Initial Setup Steps

1. **Unpacking:** Carefully remove the TV and all accessories from the packaging. It is recommended to have two people for handling the TV due to its size.
2. **Placement:** Place the TV on a stable, flat surface or mount it on a wall using a compatible VESA mount (sold separately). Ensure adequate ventilation around the TV.
3. **Connecting Power:** Connect the power cable to the TV's power input and then to a wall outlet.
4. **Connecting External Devices:** Connect your external devices such as cable boxes, Blu-ray players, or gaming consoles to the TV's HDMI ports. The bundle includes two Deco Gear 6FT Universal 4K HDMI 2.0 Cables for high-quality connections.
5. **First Power On:** Press the power button on the remote control or the TV to turn it on. Follow the on-screen instructions to complete the initial setup, including network connection and channel scanning.

For detailed guidance on setting up your home theater system, refer to the included *Deco Gear Complete Home Theater Beginner's Guidebook*.

OPERATING YOUR TV

Basic Functions

- **Power On/Off:** Use the power button on the remote or TV.
- **Input Selection:** Press the "Source" button on your remote to switch between connected devices (HDMI 1, HDMI 2, etc.).
- **Volume Control:** Use the Volume Up/Down buttons on the remote.
- **Channel Navigation:** Use the Channel Up/Down buttons for broadcast channels.

Smart TV Features

Your Samsung Crystal UHD U8000F is a Smart TV, offering access to a wide range of streaming services and applications. A Samsung Account is required for network-based smart services.

- **Samsung TV Plus:** Access over 2700 free channels directly through the TV Plus app.
- **App Store:** Download and install additional streaming apps and services from the integrated app store.
- **Web Browser:** Browse the internet directly on your TV.

Picture and Sound Enhancements

The TV incorporates several technologies to enhance your viewing and listening experience:

- **Crystal Processor 4K:** Optimizes picture quality for stunning 4K resolution.
- **4K Upscaling:** Automatically upgrades lower-resolution content to near 4K quality, revealing enhanced details.

4K Upscaling

Upgrades what you watch to crisp 4K clarity

Get up to 4K resolution in all the content you love. Watch details come to life in every scene of shows or that classic film you love, even if the source quality is lower-resolution

- **Motion Xcelerator 60Hz:** Ensures clear picture and smooth motion, especially beneficial for fast-paced content like sports and games.

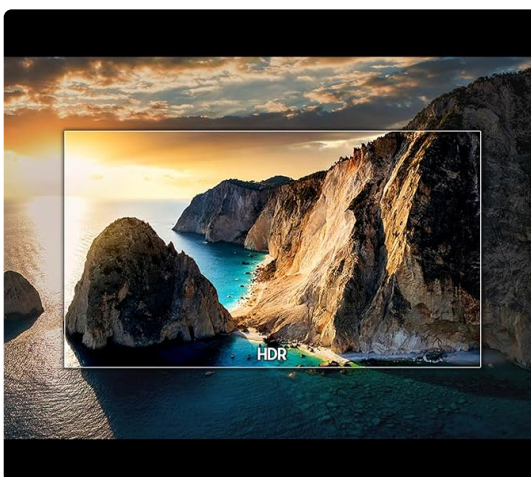

Motion Xcelerator 60Hz

Experience clear picture and smooth motion in games and sports

By estimating the movement between frames, Motion Xcelerator predicts and smooths them out for improved picture clarity at up to 60Hz.

- **HDR (High Dynamic Range):** Provides expanded contrast for enhanced visual detail, offering a wider spectrum of colors and greater depth.

HDR

Expanded contrast for enhanced visual detail

Get expanded contrast between the lightest and darkest parts of a scene for a wide spectrum of colors, enhanced detail and depth.

MAINTENANCE

Cleaning Your TV

- **Screen:** Gently wipe the screen with a soft, dry microfiber cloth. For stubborn smudges, slightly dampen the cloth with water or a screen-specific cleaning solution (never spray directly onto the screen).
- **Body:** Use a soft, dry cloth to wipe the TV's frame and stand. Avoid abrasive cleaners or solvents.

Software Updates

To ensure optimal performance and security, regularly check for and install software updates. Your TV's Samsung Knox Security features are continuously updated to protect your personal data and connected IoT devices.

- Navigate to *Settings > Support > Software Update* on your TV's menu.
- Select "Update Now" to check for and install available updates.

TROUBLESHOOTING

If you encounter issues with your Samsung TV, refer to the following common troubleshooting tips. For more detailed solutions, consult the full digital user manual accessible via your TV's support menu or the Samsung website.

Problem	Possible Solution
No Power	Ensure the power cable is securely connected to both the TV and a working wall outlet. Test the outlet with another device.
No Picture/Sound from External Device	Verify the correct input source is selected. Check HDMI cable connections. Ensure the external device is powered on.
Remote Control Not Working	Check the remote's batteries and replace if necessary. Ensure there are no obstructions between the remote and the TV's IR receiver.
Poor Picture Quality	Check the source resolution. Adjust picture settings (brightness, contrast, sharpness). Ensure 4K content is being played for optimal 4K display.
Network Connection Issues	Restart your router and modem. Reconnect the TV to your Wi-Fi network via the TV's settings menu.
