TWSYOXPR Z9

Z9 Translator Device User Manual

Model: Z9

INTRODUCTION

The Z9 Translator Device is an intelligent, real-time voice and text translation machine designed to facilitate communication across language barriers. It supports 139 languages for online translation, 17 languages for offline voice translation, and features real-time voice transcription, photo translation, and recording capabilities. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your Z9 Translator Device.

DEVICE OVERVIEW

Figure 1: Z9 Translator Device Front and Back. This image displays the Z9 Translator Device from both its front and back. The front features a touch screen with icons for various functions including Offline translation, Smart recording, Realtime translation, Language

learning, Input translation, Offline package management, ChatGPT, and Phone translation. The back shows the camera lens and speaker grille.

139 Languages Translation

Universal Conversation

139 Online Voice Translation

75 Online Photo Translation

17 Offline Voice Translation

45 Offline Photo Translation

TWO Way Translation

139 languages and accents cover more than 200 countries and regions around the world.

Figure 2: Z9 Language Capabilities. This image highlights the extensive language capabilities of the Z9 Translator Device. It indicates support for 139 online voice translations, 75 online photo translations, 17 offline voice translations, and 45 offline photo translations, emphasizing its two-way translation functionality across more than 200 countries and regions.

SETUP

1. Charging the Device

Before first use, fully charge your Z9 Translator Device. Connect the device to a power source using the provided USB Type-C cable. A full charge typically takes approximately 90 minutes.

2000 mah

Figure 3: Battery Life Information. This image illustrates the battery performance of the Z9 Translator Device, showing that it provides 6 hours of continuous translation and up to 10 days of standby time, powered by a 2000 mAh battery, and charges via a Type-C port.

2. Powering On/Off

- **To Power On:** Press and hold the Power button (usually located on the side) until the screen illuminates.
- **To Power Off:** Press and hold the Power button, then select "Power Off" on the screen.

3. Initial Setup and Wi-Fi Connection

Upon first power-on, follow the on-screen prompts to select your preferred system language. To enable online translation features, connect the device to a Wi-Fi network:

1. Navigate to "Settings" on the device screen.
2. Select "Wi-Fi" and turn it on.
3. Choose your desired Wi-Fi network from the list.
4. Enter the Wi-Fi password if prompted and connect.

OPERATING INSTRUCTIONS

1. Real-time Voice Translation

The Z9 offers ultra-fast real-time voice translation, generating bilingual text simultaneously. This feature is ideal for direct conversations.

- From the main screen, select "Realtime translation".
- Choose the source and target languages.
- Press and hold the designated microphone button for your language, speak clearly, then release the button. The device will translate and display the text.

2. Offline Translation

For situations without internet access, the Z9 supports offline translation for 17 languages. Ensure you have downloaded the necessary language packages beforehand.

- To download packages: Go to "Offline package management" and select the languages you need. A Wi-Fi connection is required for downloading.
- To use offline: Select "Offline translation" from the main screen. The process is similar to real-time translation, but limited to downloaded languages.

3. Photo Translation

Translate text from images, signs, or documents using the device's camera.

- Select "Input translation" (or "Photo translation" if available as a direct icon) from the main screen.
- Point the camera at the text you wish to translate.
- Tap the screen to capture the image. The device will process the text and display the translation.

Photo Translation

75 online translations & 45 offline translations

Figure 4: Photo Translation in Use. This image illustrates the photo translation feature of the Z9 Translator Device. The device is shown scanning text from a directional sign, and the screen displays the translated text, demonstrating its ability to translate from books, digital screens, and labels.

4. Recording and Translation

The Z9 can record audio for up to 24 hours and automatically generate bilingual text segments, useful for meetings or lectures.

- Select "Smart recording" from the main screen.
- Tap the record button to start and stop recording.
- After recording, the device will process the audio and provide a translated transcript. You can export these transcripts for review.

5. Phone Translation

This feature allows for communication translation in commercial or transnational settings, potentially integrating with phone calls or messaging.

- Select "Phone translation" from the main screen.
- Follow the on-screen instructions to initiate or integrate with your phone's communication.
- The device will facilitate real-time translation of conversations.

Figure 5: Phone Translation Interface. This image shows the Z9 Translator Device's interface for phone translation, with translated messages displayed on its screen, alongside a smartphone and laptop, illustrating its application in commercial office and transnational communication scenarios.

6. Other Features (Language Learning, ChatGPT)

The Z9 device also includes dedicated applications for Language Learning and ChatGPT integration. Explore these features directly from the main screen to enhance your language skills or engage in intelligent conversations.

MAINTENANCE

1. Cleaning the Device

- Use a soft, lint-free cloth to wipe the screen and body of the device.
- For stubborn smudges, slightly dampen the cloth with water or a screen cleaner. Avoid harsh chemicals or abrasive materials.
- Do not immerse the device in water or spray liquids directly onto it.

2. Software Updates

Periodically check for software updates to ensure optimal performance and access to new features. Connect to Wi-Fi and navigate to "Settings" > "About Device" > "Software Update" (or similar path) to check for and install updates.

3. Battery Care

- Avoid exposing the device to extreme temperatures (very hot or very cold).
- Do not fully discharge the battery regularly. Charge it before it completely runs out.
- If storing the device for an extended period, charge it to about 50% to preserve battery health.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not turn on.	Low battery; device frozen.	Charge the device for at least 30 minutes. If still unresponsive, press and hold the Power button for 10-15 seconds to force a restart.
Translation is inaccurate or slow.	Poor internet connection; unclear speech; outdated software.	Ensure a stable Wi-Fi connection. Speak clearly and directly into the microphone. Check for and install any available software updates.
Offline translation not working.	Language packages not downloaded or corrupted.	Connect to Wi-Fi and go to "Offline package management" to download or re-download the required language packs.
Photo translation fails to recognize text.	Poor lighting; blurry image; complex font.	Ensure adequate lighting. Hold the device steady to avoid blur. Try to capture text with clear, standard fonts.

SPECIFICATIONS

Feature	Detail
Model Number	Z9
Display Screen	Yes (4-inch touch screen)
Online Translation Languages	139+
Offline Voice Translation Languages	17
Offline Photo Translation Languages	45
