ALIGATOR AZA930B

ALIGATOR AZA930B Mobile Phone User Manual

Model: AZA930B

1. INTRODUCTION

The ALIGATOR AZA930B is a mobile phone designed with ease of use in mind, particularly for seniors. It features a large keypad, a clear 2.8-inch color display, and essential safety functions such as an SOS button and SOS locator. This manual provides detailed instructions on how to set up, operate, maintain, and troubleshoot your device to ensure optimal performance and safety.

2. SAFETY INFORMATION

Please read this section carefully before using your phone to ensure safe and proper operation.

- **Battery Safety:** Use only ALIGATOR approved batteries and chargers. Do not short-circuit, puncture, or expose the battery to extreme temperatures. Dispose of batteries properly.

- **Charging:** The phone does not include a charger. Use a compatible USB-C charger (recommended model ALIGATOR CHA0047) with a power output of 2.5-3W. Avoid charging in damp conditions.

- **Hearing Protection:** Avoid prolonged listening at high volume levels to prevent hearing damage.

- **Driving Safety:** Always prioritize driving safety. Use hands-free accessories and obey all local laws and regulations regarding mobile phone use while driving.

- **Medical Devices:** Maintain a safe distance between the phone and medical devices such as pacemakers. Consult your physician and the medical device manufacturer for specific guidelines.

- **Water Resistance:** This phone is not water-resistant. Avoid exposure to liquids.

3. PACKAGE CONTENTS

Verify that all items are present in your product package:

- ALIGATOR AZA930B Mobile Phone

- Charging Dock

- User Manual (this document)

- *Note: Charger is not included and must be purchased separately.*

4. SETUP

4.1. Inserting SIM Cards

The ALIGATOR AZA930B supports Dual SIM (2 x Nano SIM) functionality. To insert SIM cards:

1. Power off the phone.
2. Remove the back cover and battery.
3. Locate the SIM card slots. Insert your Nano SIM cards into the designated slots, ensuring the gold contacts face down and the cut corner aligns correctly.
4. Replace the battery and back cover.

4.2. Inserting a Micro SD Card

The phone supports a Micro SD memory card up to 256 GB for additional storage.

1. Follow steps 1 and 2 from "4.1. Inserting SIM Cards".
2. Locate the Micro SD card slot. Insert the Micro SD card with the gold contacts facing down until it clicks into place.
3. Replace the battery and back cover.

4.3. Initial Charging

Before first use, fully charge the phone's 1700 mAh Li-ion battery.

- Connect the USB-C cable (not included) to the phone's USB-C port or place the phone in the charging dock.
- Connect the other end of the cable to a compatible charger (e.g., ALIGATOR CHA0047, 2.5-3W) or a powered USB port.
- The charging indicator will illuminate. A full charge may take several hours.

