Aoodor 10 x 10 ft Wooden Frame Gazebo with Hardtop Roof and Charging Socket - Instruction Manual

Model: B0F61PC642

INTRODUCTION

This manual provides comprehensive instructions for the assembly, operation, and maintenance of your Aoodor 10 x 10 ft Wooden Frame Gazebo. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

SAFETY INFORMATION

Adhering to these safety guidelines is crucial for safe operation and longevity of your gazebo.

- Always ensure the gazebo is assembled on a flat, stable surface.
- Do not use in thunderstorms or high winds. Disassemble or secure the gazebo appropriately during severe weather conditions.
- Keep the gazebo clean and free of debris to prevent fire hazards.
- Always unplug the charging outlet when not in use to prevent electrical hazards.
- Consult the instruction manual for detailed safety instructions specific to each component.

PACKAGE CONTENTS

Before beginning assembly, verify that all parts listed in the separate parts list (typically included in the packaging) are

present and undamaged. If any parts are missing or damaged, contact Aoodor customer service for assistance. The gazebo is typically shipped in multiple packages (e.g., 4 packages for the 10x10 ft model).

SETUP AND ASSEMBLY

Assembly of the Aoodor gazebo is designed to be straightforward. Follow the detailed, illustrated instructions provided in your product packaging. Ensure you have adequate space and any necessary tools before starting.

Key Assembly Features:

- **Stable Wooden Frame:** The gazebo features a reinforced wooden frame and posts crafted from spruce wood, designed for strength and stability. The frame is coated with grey oil paint for enhanced aesthetics and moisture resistance.
- **Hardtop Roof:** The single galvanized metal hardtop roof is fade-resistant, rust-resistant, and provides protection against UV rays and weather elements. It is engineered to withstand heavy snow and wind.

OPERATING INSTRUCTIONS

Your Aoodor gazebo is designed for convenience and functionality in your outdoor living space.

Integrated Charging Socket:

The gazebo includes integrated 15A/1875W GFCI outlets with waterproof covers. This allows for convenient outdoor charging of devices. The automatic self-check function with LED indicator lights ensures safe electrical use. Always ensure the cover is properly sealed when not in use or during wet conditions.

U-Shaped Hooks:

U-shaped hooks are provided within the gazebo structure for hanging lights, decorations, or other lightweight items. Ensure any hung items do not exceed the weight capacity of the hooks and are securely fastened.

MAINTENANCE

Regular maintenance will help preserve the appearance and structural integrity of your gazebo.

- **Cleaning:** Clean the wooden frame and metal roof periodically with a mild soap solution and water. Rinse thoroughly and allow to air dry. Avoid abrasive cleaners or harsh chemicals.
- **Inspection:** Regularly inspect all bolts, screws, and connections to ensure they are tight. Tighten any loose fasteners as needed.
- **Wood Care:** The spruce wood frame is coated with grey oil paint for moisture resistance. Depending on your climate, periodic reapplication of a suitable wood sealant or paint may be necessary to maintain its protective properties and appearance.
- **Winterization:** While the hardtop roof is designed to withstand snow, it is recommended to clear heavy snow accumulation to prevent excessive stress on the structure. In areas with extreme winter conditions, consider disassembling the roof panels or the entire structure if possible, or consult local guidelines for outdoor structures.

TROUBLESHOOTING

If you encounter issues with your gazebo, refer to the following common troubleshooting tips.

- **Stability Issues:** Ensure the gazebo is assembled on a level surface. Check all frame connections and anchor points for tightness. Verify that the gazebo is properly anchored to the ground using appropriate hardware (not always included, but recommended).
- **Leaking Roof:** Inspect the roof panels for proper alignment and secure fastening. Check for any damage to the panels or seals. Ensure all screws are tightened.
- **Charging Socket Not Working:** Check if the GFCI outlet has tripped (reset button). Ensure the power cord is securely plugged into a functional outdoor power source. Verify the LED indicator lights for operational status. If issues persist, consult a qualified electrician.
- **Missing Parts:** If you discover missing parts during assembly, refer to the package contents section and contact Aoodor customer service immediately.

SPECIFICATIONS

Feature	Detail
Brand	Aoodor
Model Number (ASIN)	B0F61PC642
Material	Wood (Spruce), Galvanized Metal (Roof)
Style	Modern
Product Dimensions (L x W x H)	109.1"L x 109.1"W x 114.1"H (Approx. 10 x 10 ft footprint)
Item Weight	266 Pounds
Water Resistance Level	Waterproof
Shape	Square
Ultraviolet Light Protection	UV Protection
Assembly Required	Yes
Charging Outlet	Integrated 15A/1875W GFCI outlets with waterproof covers
Wind Resistance	Level 9 (withstands up to 55mph winds)
Snow Load Capacity	Up to 1600 lbs

WARRANTY AND SUPPORT

For warranty information, please refer to the documentation included with your purchase or contact Aoodor customer service.

If you have any questions, require assistance with assembly, or need to report missing/damaged parts, please contact Aoodor customer service. Our responsive customer service team is available to assist you.

You can often find contact information on the Aoodor brand store page on Amazon: [Visit the Aoodor Store](#).
