Ganiza GJ10

Ganiza GJ10 Slow Masticating Cold Press Juicer Instruction Manual

Model: GJ10 | Brand: Ganiza

1. INTRODUCTION

Thank you for choosing the Ganiza GJ10 Slow Masticating Cold Press Juicer. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new juicer. Please read all instructions carefully before first use and retain this manual for future reference.

The Ganiza GJ10 is designed to extract juice from a variety of fruits and vegetables, preserving nutrients through its slow masticating technology. Its user-friendly design ensures easy assembly, operation, and cleaning.

2. SAFETY INSTRUCTIONS

- Read all instructions before operating the appliance.
- Keep the appliance out of reach of children.
- Ensure the juicer is correctly assembled and all parts are securely locked before operation.
- Do not insert fingers or other objects into the feed chute while the appliance is operating. Use the pusher provided.
- Unplug the juicer from the power outlet before cleaning, disassembling, or when not in use.
- Do not immerse the motor base in water or any other liquid.
- Do not operate the appliance if the power cord or plug is damaged.
- Avoid juicing hard seeds, ice, or frozen fruits, as this may damage the auger and filters.
- The appliance has an auto-stop safety feature if the cover is opened during use.

3. PACKAGE CONTENTS

Verify that all components are present upon unpacking your Ganiza GJ10 Juicer:

Package Includes

Image: All components included in the Ganiza GJ10 Juicer package.

1. Motor Base
2. Juicer Chamber
3. Feeding Cup (with lid)
4. Spiral Auger
5. Filter Components (3 detachable filters for various fiber needs)
6. Pulp Cup
7. Juice Cup
8. Pusher
9. Cleaning Brush

4. ASSEMBLY

Follow these steps to correctly assemble your juicer before use:

Easy to Assemble

Image: Visual guide for juicer assembly.

1. Place the Juicer Chamber onto the Motor Base, aligning the guide mark with the unlock symbol. Rotate clockwise until it clicks into the lock symbol.
2. Insert the Spiral Auger into the center of the Juicer Chamber.
3. Select the desired Filter Component (fine, coarse, or sorbet) and insert it over the auger, ensuring it sits securely.
4. Place the Feeding Cup onto the Juicer Chamber, aligning the guide mark with the unlock symbol. Rotate clockwise until it clicks into the lock symbol.
5. Attach the lid to the Feeding Cup, ensuring it is securely closed. The juicer will not operate if the lid is not properly closed and locked.
6. Position the Juice Cup under the juice outlet and the Pulp Cup under the pulp outlet.

For a visual demonstration of the assembly process, please watch the video below:

Video: Ganiza GJ10 Slow Cold Press Juicer Assembly and Operation Overview.

5. OPERATING INSTRUCTIONS

5.1 Preparing Fruits and Vegetables

Wash all fruits and vegetables thoroughly. For most items, pre-cutting is not necessary due to the large 4.3-inch feed chute. However, for very large or fibrous items, cutting into smaller pieces may be beneficial.

4.3" Extra Large Feed Chute

For Most juiceable vegetables and fruits

Image: Large 4.3-inch feed chute for whole fruits and vegetables.

5.2 Juicing Process

1. Ensure the juicer is properly assembled and the juice and pulp cups are in place.
2. Plug the power cord into a suitable electrical outlet.
3. Turn the rotary button to the 'ON' position to start the juicer.
4. Slowly feed fruits and vegetables into the feed chute. Use the pusher only if necessary to guide ingredients down.
5. Observe the juice flowing into the Juice Cup and pulp collecting in the Pulp Cup.
6. If ingredients become jammed, turn the rotary button to the 'REV' (Reverse) position for a few seconds to clear the blockage, then return to 'ON'.
7. Once juicing is complete, turn the rotary button to the 'OFF' position and unplug the appliance.

5.3 Filter Selection

The Ganiza GJ10 comes with 3 detachable filters to customize your juicing experience:

- **Fine Filter:** For harder fruits and vegetables (e.g., apples, carrots).
- **Coarse Filter:** For fruits with more fiber (e.g., celery, pineapple).
- **Sorbet Filter:** For less fibrous fruits or making sorbets.

3 Mesh Options, 99.7% Juice Yield

Designed for Various Fiber & Firmness Needs

6. DISASSEMBLY

To disassemble your juicer for cleaning or storage, follow these steps in reverse order of assembly:

Image: Visual guide for juicer disassembly.

1. Ensure the juicer is unplugged.
2. Unlock and remove the Feeding Cup from the Juicer Chamber.
3. Remove the Filter Component and the Spiral Auger.
4. Unlock and remove the Juicer Chamber from the Motor Base.
5. Separate the juice and pulp cups.

7. CLEANING AND MAINTENANCE

Regular cleaning ensures optimal performance and longevity of your juicer. All detachable parts are easy to clean with water and the included brush.

Easy to Clean

Filter can be detachable for clean

Fully clean all the parts

1. After each use, disassemble the juicer as described in Section 6.
2. Rinse all detachable parts (Juicer Chamber, Feeding Cup, Spiral Auger, Filter Components, Juice Cup, Pulp Cup, Pusher) under running water.
3. Use the provided cleaning brush to remove any pulp residue from the filters and other components. The separable feed tube and filter design allows for thorough cleaning of all corners.
4. Wipe the Motor Base with a damp cloth. Never immerse the Motor Base in water.
5. Allow all parts to air dry completely before reassembling or storing.

8. TROUBLESHOOTING

If you encounter any issues with your Ganiza GJ10 Juicer, refer to the following common problems and solutions:

- **Juicer does not turn on:**
 - Ensure the power cord is securely plugged into a working outlet.
 - Verify that all parts are correctly assembled and locked into place. The safety lock prevents operation if components are not aligned.
- **Ingredients are stuck or juicer stops:**
 - Turn the rotary button to the 'REV' (Reverse) position for a few seconds to dislodge the ingredients.
 - If the issue persists, turn off and unplug the juicer, then disassemble and clear any blockages manually.
 - Avoid overloading the juicer with too many ingredients at once.
- **Low juice yield or wet pulp:**
 - Ensure the correct filter is being used for the type of fruit/vegetable.
 - Feed ingredients slowly to allow the auger to fully process them.
 - Clean the filter thoroughly, as clogs can reduce yield.
- **Excessive noise or vibration:**
 - Check that all parts are securely assembled and locked.
 - Ensure the juicer is placed on a flat, stable surface.

9. SPECIFICATIONS

Brand	Ganiza
Model Name	GJ10
Color	Black Silver
Product Dimensions	14"D x 6.65"W x 12"H
Capacity	2.7 Pounds