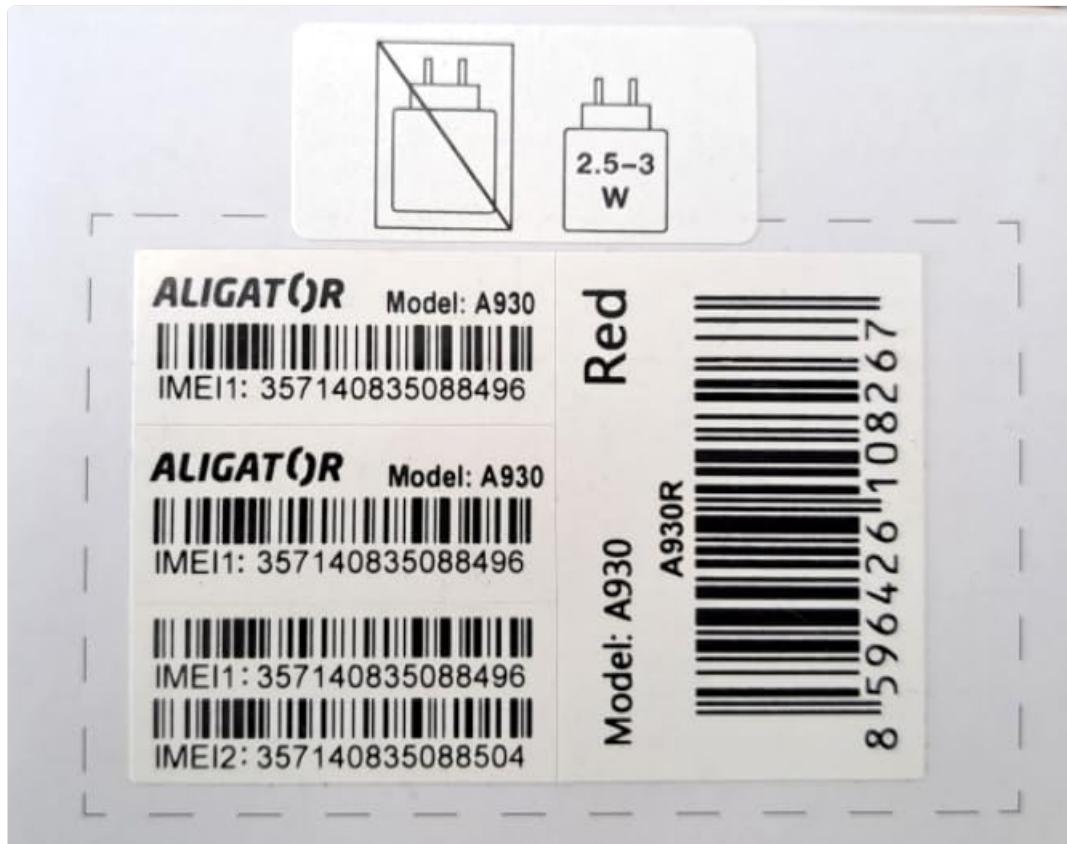

Figure 4.2: Detail from the product box, explicitly showing an icon indicating that a charger is not included and specifying a recommended charger power of 2.5-3W.

5. OPERATING INSTRUCTIONS

5.1. Power On/Off

- **To Power On:** Press and hold the Power/End Call button (red button) until the screen lights up.

- **To Power Off:** Press and hold the Power/End Call button until the power off options appear, then select "Power off".

5.2. Basic Call Functions

- **Making a Call:** Enter the phone number using the large keypad and press the Call button (green button).

- **Answering a Call:** When the phone rings, press the Call button (green button).

- **Ending a Call:** Press the Power/End Call button (red button).

- **Hands-Free:** During a call, activate hands-free mode via the on-screen option or a dedicated button if available.

5.3. SOS Button and SOS Locator

The SOS button is a critical safety feature, allowing quick contact in emergencies.

- **SOS Button:** Located on the back of the phone (often red). Press and hold this button to activate the emergency sequence.

- **SOS Presets:** You can set up to 5 preset emergency contacts. When the SOS button is pressed, the phone will automatically call these numbers in sequence and send an emergency SMS.

- **SOS Locator:** This function sends the phone's location via SMS to the emergency contacts after the SOS button is pressed. The recipient can then view the location on a map via a web link provided in the SMS. This feature utilizes both GSM and GPS for location accuracy.

Figure 5.2: Angled rear view of the ALIGATOR AZA930B, demonstrating the activated flashlight feature.

5.4. "Zachranka" Rescue Application

The "Zachranka" application is a mobile emergency call application pre-installed on the device.

- It provides quick contact with emergency medical services or mountain rescue.
- The application is valid in Austria, Hungary, the Czech Republic, and in the territories of the Slovak mountains.
- For more information, refer to the "Zachranka" app's official resources.

Figure 5.3: Front and back views of the ALIGATOR AZA930B, accompanied by the "Zachranka" rescue application logo, indicating its integration with the device.

5.5. Other Features

- **Phonebook:** Store up to 500 contacts.

- **Messaging:** Send and receive SMS messages (memory for 100 SMS). Supports sending photos via MMS.
- **Multimedia:**
    - **FM Radio:** Listen to FM radio stations.
    - **Media Player:** Play audio and video files stored on the phone or Micro SD card.
    - **Voice Recorder:** Record voice memos.
- **Flashlight:** Activate the built-in flashlight for illumination.
- **Tools:** Includes Alarm, Calculator, and SIM toolkit support.
- **Bluetooth:** Connect to Bluetooth headsets or other devices.
- **Vibration Alarm:** Set the phone to vibrate for incoming calls or notifications.
- **Melodies:** Choose from 10+1 pre-installed melodies.
- **Automatic Time Adjustment:** The phone can automatically adjust its time.

6. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the phone's surface. Avoid using harsh chemicals or abrasive materials.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Store the phone in a cool, dry place if not used for extended periods.
- **Storage:** Keep the phone away from extreme temperatures, direct sunlight, and dusty environments.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Phone does not turn on.	Battery is depleted or not properly inserted.	Charge the battery. Ensure the battery is correctly inserted.
No network signal.	SIM card not inserted correctly or out of network coverage.	Reinsert SIM card. Move to an area with better network coverage.
Cannot make or receive calls.	No credit, SIM card issue, or network problem.	Check your account balance. Verify SIM card insertion. Contact your network provider.
SOS button not working.	SOS numbers not set up or incorrect.	Ensure SOS numbers are correctly configured in settings. Check network signal.
Battery drains quickly.	High usage, background apps, or aging battery.	Reduce screen brightness. Close unnecessary applications. Consider replacing the battery if it's old.
