# Parsagi 20-inch Heavy-Duty Metal Rolling Plant Caddy Instruction Manual

Model: B0F5HWCHW5

## Introduction

This manual provides essential information for the safe and effective use of your Parsagi 20-inch Heavy-Duty Metal Rolling Plant Caddy. Designed for durability and convenience, this plant caddy features a rust-resistant finish, a deep tray to prevent spills, and smooth-rolling, lockable wheels. Please read these instructions thoroughly before assembly and use.

## Safety Information

- Ensure the plant caddy is placed on a stable, level surface before loading any plant pots.
- Do not exceed the maximum weight capacity of 550 lbs (249 kg).
- Always engage the wheel locks when the caddy is in a stationary position to prevent accidental movement.
- Exercise caution when moving heavy plants to avoid injury.
- Keep small children and pets away from the caddy during movement.

## Package Contents

- 1 x 20-inch Metal Plant Saucer
- 8 x Locking Casters
- 1 x Basic Wrench

## Setup Instructions

1. **Unpack Components:** Carefully remove all items from the packaging. Verify that all listed package contents are present.
2. **Attach Casters:** Turn the metal plant saucer upside down. Align each caster with the designated screw holes on the underside of the saucer. Insert the caster's threaded stem into the hole and tighten securely using the provided basic wrench. Ensure all 8 casters are firmly attached.

3. **Verify Stability:** Once all casters are attached, turn the plant caddy right side up. Gently press down on the caddy to ensure it is stable and all wheels are making contact with the ground.

*Image: Installation of casters on the underside of the plant caddy. Each caster should be securely fastened into its designated slot.*

## Operating Instructions

The Parsagi Rolling Plant Caddy offers versatile functionality as both a mobile plant stand and a stationary plant saucer.

## 1. Rolling Mode

To utilize the caddy in rolling mode, ensure all 8 casters are attached as per the setup instructions. Place your potted plant onto the caddy. The smooth-rolling steel wheels allow for effortless movement across various surfaces, including carpet, hardwood, and outdoor pavement. This mode is ideal for repositioning plants to optimize sunlight exposure or for easy cleaning underneath.

*Image: The plant caddy allows for 360-degree free rotation, enabling effortless movement of plants to different locations or for adjusting sunlight.*

## 2. Saucer Mode (with casters)

The caddy's deep tray design effectively prevents water and soil spills. When watering your plants, any excess water will collect in the tray, protecting your floors and carpets. The rust-resistant waterproof coating ensures durability in moist conditions.

*Image: The drainage-free design of the plant caddy prevents water and soil from leaking, keeping floors clean.*

### 3. Locking Wheels

Each wheel is equipped with a locking brake mechanism. To lock a wheel, press down on the lever located on the caster. To unlock, lift the lever. Always engage the locks when the caddy is in its desired stationary position to ensure stability and prevent unintended movement, especially on sloped surfaces or in households with children or pets.

