# Newsoul 15.6-inch Dual Portable Monitor M156 User Manual

Model: M156

## 1. INTRODUCTION

---

Thank you for purchasing the Newsoul 15.6-inch Dual Portable Monitor M156. This manual provides essential information for setting up, operating, and maintaining your new device. Please read it carefully before use to ensure optimal performance and longevity.

## 2. SETUP

---

### 2.1 Driver-Free Instant Setup

The Newsoul M156 monitor supports dual connection methods: USB Type-C and HDMI. It is designed for plug-and-play functionality, requiring no driver installation.

- **USB Type-C Connection:** For Windows systems with a full-featured Type-C port, connect with one Type-C cable and a power source for immediate dual display. For MacOS, two Type-C cables are required.
- **HDMI Connection:** When using HDMI, a separate power source is required. Simply connect the HDMI cable and power for quick setup.

## 3.2 Display Modes

The monitor supports various display modes to suit your needs:

- **Share Mode:** Displays the same content on both screens.
- **Extend Mode:** Displays different content on each screen, extending your desktop. *(Note: Compatible only with laptops equipped with Type-C 3.1/Thunderbolt 3/4 ports.)*
- **Link Mode:** Combines the two screens into one large, seamless display.

## 3.4 Wide Compatibility and Dual Terminal Display

The monitor is equipped with multiple ports, including Mini HDMI and USB Type-C, allowing simultaneous connection of two terminals. This enables parallel display of content from different devices, such as gaming and remote work applications.

- **Type-C:** Compatible with laptops and smartphones.
- **HDMI:** Easily connects with devices like PS5 and Nintendo Switch.

The 178-degree wide viewing angle ensures comfortable sharing from various positions in a room.

## 4. MAINTENANCE

To ensure the longevity and optimal performance of your Newsoul M156 monitor, follow these maintenance guidelines:

- **Cleaning:** Gently wipe the screen with a soft, lint-free cloth. For stubborn smudges, use a screen-cleaning solution specifically designed for electronic displays. Avoid harsh chemicals or abrasive materials.

- **Storage:** When not in use, store the monitor in a cool, dry place, away from direct sunlight and extreme temperatures. Utilize the compact 360-degree foldable design for safe and convenient storage in a business bag.
- **Handling:** Always handle the monitor with care. Avoid dropping it or subjecting it to strong impacts.
- **Cables:** Ensure all cables are connected securely and are not bent or crimped, which can cause damage over time.

## 5. TROUBLESHOOTING

---

If you encounter issues with your Newsoul M156 monitor, refer to the following common troubleshooting steps:

- **No Display/No Signal:**
  - Ensure all cables (USB-C, HDMI, power) are securely connected to both the monitor and the source device.
  - Verify that the source device (laptop, smartphone, game console) is powered on and outputting a signal.
  - If using USB-C, confirm that your device's Type-C port supports video output (full-featured Type-C).
  - Try connecting the monitor to a different source device or using different cables to rule out cable or source issues.
  - Ensure the monitor's input source is correctly selected (if applicable).
- **Power Issues:**
  - Confirm the power adapter is properly connected to a working power outlet and the monitor.
  - If using USB-C for power, ensure the source device provides sufficient power or use the dedicated power adapter.
- **Image Quality Issues (Flickering, Distorted Image):**
  - Check cable connections for looseness or damage.
  - Adjust the display settings on your source device (resolution, refresh rate).
  - Ensure the monitor is receiving adequate power.
- **Screen Rotation Not Working:**
  - Ensure the monitor is properly unfolded and positioned.
  - Check for any physical obstructions preventing rotation.

If these steps do not resolve the issue, please contact customer support.
