

Night Cat Pop Up Tent+sleeping Pad+sleeping Pillow+sleeping Bag

Night Cat Pop Up Tent Camping Kit User Manual

Model: Pop Up Tent+sleeping Pad+sleeping Pillow+sleeping Bag

1. INTRODUCTION

Thank you for choosing the Night Cat Pop Up Tent Camping Kit. This comprehensive kit is designed for outdoor enthusiasts, providing a convenient and comfortable camping experience. This manual provides detailed instructions for the setup, operation, maintenance, and care of your new camping equipment.

The kit includes:

- 1 x Night Cat Pop Up Tent
- 3 x Night Cat Self-Inflating Sleeping Pads
- 3 x Night Cat Self-Inflatable Camping Pillows
- 3 x Night Cat Camping Sleeping Bags

2. SAFETY INFORMATION

Please read and understand all safety instructions before using this product. Failure to follow these instructions may result in injury or damage to the product.

- Do not set up the tent near open flames or heat sources.
- Ensure proper ventilation inside the tent to prevent suffocation.
- Secure the tent properly with stakes and guy lines to prevent it from being blown away in strong winds.
- Keep all components away from sharp objects to prevent punctures or tears.
- Do not use electrical appliances inside the tent unless specifically designed for outdoor use and with proper safety precautions.

- Always check weather conditions before and during your camping trip.

3. SETUP INSTRUCTIONS

3.1. Pop Up Tent Setup

1. Remove the tent from its carry bag and lay it flat on the ground.
2. Unfold the tent. The pre-attached poles are designed to automatically expand.
3. Gently lift the center hub of the tent. The tent frame will pop up and lock into place.
4. Extend the legs of the tent until they are fully upright and stable.
5. Secure the tent to the ground using the provided stakes. Insert stakes through the loops at the base of the tent and into the ground at an angle.
6. Attach the guy lines to the designated points on the tent and stake them out to provide additional stability, especially in windy conditions.

Roomy: Fits 3 Sleeping Pad or a King Size Air Mattress

Image 3.2: Interior of the tent after setup, highlighting the bedroom area.

3.2. Self-Inflating Sleeping Pad Setup

1. Unroll the sleeping pad and lay it flat on the tent floor.
2. Open the inflation valve(s). The pad will begin to self-inflate as air enters the foam core.
3. Allow several minutes for the pad to inflate. For a firmer pad, you may manually add a few breaths of air before closing the valve.
4. Close the inflation valve(s) tightly to prevent air from escaping.

SELF-INFLATION

Image 3.3: Illustration of the sleeping pad's self-inflation mechanism.

Waterproof&Windproof in Heavy Rain even Storm!

Image 3.4: Multiple sleeping pads comfortably arranged inside the tent.

3.3. Self-Inflatable Camping Pillow Setup

1. Remove the pillow from its pouch.
2. Open the air valve. The pillow will begin to self-inflate.
3. Allow a few moments for inflation. If desired, add a few breaths of air to achieve your preferred firmness.
4. Close the valve securely.

Image 3.5: The self-inflatable camping pillow in use, demonstrating its soft surface.

3.4. Sleeping Bag Placement

1. Unroll the sleeping bag and lay it flat on top of the inflated sleeping pad inside the tent.
2. Ensure the zipper is easily accessible for entry and exit.

Image 3.6: Dimensions and packed size of the Night Cat sleeping bag.

4. OPERATING AND USAGE

4.1. Tent Usage

The Night Cat Pop Up Tent features a dual-room design:

- **Bedroom:** The main enclosed area is designed for sleeping and offers privacy and protection from elements.
- **Porch Room:** An extended area at the front, suitable for storing gear, shoes, or providing a sheltered space for pets.

Ensure all zippers are closed during rain or strong winds. Utilize the mesh windows for ventilation when weather permits.

4.2. Weather Resistance

The tent is constructed with waterproof and windproof materials, including 210T Polyester Taffeta PU 3000mm for the outer tent fabric and 210D Oxford PU 3000mm for the floor fabric, designed to withstand heavy rain and stormy conditions.

COMFORTABLE & NOISELESS

Image 4.1: The tent demonstrating its waterproof and windproof features in simulated rain.

4.3. Sleeping Bag Usage

The Night Cat sleeping bag is rated for 3 seasons, with a comfort temperature range of 41°F- 59°F (5°C-15°C). It is suitable for use during Spring, Summer, and Autumn camping trips.

5. MAINTENANCE

5.1. Cleaning

- **Tent:** Clean with a soft brush or sponge and mild soap. Rinse thoroughly with water. Do not machine wash or use harsh detergents. Allow to air dry completely before packing.
- **Sleeping Pads/Pillows:** Wipe down with a damp cloth and mild soap. Ensure they are completely dry before storing. Do not submerge in water.
- **Sleeping Bags:** Spot clean with a damp cloth and mild soap. For a full wash, follow the care label instructions, typically hand wash or front-loading machine wash on a gentle cycle with a specialized sleeping bag cleaner. Air dry thoroughly.

5.2. Storage

- Ensure all components are completely dry before packing to prevent mold and mildew.
- Store the tent, pads, pillows, and sleeping bags in their respective carry bags in a cool, dry place away from direct sunlight.
- For sleeping pads, it is recommended to store them with the valve open and unrolled if possible, to maintain the integrity of the foam.

6. TROUBLESHOOTING

- **Tent not popping up correctly:** Ensure all pole joints are free from obstruction. Gently assist the poles if they snag.
- **Sleeping pad not fully inflating:** Check that the inflation valve is fully open. Allow more time for inflation, especially in colder temperatures. Manually add air if needed.
- **Air leaking from pad/pillow:** Check the valve for a tight seal. Inspect the surface for small punctures. Patch kits are often available for minor repairs.
- **Condensation inside tent:** Ensure proper ventilation by opening mesh windows or vents when weather permits. Avoid cooking inside the tent.

7. SPECIFICATIONS
