2. SAFETY INFORMATION

Please read and understand all safety warnings before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- **Weight Capacity:** Do not exceed the maximum weight capacity of 1000 pounds.
- **Headboard Security:** Always secure the headboard to the bed frame during assembly to prevent tip-over risks, especially when using with heavy nightstands or other items on top.
- **Assembly:** Ensure all components are correctly assembled and tightened before use. Regularly check and retighten fasteners as needed.
- **Children and Pets:** This bed frame is designed to provide a safe and sturdy foundation for a good night's sleep, suitable for use with children and pets. However, always supervise children around the bed frame and drawers.

7. MAINTENANCE AND CARE

To maintain the appearance and longevity of your Einhorn bed frame, follow these care instructions:

- **Cleaning:** Wipe the upholstered surfaces with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the fabric.
- **Spills:** Blot spills immediately with a clean, dry cloth.
- **Dusting:** Regularly dust the headboard and frame with a soft, dry cloth.
- **Fasteners:** Periodically check all bolts and screws to ensure they remain tight. Retighten as necessary to maintain stability.

8. TROUBLESHOOTING

If you encounter any issues with your bed frame, consider the following common solutions:

- **Squeaking Noises:** Ensure all assembly bolts are securely tightened. The bed frame is designed with EVA silent strips to minimize noise; if squeaking persists, re-check slat placement and frame connections.

- **Drawers Not Sliding Smoothly:** Check for any obstructions under the drawers or on the floor. Ensure the wheels are clean and free of debris.
- **Charging Station Not Working:** Verify that the power cord for the charging station is properly plugged into a functional wall outlet. Check if the devices are correctly connected to the USB ports or AC outlets.
- **Mattress Slippage:** The wingback design helps prevent mattress slippage. Ensure the mattress is properly centered on the frame.
