BOYA BOYAMIC 2 Wireless Microphones Instruction Manual

Model: BOYAMIC 2-01

INTRODUCTION

The BOYA BOYAMIC 2 is an advanced wireless microphone system designed for high-quality audio capture across various devices. Featuring true AI noise cancellation, 32-bit float internal recording, and an intuitive AMOLED touchscreen, it offers professional-grade sound and versatile connectivity for content creators.

Key features include:

- True AI Noise Cancellation: AI-driven 40 dB noise suppression with Strong and Light modes.
- Studio-Quality Sound: 90 dB SNR with 32-bit float precision, adaptive AGC, limiter, and EQ modes.
- 8 GB Onboard Storage: 15+ hours at 24-bit, with auto-file splitting and USB-C exports.
- 2TX to 4RX & Live Monitoring: Connects two transmitters to up to four receivers simultaneously with 3.5 mm real-time monitoring.
- Intuitive Touch & App Control: AMOLED touchscreen and BOYA Central app for seamless settings adjustment.
- All-Day Power & 984ft Stable Range: Up to 9 hours per transmitter, 15 hours for receiver, and 54 hours with charging case.
- Universal Compatibility: Connects to smartphones, tablets, DSLRs, and computers via USB-C and 3.5mm TRS adapters.

WHAT'S IN THE BOX

SETUP

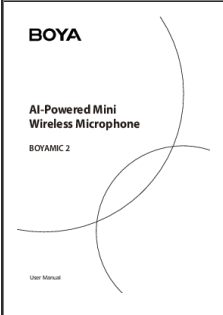

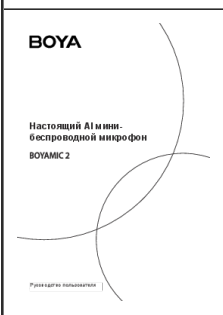

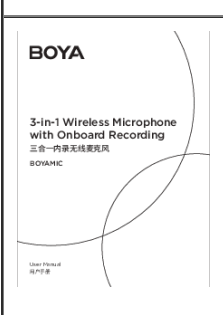

Initial Setup & Pairing

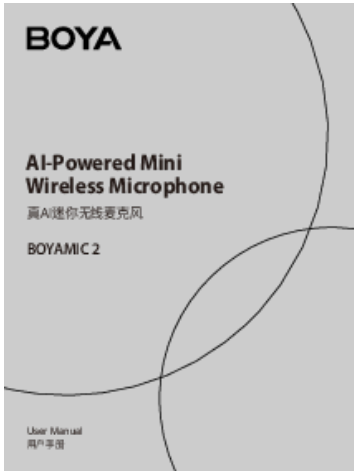

Before first use, ensure all protective films are removed from the charging pins on the transmitters and receiver to allow proper contact for charging and pairing. The units are designed for automatic pairing when removed from the charging case.

- Remove all units from the charging case. They will automatically power on and attempt to pair.
- A solid blue light on all units indicates successful pairing.
- If automatic pairing fails, place the transmitter and receiver back into the charging case for 5 seconds. They should auto-pair upon removal.
- Alternatively, for manual pairing: With the transmitter off, hold the power button for 5 seconds until the blue light flashes. On the receiver screen, swipe left to enter the settings menu, select