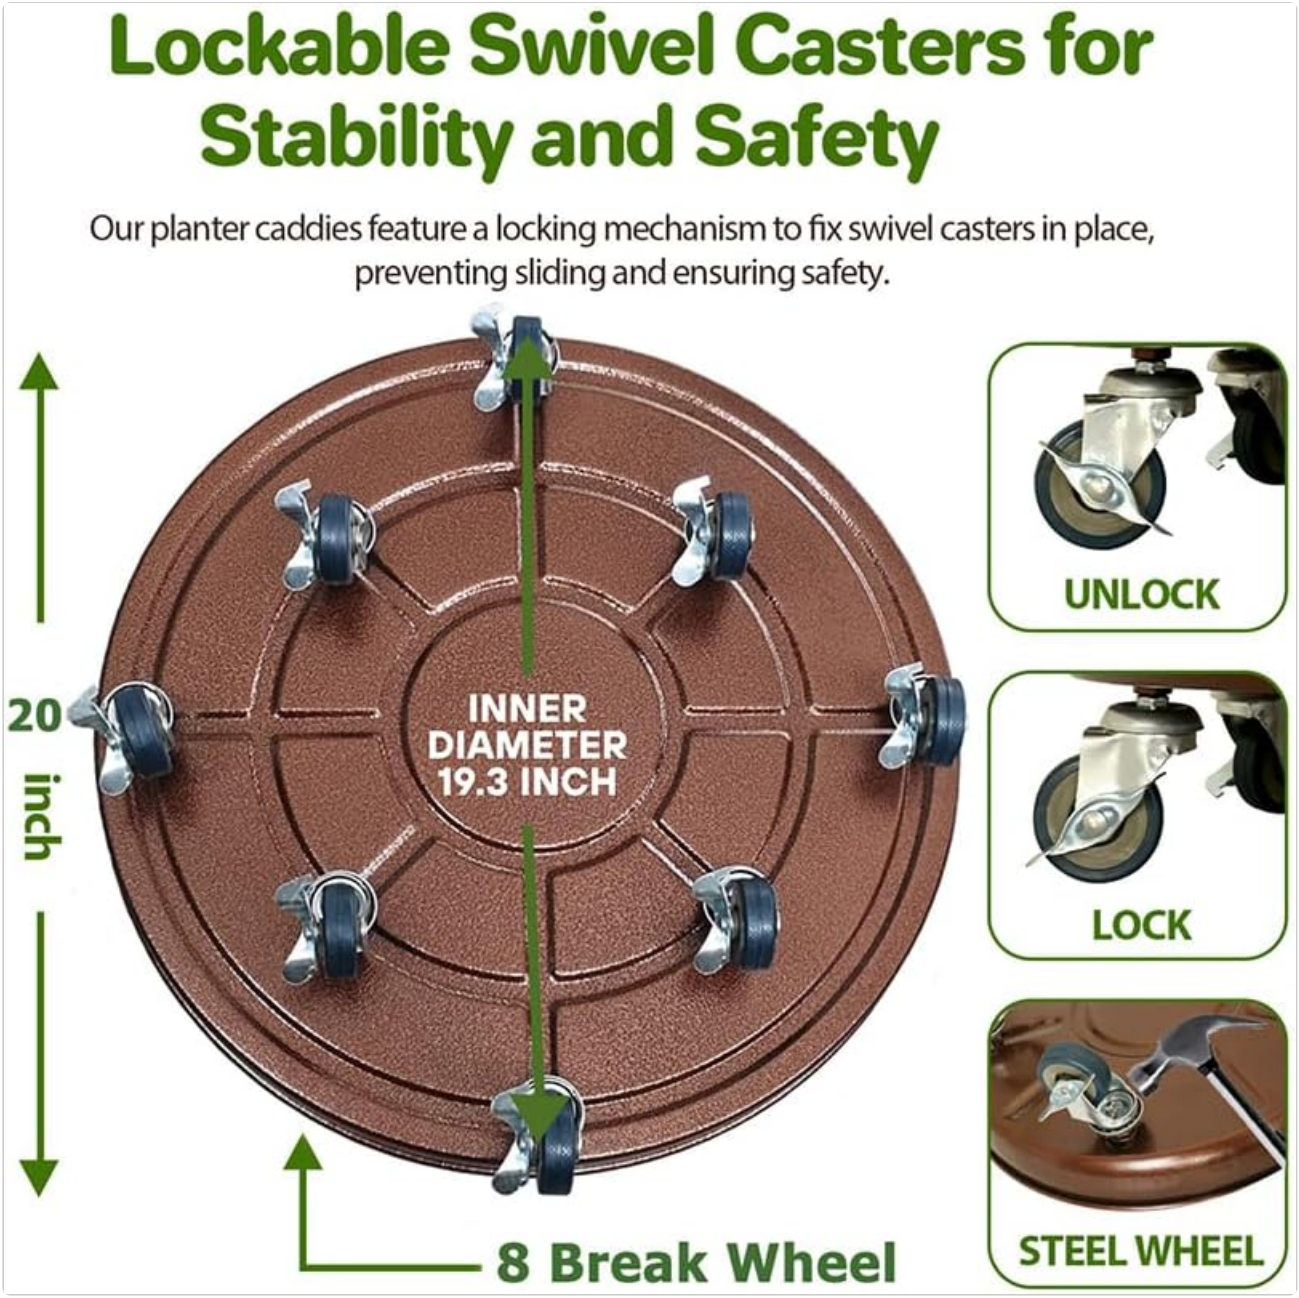

*Image: Detail of the lockable swivel casters, demonstrating how to engage and disengage the brake for stability and safety.*

## Maintenance

- **Cleaning:** Wipe the plant caddy with a damp cloth to remove dust, soil, or water stains. Avoid abrasive cleaners that could damage the rust-resistant finish.
- **Wheel Inspection:** Periodically check the casters for any debris (e.g., hair, dirt) that might hinder smooth rolling. Clean as necessary.
- **Rust Prevention:** While the caddy features a rust-resistant coating, prolonged exposure to standing water or harsh chemicals may affect its finish. Ensure the tray is emptied of excess water regularly.

## Troubleshooting

| Problem | Possible Cause | Solution |
|---|---|---|
| Caddy does not roll smoothly. | Debris caught in wheels; wheel locks engaged; uneven surface. | Check and clear debris from casters. Ensure wheel locks are disengaged. Move caddy to a level surface. |
| Caddy is unstable. | Uneven load; casters not fully tightened; uneven surface. | Distribute plant weight evenly. Re-tighten all casters. Move caddy to a level surface. |
| Water spills from tray. | Excessive watering; caddy tilted. | Reduce amount of water used. Ensure caddy is on a level surface. Empty accumulated water regularly. |

## Specifications

**Outer Diameter:** 20 inches (50 cm)

**Inner Diameter:** 19.3 inches (48.5 cm)

**Height:** 2.5 inches

**Weight Capacity:** Up to 550 lbs (249 kg)

**Material:** Heavy-Duty Carbon Structural Steel 60D

**Finish:** Rust-Resistant Baked Enamel (Copper tone)

**Casters:** 8 Locking Swivel Casters with Steel Wheels

**Model Number:** B0F5HWCHW5
