, double-check that you have used the correct 3/8" or 5/16" threaded stud for your bathtub drain.
- **Discoloration:** Some discoloration may occur over time depending on water quality and cleaning products used. Regular cleaning with non-abrasive cleaners can help maintain its appearance.

7. Specifications

Brand	Dreyoo
Model Number	DR-Dreyoo-1769
Material	Plastic
Color	Chrome
Item Weight	0.11 Pounds
Included Components	1 x Washer Drain Stopper, 1 x 3/8" Threaded Stud, 1 x 5/16" Threaded Stud, 1 x Star Shape Lock Washer
Thread Stud Sizes	3/8", 5/16"
