## 3. SETUP

### 3.1 Initial Power On

1. Press and hold the Power button on the side of the tablet until the DOOGEE logo appears.
2. Follow the on-screen instructions to complete the initial setup, including language selection, Wi-Fi connection, and Google account login.

### 3.2 Connecting Bluetooth Keyboard and Mouse

To enhance your productivity, you can connect the included Bluetooth keyboard and mouse to your tablet.

#### 1. For the Keyboard:

- Turn on the keyboard by sliding the power switch to the "ON" position.
- Press the "Connect" button on the keyboard. The Bluetooth indicator light will flash.

#### 2. For the Mouse:

- Insert the battery into the mouse.
- Turn on the mouse.

### 3. On the Tablet:

- Go to **Settings > Connected devices > Pair new device**.
- Locate "Bluetooth Keyboard" and "BT5.2 Mouse" in the list of available devices.
- Tap on each device name and confirm the pairing request.
- Once connected, the Bluetooth indicator light on the keyboard will stop flashing, and the mouse will be ready for use.

### 4.2 Split-Screen Multitasking

Utilize the split-screen feature to run two applications simultaneously, enhancing your productivity.

1. Open any application.
2. Tap the multitasking view button (usually a square icon) at the bottom of the screen.
3. Tap the app icon at the top of the app's window and select "Split screen".
4. Choose another app to open in the second half of the screen.
5. To exit split-screen mode, slide the divider bar in the middle of the screen to either side.

## 5. MAINTENANCE

### 5.1 Battery Management

The DOOGEE A9+ is equipped with an 8580mAh large-capacity battery, providing long-lasting power for extended use. It supports Type-C charging for convenience. To maximize battery life, avoid extreme temperatures and periodically perform a full discharge and recharge cycle.

## 6. TROUBLESHOOTING

If you experience issues such as the tablet not charging, slow operation, or app compatibility problems, please refer to the following solutions.

### 6.1 Restarting the Tablet

If minor issues occur, first try restarting the device. You can do this by pressing the small reset button with a thin pin (like an SIM card ejector tool) located on the top surface of the tablet.

Your browser does not support the video tag.

Video: Instructions on how to perform a recovery or restart on the tablet.

### 6.2 Factory Reset

If restarting does not resolve the issue, you may need to perform a factory reset. This will erase all data on the tablet and restore it to its original factory settings. **Backup important data before proceeding.**

1. Ensure the tablet is powered off.
2. Press and hold the Power button and Volume Up (+) button simultaneously for about 10-15 seconds until the test screen appears. Release the buttons.
3. Use the Volume buttons to navigate and select "wipe data/factory reset". Press the Power button to confirm.
4. Select "Factory data reset" using the Volume buttons and confirm with the Power button.
5. Wait for the process to complete. Once the initial test screen with "reboot system now" reappears, press the Power button to restart the tablet.

## 7. SPECIFICATIONS
