Pravoluxmax Retractable Baby Gate Instruction Manual

Model: SH20.006C03C-CD

1. IMPORTANT SAFETY INFORMATION

Please read and understand all instructions before installing and using the Pravoluxmax Retractable Baby Gate. Failure to follow these instructions could result in serious injury or death.

- **Always supervise children and pets:** This gate is a deterrent, not a substitute for adult supervision.
- **Secure Installation:** For enhanced safety and stability, drilling is required for installation. Ensure the gate is securely mounted to a solid surface.
- **Height Advantage:** The 42-inch height is designed to effectively prevent babies and pets from climbing over, offering increased safety compared to standard 33-inch gates.
- **Regular Checks:** Periodically check all components and mounting hardware to ensure they are tight and in good working order.
- **Intended Use:** This gate is designed for use with children and pets to restrict access to certain areas. Do not use for purposes other than its intended use.

2. PRODUCT OVERVIEW

The Pravoluxmax Retractable Baby Gate offers a versatile and secure solution for managing access for children and pets in various indoor and outdoor environments. Its design focuses on durability, ease of use, and adaptability.

Key Features:

- **Elevated 42" Height:** Provides extra safety, preventing children and pets from easily climbing over.
- **Convenient Dual Lock Design:** Features separate mesh and door locks for easy opening and closing without needing to unlock the mesh first. A one-touch mesh lock allows for quick locking and unlocking.
- **Durable Scratch-Resistant Mesh:** Made from high-strength polyester and PVC, offering translucency, breathability, waterproofing, and flame resistance.
- **Reinforced with Fiberglass:** Incorporates fiberglass support strips to prevent sagging and ensure

smooth retraction without wrinkling.

- **Extra Wide and Adjustable:** Adjustable length from 0 to 236 inches, suitable for large openings. Retracts fully when not in use to save space.
- **Easy Installation with Movable Brackets:** Upgraded design with movable brackets adapts to different baseboard heights, simplifying installation.
- **Versatile Use:** Suitable for indoor areas like living rooms, kitchens, and stairways, as well as outdoor spaces such as hallways, garages, patios, pools, and backyards.

3. SETUP AND INSTALLATION

Proper installation is crucial for the safety and functionality of your retractable gate. Please follow these steps carefully. For a visual guide, refer to the official installation video below.

Installation Video Guide:

Video: Official installation guide for the Pravoluxmax Retractable Baby Gate, demonstrating each step from assembly to final mounting.

Step-by-Step Installation:

1. **Assemble Iron Tube Parts:** Connect the iron tube sections as shown in the diagram.
2. **Insert Brackets:** Insert the mounting brackets onto the gate mechanism and peel off the adhesive tape backing.
3. **Adjust Slider:** Adjust the slider on the gate mechanism to match your baseboard height.
4. **Position and Mark:** Hold the gate assembly against the wall at the desired location. Ensure it is level and mark the positions for the four bracket holes.

5. **Drill Holes:** Using an appropriate drill bit for your wall type (wood, brick, concrete), drill holes at the marked positions. *Note: Not suitable for drywall without additional reinforcement.*
6. **Install Wall Anchors:** Insert the provided wall anchors into the drilled holes.
7. **Secure Brackets:** Attach the brackets to the wall using the expansion screws, ensuring they are firmly tightened.
8. **Install Gate:** Mount the main gate unit onto the secured brackets.
9. **Install Floor Anchors (Optional):** For added security and to prevent pets from crawling underneath, install the floor anchors as needed. These can be screwed into hard surfaces or attached with double-sided tape for smooth, hard surfaces.

4. OPERATION

The Pravoluxmax Retractable Baby Gate is designed for convenient and secure operation.

Operating the Gate:

- **Mesh Lock:** In its natural state, the mesh lock is engaged, preventing the mesh from extending or retracting. To unlock, press and hold the button while pushing it forward. This allows the mesh to be extended or retracted.
- **Concealed Gate Lock:** This lock allows you to open the gate for entry and exit without disengaging the mesh lock. Press and hold the button while pulling the gate rod upwards to release the gate from

its latch.

- **Retracting the Gate:** Once the mesh lock is disengaged, gently guide the mesh back into its housing.
- **Extending the Gate:** With the mesh lock disengaged, pull the gate rod across the opening until it reaches the receiving bracket. Secure the gate rod into the latch.

Floor Anchors

Prevents Kids and Pets from Crawling Through Gaps

OURS

The image is a comparison between two types of floor anchors. The top half, labeled 'OURS', shows a black mesh gate with blue vertical support poles. Two circular callouts provide close-up views: one of the mesh texture and another of a clear plastic floor anchor with a metal ring. A dog is visible behind the gate. The bottom half, labeled 'OTHERS', shows a similar black mesh gate but with a child and a dog crawling underneath it. A large 'VS' graphic with a lightning bolt is positioned between the two images.

OTHERS

Image: Demonstration of floor anchors, which can be installed to eliminate gaps at the bottom of the gate.

5. MAINTENANCE

To ensure the longevity and continued safe operation of your Pravoluxmax Retractable Baby Gate, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the mesh and plastic components with a damp cloth and mild soap. Avoid abrasive cleaners or harsh chemicals that could damage the material.
- **Inspect Regularly:** Check for any signs of wear and tear, especially on the mesh, locking mechanisms, and mounting hardware.
- **Lubrication:** If the retraction mechanism feels stiff, a small amount of silicone-based lubricant can be applied to the moving parts, avoiding contact with the mesh.
- **Storage:** If removing the gate for an extended period, store it in a clean, dry place away from direct sunlight and extreme temperatures.

6. TROUBLESHOOTING

If you encounter any issues with your Pravoluxmax Retractable Baby Gate, refer to the following common solutions:

- **Gate not retracting smoothly:** Ensure the mesh is free from obstructions. The internal fiberglass rods are designed to prevent sagging and aid smooth retraction. If the issue persists, check for debris in the retraction mechanism.
- **Gate not locking securely:** Verify that the gate rod is fully inserted into the receiving latch. Ensure the mesh lock button is fully engaged (red indicator visible).
- **Difficulty opening/closing:** The operation may require some practice to become accustomed to the dual lock system. Ensure you are pressing the correct buttons and applying the necessary force as described in the operation section.
- **Gate feels loose after installation:** Re-check all mounting screws and ensure they are tightened securely. Confirm that the wall anchors are properly installed in a solid surface.

7. SPECIFICATIONS

Feature	Detail
Brand	Pravoluxmax
Model Number	SH20.006C03C-CD
Product Dimensions	236"W x 42"H
Material	Polyester, PVC, Fiberglass
Color	Black
Item Weight	5.49 Kilograms
Mounting Type	Wall Mount, Banister Mount
Target Species	Dog, Kids

Feature	Detail
Age Range Description	Baby, Kid

8. WARRANTY AND SUPPORT

The Pravoluxmax Retractable Baby Gate comes with a **10-Year Replacement Warranty**, ensuring peace of mind regarding its quality and durability.
