What's in the Box

Verify that all items are present in the packaging:

- Portable mini projector x 1
- Remote control x 1
- HDMI Cable x 1
- Adapter x 1
- User Manual x 1
- Cleaning Kit x 1
- Quick Start Guide x 1

Product Overview and Features

The TOPTRO TP1 Smart Projector is designed for a comprehensive entertainment experience, offering advanced features in a compact form factor.

Key Features:

- **Netflix Officially Licensed:** Breaks through HDCP restrictions, pre-loaded with Netflix, YouTube, and Prime Video. Supports OTA updates.
- **Immersive Dolby Sound:** Features Dolby technology and 2x10W speakers for 3D surround sound. Includes HDMI ARC and two-way Bluetooth 5.2.
- **Native FHD 1080P & 4K Support:** Delivers true native 1080p resolution, up to 600 ANSI lumens brightness, 4K video decoding, and HDR10 support with a 20000:1 contrast ratio.
- **Smart Electric Focus & Auto Keystone:** Automatic electric focus and 4D/4P keystone correction for clear, rectangular images. Supports 100%-50% digital zoom.
- **360° Adjustable Stand & Short Throw:** Integrated 360° rotatable stand for multi-angle projection. Lightweight (2.4lb) with a 1.1:1 throw ratio, projecting 50-200 inches from short distances.
- **No-Lag WiFi 6 & Universal Compatibility:** Supports WiFi 6 and 2.4G dual-band WiFi for stable connections. Compatible with Miracast, DLNA, AirPlay, HDMI, USB, and 3.5mm Audio Jack interfaces.

Image: A diagram illustrating the automatic electric focus and auto vertical keystone correction features, ensuring a perfectly clear and rectangular image without manual adjustments.

Image: The projector positioned to project onto a ceiling, demonstrating its 360-degree adjustable stand for flexible viewing angles.

Setup

1. **Unpacking:** Carefully remove all components from the packaging. Retain the original packaging for future storage or transport.
2. **Placement:** Position the projector on a stable, flat surface. Utilize the 360° adjustable stand to achieve the desired projection angle (e.g., wall, ceiling). Ensure adequate ventilation around the device.
3. **Power Connection:** Connect the provided power adapter to the projector's power input and then to a power outlet.
4. **Initial Power On:** Press the power button on the projector or the remote control to turn on the device.
5. **Automatic Adjustments:** The projector will automatically perform electric focus and auto vertical keystone correction to optimize the image clarity and shape.
6. **Network Connection:** Navigate to the network settings and connect to your WiFi 6 or 2.4G network for access to streaming applications and updates.

Operating Instructions

Navigation and Interface:

Use the remote control to navigate the projector's smart interface. The home screen provides access to pre-installed applications such as Netflix, YouTube, and Prime Video. Additional applications can be downloaded via the APP Assistant or OPEN BROWSER.

Connecting External Devices:

- **HDMI:** Connect devices like TV sticks, Roku, laptops, or gaming consoles (Switch, PS5) using the HDMI cable to the HDMI ARC port.
- **USB:** Insert USB drives into the USB port for media playback. Note: Some 4K videos may not play over USB due to format compatibility; built-in streaming apps are recommended for 4K content.
- **Bluetooth:** Utilize two-way Bluetooth 5.2 to pair with mobile devices (iOS/Android) for screen mirroring or connect to external Bluetooth speakers/AirPods for enhanced audio.
- **3.5mm Audio Jack:** Connect wired headphones or external speakers.

Screen Mirroring:

The projector supports Miracast, DLNA, and AirPlay for seamless screen mirroring from compatible devices. Access these functions through the projector's application menu.

Image Adjustment:

- **Electric Focus:** The projector automatically adjusts focus. If manual adjustment is needed, use the remote control.
- **Auto Vertical Keystone:** This feature automatically corrects image distortion.
- **Digital Zoom:** Adjust the screen size from 100% to 50% using the zoom function on the remote control without moving the projector.

Maintenance

- **Lens Cleaning:** Use the provided cleaning kit or a soft, lint-free cloth to gently wipe the projector lens. Avoid abrasive materials or harsh chemicals.
- **Dust Removal:** Regularly clean the projector's vents to prevent dust buildup, which can affect performance and lifespan. Use a soft brush or compressed air.
- **Storage:** When not in use for extended periods, store the projector in a cool, dry place, ideally in its original packaging or a protective case.
- **Software Updates:** Ensure the projector's software is kept up-to-date through regular OTA (Over-The-Air) updates to maintain security and stability.

Troubleshooting

Issue	Possible Cause	Solution
No image projected	Power cable disconnected; Input source not selected; Lens cap on.	Check power connection; Select correct input source (HDMI, USB); Remove lens cap.
Image blurry or out of focus	Automatic focus issue; Projector too close/far from screen.	Allow auto-focus to complete; Manually adjust focus if needed; Adjust projection distance.
Image distorted (trapezoid shape)	Keystone correction needed.	Allow auto keystone correction to complete; Manually adjust keystone if necessary.
No sound or low volume	Volume too low; External audio device not connected properly; Muted.	Increase volume; Check audio cable connections; Unmute device.
Cannot connect to Wi-Fi/Bluetooth	Incorrect password; Device out of range; Interference.	Verify password; Move projector closer to router/device; Reduce interference.
Netflix/Streaming app issues (black screen, not loading)	Network issues; App cache; App update needed.	Check internet connection; Clear app cache/data; Update app via OTA or APP Assistant.
