POPETPOP E27 Light Socket Base Bulb Holders Instruction Manual

Model: 506OGA3STAZ4117O7N7

1. PRODUCT OVERVIEW

The POPETPOP E27 Light Socket Base Bulb Holders are designed for versatile lighting applications, suitable for both indoor and outdoor environments. These refractory lamp sockets feature a heat-resistant ceramic inner layer for insulation and durability, and a waterproof sealing for reliable outdoor use. They are compatible with most E27 small three-way sockets, ensuring easy installation and broad applicability.

Package Contents:

- 2 x Lamp Sockets

2. SAFETY INFORMATION

WARNING: Always disconnect power at the circuit breaker before installing, servicing, or removing any lighting fixture or socket. Failure to do so may result in serious injury or death from electrical shock.

- Ensure all electrical connections are secure and comply with local electrical codes.
- Do not exceed the maximum wattage rating of the bulb or socket.
- Inspect the socket for any damage before installation. Do not use if damaged.
- Keep away from children.
- For outdoor use, ensure the waterproof sealing is properly engaged and maintained.

3. SETUP AND INSTALLATION

The POPETPOP E27 Light Socket is designed for straightforward installation. Follow these steps carefully:

1. **Power Disconnection:** Before beginning, ensure the power supply to the installation area is turned off at the main circuit breaker.
2. **Prepare Wiring:** Connect the electrical wires to the appropriate terminals within the socket. Ensure a secure connection for both live and neutral wires. The socket is compatible with standard E27 wiring configurations.
3. **Mounting:** Securely mount the light socket in your desired location. The design allows for various mounting options, including hanging or integration into existing fixtures.
4. **Waterproof Sealing (for outdoor use):** If installing outdoors, ensure the waterproof sealing ring is correctly positioned and tightened to prevent water ingress.
5. **Insert Bulb:** Once the socket is securely installed and wired, carefully screw an E27 base bulb into the socket until it is snug.
6. **Restore Power:** Turn the power back on at the circuit breaker.

Image 3.2: The E27 light socket positioned next to two E27 base light bulbs, highlighting its compatibility and ease of installation.

4. OPERATING INSTRUCTIONS

Operating the POPETPOP E27 Light Socket is simple once installed:

- Ensure an E27 base light bulb is securely screwed into the socket.
- Activate the power switch connected to the circuit where the socket is installed. The light should illuminate.
- To turn off the light, deactivate the power switch.
- To replace a bulb, always turn off the power at the circuit breaker first, allow the bulb to cool, then unscrew the old bulb and screw in the new one.

5. MAINTENANCE

Regular maintenance ensures the longevity and safe operation of your light socket:

- **Cleaning:** Periodically wipe the exterior of the socket with a dry, soft cloth. Do not use abrasive cleaners or liquids directly on the socket. Ensure power is off before cleaning.
- **Inspection:** Regularly inspect the socket for any signs of wear, damage, or loose connections. Pay particular attention to the wiring and the waterproof seal if used outdoors.
- **Heat Resistance:** The ceramic inner layer is designed for heat resistance. Avoid placing the socket in environments that exceed its intended operating temperature range.

6. TROUBLESHOOTING

If you encounter issues with your light socket, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Light does not turn on	No power to the socket Loose bulb Faulty bulb Incorrect wiring	Check circuit breaker and wall switch Tighten bulb Replace bulb Verify wiring connections (with power off)
Flickering light	Loose bulb Loose wiring connection Incompatible bulb	Tighten bulb Check and secure wiring (with power off) Ensure bulb is compatible with E27 socket
Socket feels hot	Bulb wattage too high Poor ventilation	Use a bulb with appropriate wattage Ensure adequate airflow around the fixture

If the problem persists after trying these solutions, consult a qualified electrician.

7. SPECIFICATIONS

Detailed specifications for the POPETPOP E27 Light Socket Base Bulb Holders:

- **Model Number:** 506OGA3STAZ4117O7N7
- **Dimensions:** Approximately 8.70 cm (3.42 in) height x 4.50 cm (1.77 in) width x 2.30 cm (0.90 in) depth
- **Color:** Grey
- **Materials:** ABS (Acrylonitrile Butadiene Styrene), Ceramic, Copper
- **Compatibility:** E27 screw base bulbs
- **Features:** Heat-resistant ceramic inner layer, waterproof sealing
- **Intended Use:** Indoor and Outdoor
