

## Insta360 Premium Lens Guards

# Insta360 X5 Premium Lens Guards User Manual

## 1. PRODUCT OVERVIEW

---

The Insta360 X5 Premium Lens Guards are designed to provide superior protection for your Insta360 X5 camera lenses. This set includes two high-quality glass lens covers, one for each side of your camera, safeguarding them from scratches, dust, and minor impacts during use. These guards are crafted to maintain optimal image quality while extending the lifespan of your camera's delicate lenses.

### What's Included

- Insta360 Premium Lens Guard Set for X5 (2 lens guards)

## 2. SETUP AND INSTALLATION

---

Follow these steps to properly install the Premium Lens Guards on your Insta360 X5 camera:

1. **Clean Camera Lenses:** Before installation, ensure both lenses of your Insta360 X5 camera are clean and free of dust or smudges. Use a microfiber cloth specifically designed for camera lenses.
2. **Align the Guard:** Take one lens guard. Align the guard with one of the camera's lenses. The guard is designed to fit precisely over the lens.
3. **Attach the Guard:** Gently press the lens guard onto the camera lens. You may need to twist it slightly clockwise until it securely clicks or locks into place. Ensure it is seated firmly and evenly around the lens.
4. **Repeat for Second Lens:** Repeat the process for the second lens guard on the other side of your Insta360 X5 camera.
5. **Verify Security:** Once both guards are installed, gently check that they are securely attached and do not wobble.

### 3. USAGE GUIDELINES

---

Once installed, your Insta360 X5 Premium Lens Guards provide continuous protection during normal camera operation. While highly durable, please observe the following:

- **General Protection:** The lens guards are effective against scratches, dust, and minor impacts encountered during typical use.
- **Not for Underwater Use:** These lens guards are specifically not designed for underwater use and are not waterproof. Using them underwater may lead to damage to the guards or the camera lenses.
- **Avoid Excessive Force:** While robust, avoid applying excessive force or direct sharp impacts to the lens guards, as this could compromise their integrity or damage the camera lenses underneath.

## 4. CARE AND MAINTENANCE

---

Proper care of your Premium Lens Guards ensures their longevity and maintains clear image quality:

- **Cleaning:** To clean the lens guards, gently wipe them with a clean, soft microfiber cloth. For stubborn smudges, a small amount of lens cleaning solution designed for optical glass can be applied to the cloth (not directly to the guard).
- **Dust Removal:** Use a blower brush to remove loose dust particles before wiping to prevent scratching.
- **Storage:** When not in use, store your camera with the lens guards attached in a protective case to prevent accidental damage.
- **Inspection:** Periodically inspect the lens guards for any signs of wear, deep scratches, or cracks. If significant damage occurs, consider replacing them to ensure continued protection and optimal image quality.

## 5. TROUBLESHOOTING

---

Issue	Possible Cause	Solution
Lens guard falls off easily	Improper installation; external pressure (e.g., from a silicone case).	Ensure the guard is twisted or snapped securely into place. If using a camera case, verify it does not exert pressure that could dislodge the guard. Re-install the guard carefully.
Reduced image clarity	Smudges, dust, or scratches on the lens guard.	Clean the lens guard thoroughly with a microfiber cloth. If the guard is heavily scratched, consider replacing it.
Guard does not fit	Incorrect model of lens guard or camera.	Ensure you have the correct Premium Lens Guards specifically for the Insta360 X5 camera.

## 6. TECHNICAL SPECIFICATIONS

Feature	Detail
Product Dimensions	3 x 2 x 0.5 inches
Item Weight	1.76 ounces
Model Name	Premium Lens Guards
Material	Glass-Premium
Item Hardness	11H
Special Feature	Scratch Resistant
