YASONIC YS-432-B

YASONIC Shower Caddy Instruction Manual

MODEL: YS-432-B

INTRODUCTION

Thank you for choosing the YASONIC Shower Caddy. This manual provides detailed instructions for the assembly, installation, and maintenance of your new shower organizer. Designed for efficiency and durability, this caddy helps keep your bathroom essentials organized and easily accessible. The YASONIC Shower Caddy is crafted from premium aluminum alloy, ensuring it is rust-resistant and suitable for wet environments. Its ergonomic design accommodates various bottle sizes and offers multiple storage options to enhance your shower experience.

PACKAGE CONTENTS

Please verify that all components listed below are included in your package:

- Shower Basket (Large) x 1
- Shower Basket (Small) x 1
- U-shaped Hanging Bar x 1
- L-shaped Bar x 1
- Removable Hooks x 3
- Soap Holder x 1
- Adhesive Stickers x 2
- Suction Cup Clip x 1
- U-shape Rubber x 1
- Screws and Allen Wrench (for assembly)
- Instruction Manual x 1

What's in the box ?

SETUP AND INSTALLATION

Follow these steps to assemble and install your YASONIC Shower Caddy. No drilling is required.

- 1. Assemble the Baskets:** Connect the large basket to the L-shaped bar using the provided screws. Then, connect the small basket to the U-shaped hanging bar with screws. *Note: Before final assembly, do not overtighten the screws; leave them slightly loose until all parts are connected.*
- 2. Check Shower Head Type:** Determine if your shower head is a large rain shower type or a

standard small shower head. This affects the initial hanging step.

3. **Hang the Caddy:** Carefully hang the assembled caddy over your shower head. The U-shaped rubber on the top bar helps prevent scratching and provides a snug fit.
4. **Secure to Wall (Option 1: Adhesive Stickers):** Clean and dry the wall surface thoroughly where the caddy will rest. Peel off the film from the two adhesive stickers and firmly press them onto the L-shaped bar on both sides, ensuring all air is squeezed out. This provides strong, damage-free fixation.
5. **Secure to Wall (Option 2: Suction Cup):** Alternatively, if your wall surface is smooth, you can use the suction cup clip. Secure the suction cup in place on the lower bar and press it firmly against the clean, dry wall to create a vacuum seal.
6. **Install Removable Accessories:** Attach the three removable hooks to the sides of the baskets as desired for hanging loofahs, razors, or brushes. Clip the soap holder onto either side of the lower basket.
7. **Final Tightening:** Once the caddy is securely in place and aligned, tighten all screws to ensure maximum stability.

How to install

- **Step 1:**
Large basket connects to bottom L-bar
- **Step 2:**
Connect the small basket to the U-shaped hanging bar
- **Step 3:**
Install non-marking adhesive or suction cups
- **Step 4:**
Hang on the shower head
- **Step 5:**
Dry the wall and fix the non-marking adhesive on the wall

If the shower is too large, you need to hang the U-shaped tube first and then assemble the screws

OPERATING INSTRUCTIONS

The YASONIC Shower Caddy is designed for convenient and organized storage of your shower essentials.

- **Capacity:** The caddy features two tiers with ample space. The expanded height between shelves allows the lower tier to accommodate taller and larger bottles (up to 40 lbs total capacity) without interfering with the upper shelf.
- **Versatile Storage:** Use the baskets for shampoos, conditioners, body washes, and other bottles. The removable hooks are ideal for hanging loofahs, razors, washcloths, or brushes. The dedicated soap holder keeps bar soap dry and easily accessible.
- **Placement:** While primarily designed to hang over a shower head, the caddy can also be hung in other areas of your home using appropriate hooks or nails, provided the surface is smooth for adhesive/suction cup use.

MAINTENANCE

To ensure the longevity and appearance of your YASONIC Shower Caddy, follow these maintenance guidelines:

- **Cleaning:** Regularly wipe down the caddy with a soft cloth and mild soap or a non-abrasive bathroom cleaner. Rinse thoroughly with water to remove any soap residue.
- **Drying:** The hollow structure promotes efficient drainage, but occasional drying with a towel can help maintain its shine and prevent water spots.

- **Rust Prevention:** Made from premium aluminum alloy, the caddy is designed to be rust-resistant. Avoid using harsh chemicals or abrasive scrubbers that could damage the protective coating.

Figure 6: The caddy's premium aluminum construction ensures it is rust-resistant, sturdy, and waterproof.

TROUBLESHOOTING

Issue	Possible Cause	Solution
-------	----------------	----------

Issue	Possible Cause	Solution
Caddy is unstable or swinging.	Adhesives/suction cup not properly applied or surface is not clean.	Ensure wall surface is clean and dry. Reapply adhesive stickers or suction cup, pressing firmly to remove air. For best stability, use both adhesive stickers and the suction cup.
Caddy slides down the shower arm.	U-shape rubber not correctly positioned or shower arm is too narrow.	Adjust the U-shape rubber to fit snugly around the shower arm. Ensure it is fully engaged.
Bottles do not fit on shelves.	Incorrect bottle placement or bottles exceed height/weight limits.	Utilize the expanded height of the lower tier for taller bottles. Ensure total weight does not exceed 40 lbs.
Rust appears on the caddy.	Exposure to harsh chemicals or abrasive cleaning.	Clean with mild soap and water. Avoid abrasive materials. Contact customer support if rust persists under normal use.

SPECIFICATIONS

Feature	Detail
Model Number	YS-432-B
Material	Premium Aluminum Alloy
Color	Bright Silver
Product Dimensions	5"D x 12.8"W x 26.37"H
Weight	1.83 pounds
