

Ardes ARPHON05

Ardes Hair Pro D ARPHON05 Ionic Hair Dryer User Manual

Model: ARPHON05

1. IMPORTANT SAFETY INFORMATION

Please read all safety instructions carefully before using the appliance. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Keep out of reach of children.
- Do not immerse the appliance in water or any other liquid.
- Do not use the appliance near water sources such as bathtubs, showers, basins, or other vessels containing water.
- Always unplug the appliance after use and before cleaning.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons in order to avoid a hazard.

2. PRODUCT OVERVIEW

The Ardes Hair Pro D ARPHON05 is an advanced ionic hair dryer designed for rapid drying and perfect styling. It features a powerful brushless DC motor, intelligent temperature control, and an intuitive LCD display.

Image 2.1: Ardes Hair Pro D ARPHON05 hair dryer with its included concentrator and diffuser attachments.

Key Features:

- **Brushless Digital Motor:** Generates a powerful and constant airflow up to 140 km/h for faster drying.
- **Ionic Technology:** Releases 200 million negative ions to reduce frizz and enhance natural shine.
- **Intelligent Heat Management:** Detects temperature 50 times per second to maintain a constant level and protect hair from heat damage.
- **LCD Display:** Clearly shows selected speed and heat settings.
- **Magnetic Accessories:** Includes a concentrator and diffuser with 360° rotatable magnetic attachment.
- **Auto-Cleaning Function:** Reverses airflow to clean the filter, ensuring optimal performance.
- **Compact and Lightweight Design:** Ideal for travel and comfortable use.

3. SETUP

3.1 Unpacking

Carefully remove the hair dryer and all accessories from the packaging. Ensure all components are present: the hair dryer unit, concentrator nozzle, and diffuser.

3.2 Attaching Accessories

The concentrator and diffuser attachments connect magnetically to the front of the hair dryer. Simply align the attachment with the nozzle and it will snap into place. They can be rotated 360° for precise styling.

**ACCESSORI CON
FISSAGGIO MAGNETICO
Ruotabili a 360°**

Image 3.1: Magnetic attachments for easy and secure connection of styling accessories.

3.3 Power Connection

Plug the power cord into a suitable electrical outlet. Ensure the voltage matches the specifications of the appliance.

4. OPERATING INSTRUCTIONS

4.1 Powering On/Off

Press the power button located on the handle to turn the hair dryer on or off.

4.2 Adjusting Speed and Heat Settings

The hair dryer offers 2 speed settings and 5 heat settings (including a cold shot and cyclic mode). Use the

respective buttons on the handle to cycle through the options. The selected settings will be displayed on the LCD screen.

Image 4.1: The LCD display provides a clear overview of the selected speed and temperature settings.

4.3 Using the Cold Shot Function

Press and hold the cold shot button to deliver a burst of cool air, which helps to set your hairstyle.

4.4 Intelligent Heat Control

The intelligent heat control system continuously monitors the air temperature to prevent excessive heat exposure, protecting your hair from damage.

GESTIONE INTELLIGENTE DEL CALORE

**Il controllo termico intelligente
mantiene la temperatura stabile
proteggendo i capelli dai danni
del calore**

**RILEVAMENTO
CALORE 50 VOLTE AL SECONDO**

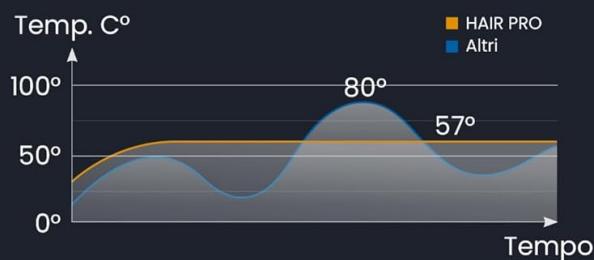

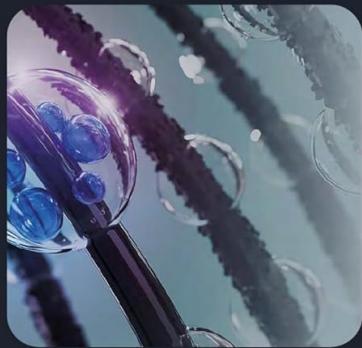

Image 4.2: Intelligent heat management ensures stable temperature, protecting hair from heat damage.

4.5 Ionic Technology for Frizz Reduction

The integrated ionic technology releases negative ions during drying, which helps to reduce static and frizz, leaving hair smoother and shinier.

**200 MILIONI di ioni
emessi per sessione
di asciugatura**

**IONI
POTENZIATI**

**Capelli morbidi, lucidi
e privi di crespo grazie
a un'asciugatura
delicata e protettiva**

Image 4.3: Enhanced ionic technology releases 200 million ions for soft, shiny, and frizz-free hair.

4.6 Styling with Accessories

- **Concentrator:** Use the concentrator nozzle for precise styling and smoothing sections of hair.
- **Diffuser:** Attach the diffuser to enhance natural curls and add volume.

STYLING PERFETTO

**Dai volume o definizione ai tuoi
capelli con i giusti accessori**

Image 4.4: Achieve perfect styling, from volume to definition, using the appropriate accessories.

5. MAINTENANCE

5.1 Auto-Cleaning Function

The hair dryer features an automatic filter cleaning function. To activate, ensure the device is unplugged, then refer to the specific instructions in the full manual for initiating the auto-clean cycle. This function reverses the motor's airflow to remove accumulated dust and debris from the filter, maintaining optimal performance.

Image 5.1: The auto-cleaning function helps maintain high performance and extends product life.

5.2 General Cleaning

Before cleaning, always unplug the hair dryer from the power outlet. Wipe the exterior of the appliance with a soft, damp cloth. Do not use abrasive cleaners or immerse the hair dryer in water.

6. TROUBLESHOOTING

If you encounter any issues with your Ardes Hair Pro D ARPHON05, please refer to the following common troubleshooting steps:

- **No Power:** Ensure the power cord is securely plugged into a working electrical outlet. Check if the power button is pressed.
- **Weak Airflow:** Check the air inlet filter for any blockages. Perform the auto-cleaning function if necessary.
- **Overheating:** The hair dryer has triple protection against overheating. If it shuts off unexpectedly, unplug it and allow it to cool down for a few minutes before restarting. Ensure the air inlets and outlets are not blocked.
- **Unusual Noise:** Ensure no foreign objects are lodged in the air inlet or outlet. If the noise persists, discontinue use and contact customer support.

For further assistance, please contact Ardes customer support.
