VirtuFit Kayak 335

VirtuFit Inflatable Kayak 335 User Manual

Model: Kayak 335 (VF06139)

INTRODUCTION

Welcome to the user manual for your VirtuFit Inflatable Kayak 335. This manual provides essential information for the safe and effective use, setup, operation, and maintenance of your kayak. Please read it thoroughly before first use to ensure a safe and enjoyable experience on the water.

COMPONENTS INCLUDED

Your VirtuFit Kayak 335 package includes the following items:

- VirtuFit Inflatable Kayak 335
- 2 Kayak Seats
- Transport Bag
- Repair Kit
- 2 Fins

Image: The VirtuFit Inflatable Kayak 335 in turquoise, shown alongside its black transport bag. The kayak is depicted both inflated and folded for storage in the bag.

SETUP INSTRUCTIONS

1. Unpacking and Preparation

Remove the kayak and all components from the transport bag. Unfold the kayak on a clean, flat surface, free from sharp objects that could puncture the material.

2. Inflation

The VirtuFit Kayak 335 features three Boston valves for quick inflation.

1. Locate the three Boston valves on the kayak.
2. Open the outer cap of each valve.
3. Ensure the one-way valve (inner cap) is closed to prevent air from escaping during inflation.
4. Connect a compatible air pump (not included) to the valve.
5. Inflate the kayak chambers evenly until firm. Do not overinflate. Refer to the kayak's pressure recommendations if available.
6. Once inflated, quickly replace the outer cap to seal the valve securely.

Image: Two individuals are seen paddling the VirtuFit Inflatable Kayak 335 on calm, clear blue water, demonstrating the kayak in use after successful inflation.

3. Seat Installation

The kayak comes with two comfortable seats. An optional third seat position is available for added versatility.

1. Position the seats inside the kayak according to your preference (two-person or solo setup).
2. Attach the seat straps to the D-rings or attachment points located on the kayak's interior.
3. Adjust the straps to achieve a comfortable and secure seating position.

Image: A close-up view of one of the black, padded kayak seats, securely installed within the turquoise VirtuFit Inflatable Kayak 335, showing the attachment straps.

4. Fin Installation

The two included fins provide excellent directional stability, crucial for smooth paddling.

1. Locate the fin boxes on the underside of the kayak.
2. Slide each fin into its respective fin box until it clicks securely into place.
3. Ensure fins are firmly attached before launching to prevent loss and ensure proper tracking.

OPERATING THE KAYAK

1. Launching

Carry the inflated kayak to the water's edge. Ensure the area is clear of obstacles and the water depth is sufficient. Gently push the kayak into the water until it floats freely.

Image: A man and a woman are seen carrying the inflated VirtuFit Inflatable Kayak 335 across a sandy beach towards the water, demonstrating its portability and ease of transport.

2. Paddling and Steering

Sit comfortably in the installed seats. Use a kayak paddle (not included) to propel and steer the kayak.

- For forward motion, paddle on alternating sides, keeping strokes parallel to the kayak for efficiency.
- To turn, paddle more forcefully on the opposite side of the desired turn, or use sweep strokes for sharper turns.
- The installed fins will assist in maintaining a straight course and improving tracking.

Image: An aerial view showing two people paddling the VirtuFit Inflatable Kayak 335 on a large body of water, highlighting its two-person capacity and adjustable seats.

3. Safety Guidelines

Always prioritize safety when using your kayak:

- Always wear a personal flotation device (PFD) approved by relevant safety authorities.
- Be aware of weather conditions, water currents, and potential hazards before and during your trip.
- Do not exceed the kayak's maximum weight capacity.
- Inform someone of your paddling plans, including your route and estimated return time.
- Avoid paddling in areas with heavy boat traffic or strong currents unless you are experienced.

MAINTENANCE AND STORAGE

1. Cleaning

After each use, especially in saltwater, rinse the kayak thoroughly with fresh water. Use mild soap and water to clean any dirt or grime. Rinse again and allow to air dry completely before storage to prevent mold and mildew.

2. Storage

Ensure the kayak is completely dry before deflating and folding. Store in the provided transport bag in a cool, dry place, away from direct sunlight and extreme temperatures. Avoid storing with heavy objects on top that could cause damage.

3. Repair Kit

The included repair kit can be used for minor punctures. Follow the instructions provided with the repair kit for proper patch application. For larger damage or if you are unsure, professional repair may be necessary.

TROUBLESHOOTING COMMON ISSUES

Problem	Possible Cause	Solution
Kayak loses air quickly	Valve not properly sealed; Puncture in material	Ensure all valve caps are tightly closed. Check for punctures using soapy water and use the repair kit if necessary.
Difficulty steering straight	Fins not installed or improperly installed	Verify both fins are securely attached to the underside of the kayak. Reinstall if loose.
Seats are unstable or uncomfortable	Straps not tightened sufficiently or incorrectly attached	Adjust and tighten all seat straps until the seats are firm and stable. Ensure straps are routed correctly through D-rings.

PRODUCT SPECIFICATIONS

Model Name: VirtuFit Kayak 335

Model Number: VF06139

Dimensions (L x W x H): 365 cm x 101 cm x 17 cm (approx. 143.7 in x 39.8 in x 6.7 in)

Weight: 19 kg (approx. 41.9 lbs)

Material: Polyvinyl Chloride (PVC)

Color: Turquoise

Seating Capacity: 2 persons (with optional 3rd seat position)

Intended Use: Recreational, suitable for rivers, lakes, and sea.

Construction: Robust two-layer construction with reinforced bottom.
