Motorola razr 60 Ultra

Motorola Razr 60 Ultra User Manual

Model: razr 60 Ultra

PRODUCT OVERVIEW

The Motorola Razr 60 Ultra is a state-of-the-art foldable smartphone designed for advanced performance and portability. It features a powerful Snapdragon® 8 Elite Mobile Platform, dual high-resolution AMOLED displays, and an innovative triple camera system. With integrated Moto AI and rapid charging capabilities, this device offers a seamless and intelligent user experience.

SAFETY INFORMATION

Before using your Motorola Razr 60 Ultra, please read all safety instructions carefully to ensure proper and safe operation. Keep the device away from extreme temperatures, direct sunlight, and liquids. Avoid dropping or subjecting the device to strong impacts. Use only approved chargers and accessories to prevent damage and ensure safety. Do not attempt to disassemble or repair the device yourself.

SETUP GUIDE

1. Unboxing and Initial Charge

Upon unboxing, locate the Motorola Razr 60 Ultra, the 68W TurboPower charger, USB Type-C cable, and SIM tool. It is recommended to fully charge your device before first use. Connect the USB cable to the charger and the phone's USB-C

port. The external display will indicate charging status.

2. Inserting the SIM Card

Locate the SIM tray on the side of the device. Use the provided SIM tool to gently eject the tray. Place your Nano-SIM card(s) into the tray with the gold contacts facing down, ensuring proper alignment. Carefully reinsert the tray into the phone. The device supports dual SIM functionality.

Image: Side view of the Motorola Razr 60 Ultra, illustrating the location of the SIM card tray and power/volume buttons.

3. Powering On/Off

To power on, press and hold the Power button (located on the side) until the Motorola logo appears. To power off, press and hold the Power button, then select 'Power off' from the on-screen options. A quick press of the Power button will lock/unlock the screen.

OPERATING YOUR DEVICE

Main Display (6.96" AMOLED 165Hz)

Unfold the device to access the expansive 6.96-inch Super HD AMOLED display. This display offers a 165Hz refresh rate for smooth scrolling and gaming, and a peak brightness of 4500 Nits for excellent visibility in various lighting conditions. Navigate using standard Android gestures and touch interactions.

Camera Usage

The Razr 60 Ultra features a versatile triple camera system: a 50MP main camera with OIS, a 50MP ultrawide + macro camera, and a 50MP front camera. You can use the external display for high-quality selfies with the main cameras. Access camera modes and settings through the camera application on either display.

BATTERY AND CHARGING

The Motorola Razr 60 Ultra is equipped with a 4700mAh battery. It supports 68W TurboPower charging for rapid replenishment, 30W wireless charging, and 5W reverse charging to power other compatible devices. For optimal battery health, avoid extreme temperatures and use only certified charging accessories.

MAINTENANCE

Cleaning Your Device

To clean your phone, use a soft, lint-free cloth. For stubborn smudges, slightly dampen the cloth with water or a screen cleaner designed for electronics. Avoid using harsh chemicals or abrasive materials. Pay special attention to the hinge area, ensuring it remains free of debris.

Software Updates

Regularly check for and install software updates to ensure your device has the latest features, security patches, and performance improvements. You can typically find update options in the phone's settings menu under "System updates" or "Software update."

TROUBLESHOOTING

- **Device Not Powering On:** Ensure the battery is charged. Connect the charger and wait a few minutes before attempting to power on again. If unresponsive, try a forced restart by holding the Power button for an extended period (e.g., 10-15 seconds).
- **External Display Issues:** If the external display flickers or shows lines, try restarting the device. Ensure the phone's software is up to date. If the issue persists, contact customer support.
- **Poor Battery Life:** Reduce screen brightness, close unused apps running in the background, disable unnecessary connectivity features (Bluetooth, Wi-Fi, GPS) when not in use, and limit background data usage.
- **Connectivity Problems:** For Wi-Fi or Bluetooth issues, try toggling the respective setting off and on. For mobile network issues, ensure your SIM card is properly inserted and that you have network coverage. Restarting the phone can often resolve temporary connectivity glitches.
- **Apps Crashing/Freezing:** Clear the cache and data for the problematic app in Settings > Apps. If the issue continues, uninstall and reinstall the app. Ensure your device has sufficient storage space.

SPECIFICATIONS

Feature	Detail
Operating System	Android™ 15
Processor	Snapdragon® 8 Elite Mobile Platform
RAM	16 GB LPDDR5X
Storage	512 GB UFS4.0
Main Display	6.96" 1224p Super HD Foldable AMOLED, 165Hz Refresh Rate, 4500 Nits Peak Brightness
