3. KEY FEATURES

The ANFIER W10 is equipped with advanced features to provide an efficient translation experience:

- **Precise Online & Offline Translation:** Supports 144 online languages & accents and 16 offline languages. No SIM card or subscription is required for offline use.
- **Cutting-Edge AI Speed & Accuracy:** Powered by a high-end AI chip with 1GB RAM + 8GB ROM, delivering real-time translation responses in under 0.5 seconds with up to 98% accuracy.
- **HD Photo Translation & Noise Reduction:** Instantly translates printed or handwritten text in 42 languages using the built-in 3.0-inch IPS touchscreen camera. Dual microphones with advanced noise reduction ensure clear voice recognition.

- **Long Battery Life:** 1500mAh battery offers up to 8 hours of continuous use or a full week on standby. Recharges in 1–2 hours.
- **Personalized Voices:** Choose between male or female voice options for translations.

4. SETUP

Follow these steps to set up your ANFIER W10 device for first use:

1. **Charge the Device:** Connect the provided charging cable to the device and a power source. Allow 1-2 hours for a full charge.
2. **Power On:** Press and hold the power button (usually on the side) until the screen illuminates.

3. **Initial Language Selection:** Upon first boot, you will be prompted to select the device's system language. Use the touchscreen to navigate and confirm your choice.
4. **Connect to Wi-Fi (Optional for Online Features):** Navigate to the 'Settings' menu, select 'WLAN', and connect to an available Wi-Fi network. This is necessary for online translation and software updates.

HD Touch Screen

480*854 3.0" retina screen for easy operation and clear display

5. OPERATING INSTRUCTIONS

5.1 Online Voice Translation

For real-time, two-way voice translation across 144 languages and accents, ensure your device is connected to Wi-Fi.

1. From the main menu, tap 'Voice Translation'.

2. Select the source language (your language) and the target language (the language you want to translate to) from the lists.
3. Press and hold the corresponding language button (usually indicated by flags) and speak clearly into the device's microphone.
4. Release the button, and the device will display and speak the translation.

Video: This video demonstrates the ANFIER W10 AI Translation Device in action, showcasing its voice translation and photo translation features. It illustrates how to select languages, speak into the device, and receive instant translations, as well as how to use the camera for text translation.

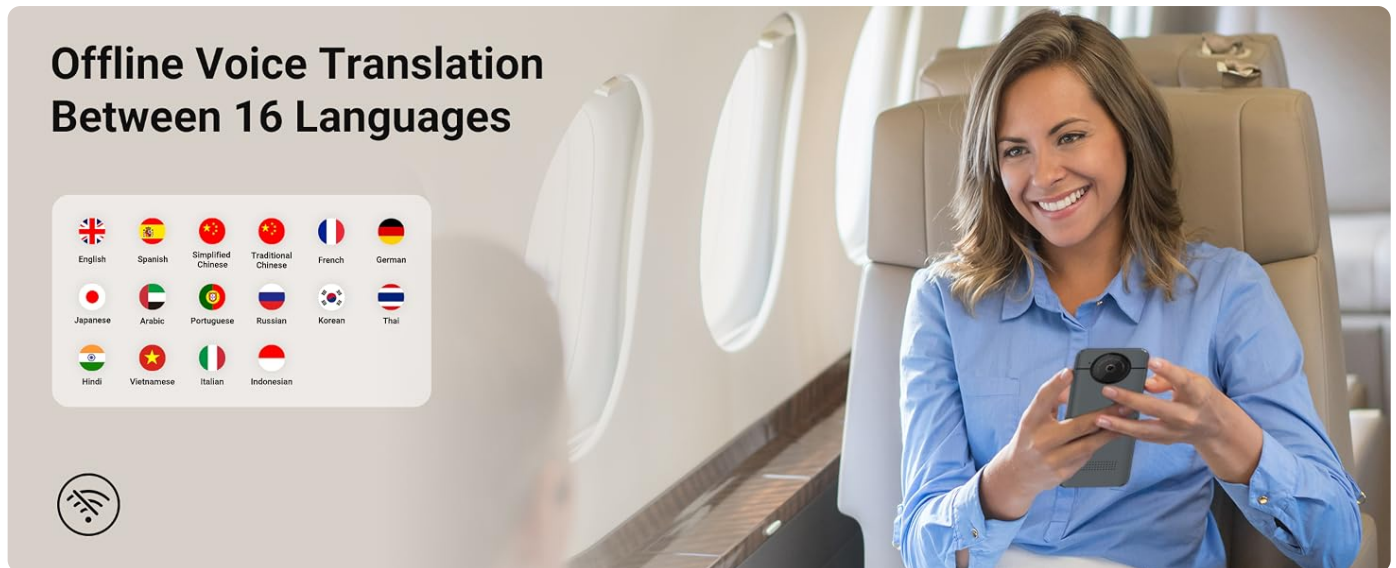

Image: A visual representation of the ANFIER W10's extensive language support, highlighting 74 languages and 70 accents available for online translation.

5.2 Offline Translation

The W10 supports offline translation for 16 languages, ideal for environments without internet access.

1. From the main menu, tap 'Offline Translation'.
2. Select the desired offline language pair.
3. Proceed with voice input as described for online translation.

Image: A person is shown using the ANFIER W10 device on an airplane, demonstrating its offline voice translation capability between 16 languages, including English, Spanish, Chinese, Japanese, Korean, German, French, Russian, Arabic, Thai, Portuguese, Hindi, Vietnamese, Italian, and Indonesian.

5.3 Photo Translation

Translate text from images using the built-in camera.

- 1. From the main menu, tap 'Photo Translation'.
- 2. Point the camera at the text you wish to translate.
- 3. Tap the screen to capture the image.
- 4. The device will process the image and display the translated text. Supports 42 languages.

Image: The ANFIER W10 device is shown performing photo translation, capturing text from a sign and displaying the translated content. This feature supports 42 languages.

5.4 Recording

The device allows for voice recording.

- 1. From the main menu, tap 'Recording'.
- 2. Tap the record button to start and stop recording.

3. Recordings can be accessed and played back from this section.

6. MAINTENANCE

Proper care ensures the longevity and optimal performance of your ANFIER W10 device.

- **Cleaning:** Use a soft, dry cloth to clean the device's screen and body. Avoid abrasive materials or harsh chemicals.
- **Battery Care:** To maximize battery life, avoid fully discharging the device frequently. Charge the device using the provided cable and a compatible power adapter.
- **Software Updates:** Periodically check for software updates in the 'Settings' menu to ensure you have the latest features and performance improvements. A Wi-Fi connection is required for updates.

Image: This graphic highlights the ANFIER W10's battery performance, indicating 8 hours of continuous translation, 7 days of standby time, and a full charge in 90 minutes via its Type-C port.

7. TROUBLESHOOTING

If you encounter issues with your ANFIER W10, refer to the following common solutions:

Problem	Solution
Device does not power on	Ensure the device is fully charged. Connect it to a power source and try again after a few minutes.
Online translation not working	Verify that the device is connected to a stable Wi-Fi network. Check Wi-Fi settings and reconnect if necessary.

Problem	Solution
Offline translation not functioning	Ensure the desired offline language packs are downloaded and selected in the 'Offline Translation' settings. Some users report needing to ensure the device has a brief initial online connection to fully enable offline features.
Translation accuracy issues	Speak clearly and at a moderate pace. Ensure there is minimal background noise. For photo translation, ensure good lighting and clear text.
Screen unresponsive	Perform a soft reset by holding the power button for 10-15 seconds until the device restarts.

8. SPECIFICATIONS
