

## SOLAKAKA KI99PRO

# SOLAKAKA KI99 Pro 96% Wireless Mechanical Keyboard User Manual

Model: KI99PRO

## INTRODUCTION

This manual provides detailed instructions for the setup, operation, and maintenance of your SOLAKAKA KI99 Pro 96% Wireless Mechanical Keyboard. Please read this manual thoroughly before using the product to ensure proper functionality and to maximize your user experience.

## PRODUCT FEATURES

- **Triple-mode Connectivity:** Supports Bluetooth 5.0, 2.4GHz wireless, and Type-C wired connections for versatile use across various devices and operating systems (Windows, macOS).
- **Long-lasting Battery:** Equipped with a 10,000mAh high-capacity battery for extended use.
- **96% Layout:** Integrates most functional keys of a full-size keyboard in a compact form factor, including a dedicated numeric keypad.
- **Multifunctional Knob:** Allows for easy adjustment of volume, media playback, and RGB lighting brightness.
- **Gasket Structure & Five-layer Noise Reduction:** Designed to reduce key vibration and noise, providing a smooth and quiet typing experience.
- **Hot-swappable Switches:** Features a 1.2mm flex-cut hot-swappable PCB and PC board, compatible with 3-pin and 5-pin switches for personalized tactile customization without soldering.
- **High-quality PBT Keycaps:** Dual-color injection molded PBT keycaps offer wear and fade resistance, maintaining clear characters and vibrant colors.
- **Customizable Driver Software:** Allows reprogramming key functions, adjusting RGB lighting effects, and customizing macro programming (Windows compatible for 2.4G and wired modes).
- **Vibrant RGB Lighting:** Full-key RGB lighting and side RGB light bars with 16.8 million color options, adjustable via driver software or shortcut keys.

## SETUP INSTRUCTIONS

### Connectivity Modes

The Ki99 Pro keyboard supports three connection modes: Wired (USB-C), 2.4GHz Wireless, and Bluetooth 5.0. A switch on the keyboard allows selection between these modes.

#### 1. Wired Mode (USB-C)

1. Toggle the mode switch on the keyboard to the wired position.
2. Connect the provided USB-C cable from the keyboard to your computer's USB port.
3. The keyboard will be recognized automatically by your operating system.

## 2. 2.4GHz Wireless Mode

1. Toggle the mode switch on the keyboard to the 2.4GHz wireless position.
2. Locate the 2.4GHz USB receiver, typically stored in a compartment on the keyboard.
3. Plug the 2.4GHz USB receiver into an available USB port on your computer.
4. The keyboard should connect automatically.

## 3. Bluetooth 5.0 Mode

1. Toggle the mode switch on the keyboard to the Bluetooth position.
2. Press and hold **Fn + 1**, **Fn + 2**, or **Fn + 3** to enter pairing mode for one of the three available Bluetooth channels. The corresponding key will flash blue, indicating it is ready for pairing.
3. On your device (PC, laptop, smartphone), enable Bluetooth and search for "KI99pro 5.0".
4. Select the keyboard to connect. The blue light will become solid once connected.
5. To switch between paired Bluetooth devices, short press **Fn + 1/2/3**.

## OPERATING INSTRUCTIONS

### Multifunctional Knob

The knob located on the top right of the keyboard provides quick access to several functions:

- **Rotate:** Adjusts system volume (clockwise to increase, counter-clockwise to decrease).
- **Press:** Plays/pauses media.
- **Press and Hold:** May cycle through lighting brightness levels or modes (refer to specific lighting controls).

## RGB Lighting Control

The keyboard features full-key RGB backlighting and side RGB light bars. Lighting effects can be adjusted using shortcut keys or the customization software.

- **Fn + \|**: Switches RGB backlight effects.
- **Fn + ← / →**: Adjusts lighting effects speed.
- **Fn + ↑ / ↓**: Adjusts backlight brightness.
- **Fn + Shift**: Switches side light mode.
- **Fn + Alt**: Switches side light brightness.
- **Fn + ?**: Switches side light color.
- **Fn + Esc**: Restores factory lighting settings.

## Customization Software

The KI99 Pro supports driver software for advanced customization. This software is compatible with Windows operating systems when the keyboard is connected via wired or 2.4GHz wireless mode. It allows users to:

- Reprogram key functions.
- Adjust RGB lighting effects in detail.
- Create and customize macro programming.

Please visit the official SOLAKAKA website to download the latest version of the customization software.

## MAINTENANCE

### Cleaning the Keyboard

- Disconnect the keyboard from all power sources and devices before cleaning.
- Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution to wipe the keycaps and chassis.
- Avoid excessive moisture and do not spray cleaning solutions directly onto the keyboard.

- Use compressed air to remove dust and debris from between the keycaps.

## Hot-Swapping Switches

The KI99 Pro features hot-swappable switches, allowing for easy replacement without soldering. This enables customization of typing feel and sound.

1. Gently remove the keycap using a keycap puller.
2. Use a switch puller to carefully extract the switch from the PCB. Ensure the switch is pulled straight up to avoid bending the pins.
3. Align the pins of the new 3-pin or 5-pin switch with the holes on the PCB.
4. Press the new switch firmly into place until it clicks. Ensure it is seated correctly and functions properly before replacing the keycap.

## Two-color PBT Keycaps

•Wearproof •Colourfast •Comfortable Touch

## Hot-swappable Design

• Supports 5-pin/3-pin

## TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Keyboard not responding in wireless mode.	Low battery, incorrect mode selected, receiver not plugged in (2.4GHz), not paired (Bluetooth), out of range.	<ul style="list-style-type: none"><li>• Charge the keyboard.</li><li>• Ensure the mode switch is set correctly (2.4G or BT).</li><li>• For 2.4GHz, ensure the USB receiver is securely plugged into the device.</li><li>• For Bluetooth, ensure the keyboard is paired and within range (up to 10M). Re-pair if necessary.</li><li>• Try wired mode to confirm keyboard functionality.</li></ul>
Keys not registering or double-typing.	Dust/debris under keycap/switch, faulty switch, software issue.	<ul style="list-style-type: none"><li>• Remove keycap and use compressed air to clean around the switch.</li><li>• If a switch is faulty, hot-swap it with a new one.</li><li>• Check for driver updates or reset keyboard settings via software.</li></ul>
RGB lighting not working or incorrect.	Lighting settings incorrect, software glitch.	<ul style="list-style-type: none"><li>• Use Fn key combinations to cycle through lighting modes and brightness.</li><li>• Use the customization software to adjust RGB settings.</li><li>• Perform a factory reset of lighting settings (Fn + Esc).</li></ul>
Keyboard not charging.	Faulty cable, power source, or keyboard port.	<ul style="list-style-type: none"><li>• Try a different USB-C cable.</li><li>• Try a different USB port or power adapter.</li><li>• Ensure the cable is securely connected to the keyboard.</li></ul>

## SPECIFICATIONS

Brand	SOLAKAKA
Model Number	KI99PRO
Keyboard Description	Mechanical
Connectivity Technology	2.4GHz Wireless, Bluetooth 5.0, USB-C Wired
Compatible Devices	Laptop, PC, Smartphone (Windows, macOS)
Special Features	Customizable, Hot-Swappable, Multifunctional Knob, Programmable, RGB Backlighting
Keycap Material	PBT (Dual-color injection molded)

Battery Capacity	10,000mAh (2 Lithium Ion batteries included)
Item Weight	3.27 pounds
Package Dimensions	17.13 x 6.73 x 2.13 inches
Manufacturer	SOLAKAKA
