PETFROH Loshall Card

PETFROH Loshall Card Smart Tracker User Manual

Model: Loshall Card

1. Introduction

Thank you for choosing the PETFROH Loshall Card Smart Tracker. This ultra-thin, card-shaped device is designed to help you keep track of your valuable items using Apple's Find My network. With MFi certification, real-time notifications, and a long-lasting rechargeable battery, it offers a convenient and secure way to prevent loss. This manual will guide you through the setup, operation, and maintenance of your device.

2. Product Overview

The PETFROH Loshall Card Smart Tracker is a compact and durable device engineered for seamless integration with the Apple Find My ecosystem. Its slim profile allows it to fit easily into wallets, cardholders, or attach to other personal items.

Key Features:

- **Ultra-thin Card Design:** Weighing 18g and only 2.43mm thick, it fits discreetly into wallets or cardholders.
- **Apple MFi Certified & Find My Network Compatible:** Utilizes the standard Apple Find My app without requiring additional applications.
- **Real-time Detachment Notification:** Receive automatic alerts on your smartphone if the item leaves a specified radius.
- **Lost Mode:** Register contact information and a message for finders, with device locking to prevent re-pairing.
- **IP68 Dustproof & Waterproof:** Fully dustproof and waterproof up to 1.5m for 30 minutes, suitable for various environments.
- **Ultra-long Battery Life & Wireless Charging:** Eco-friendly wireless charging provides up to 6 months of continuous operation on a full charge, eliminating the need for battery replacement.

Product Components:

- PETFROH Loshall Card Smart Tracker
- Wireless Charger
- User Manual

3. Setup

3.1 Initial Charging

Before first use, it is recommended to fully charge your Loshall Card Smart Tracker. Use the provided wireless charger. Place the tracker on the charging pad. The device will indicate when charging is complete.

3.2 Pairing with Apple Find My

1. Ensure your iPhone, iPad, or Mac is updated to iOS 18.0.1 or higher.
2. Enable Bluetooth on your iOS device.
3. Open the standard 'Find My' app on your device.
4. Tap the 'Items' tab and then tap the '+' icon to add a new item.
5. Follow the on-screen instructions to detect and pair your PETFROH Loshall Card Smart Tracker.
6. Once paired, you can name your tracker and assign an emoji for easy identification.

Note: If you experience connection issues after a system update, try restarting Bluetooth and the 'Find My' app, or reset the wireless tag to its initial settings.

4. Operating Instructions

4.1 Locating Items (Close Range)

When your tracker is within Bluetooth range of your iOS device, you can use the 'Find My' app to play a sound on the tracker. The device features an 80dB loud buzzer to help you pinpoint its exact location by sound.

1. Open the 'Find My' app.
2. Select your Loshall Card Smart Tracker from the 'Items' list.
3. Tap 'Play Sound'. The tracker will emit a sound, guiding you to its location.

Image 4.1: An iPhone screen displaying the 'Play Sound' option within the Find My app, with the tracker shown inside a wallet, indicating its use for locating nearby items.

4.2 Locating Items (Long Range)

For items outside Bluetooth range, the Apple Find My network, composed of hundreds of millions of Apple devices, will securely relay the location of your tracker. You can view its precise location on a map within the 'Find My' app and get directions.

1. Open the 'Find My' app.
2. Select your Loshall Card Smart Tracker from the 'Items' list.
3. The map will display the last known location or its current location if detected by the Find My network.

4. Tap 'Directions' to get navigation to your item.

Image 4.2: An iPhone screen showing the remote tracking capability of the PETFROH Smart Tracker on a map, indicating its location even when far away.

4.3 Real-time Detachment Notification

The tracker can notify you automatically if it separates from your iOS device beyond a specified radius. This feature helps you quickly realize if you've left an item behind or if it has been moved.

1. In the 'Find My' app, select your tracker.
2. Configure 'Notify When Left Behind' settings according to your preferences.

Image 4.3: An iPhone screen showing a real-time detachment notification and options for Lost Mode, demonstrating how the device alerts users if an item is left behind.

4.4 Lost Mode

If your item is truly lost, activate 'Lost Mode' in the 'Find My' app. This allows you to:

- Register a phone number or email address where a finder can contact you.
- Add a custom message for the finder.
- The tracker will be locked, preventing it from being re-paired with another device, thus protecting your information.

5. Maintenance

5.1 Charging

The PETFROH Loshall Card Smart Tracker features an internal rechargeable battery and supports wireless charging. A full charge provides up to 6 months of continuous operation.

- Use the dedicated wireless charger provided with your device.

- Place the tracker flat on the charging pad.
- Charging status will be indicated by the device's LED (if present) or within the 'Find My' app.

5.2 Water and Dust Resistance

The tracker is IP68 rated, meaning it is completely dustproof and can withstand immersion in water up to 1.5 meters for 30 minutes. This makes it suitable for use in rainy conditions or during outdoor activities.

- If the device gets dirty, it can be rinsed directly with water.
- Ensure the device is dry before placing it in sensitive areas or charging.

5.3 Cleaning

To clean the tracker, wipe it with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials that could damage the surface.

6. Troubleshooting

6.1 Connection Issues

- **Device not pairing:** Ensure your iOS device is updated to iOS 18.0.1 or higher. Restart Bluetooth on your iOS device and the 'Find My' app. Try resetting the tracker to factory settings (refer to manufacturer's specific reset instructions if available, otherwise, a long press on the power button or removing it from Find My and re-adding might work).
- **Tracker frequently disconnects:** Ensure the tracker is within Bluetooth range of an Apple device connected to the Find My network. Check for any physical obstructions.

6.2 Buzzer Not Working

- Ensure the tracker has sufficient battery charge.
- Verify that the 'Play Sound' command is successfully sent from the 'Find My' app.
- Check if the tracker is within Bluetooth range of your iOS device.

6.3 Inaccurate Location

- Location accuracy depends on the density of the Apple Find My network. In areas with fewer Apple devices, location updates might be less frequent or precise.
- Ensure your iOS device has location services enabled for the 'Find My' app.

7. Specifications

Brand	PETFROH
Model Number	Loshall Card
Dimensions	8.6 x 5.4 x 0.24 cm
Weight	18.2 grams
