

QUZUDN A03

QUZUDN 5-in-1 Magnetic Wireless Charging Stand User Manual

Model: A03

1. INTRODUCTION

The QUZUDN 5-in-1 Magnetic Wireless Charging Stand is designed to provide a centralized charging solution for multiple Apple devices. This stand integrates wireless charging capabilities for compatible iPhone models, Apple Watch, and AirPods, along with a night light function and an additional USB-C output port. Its foldable design enhances portability, making it suitable for both home and travel use.

The QUZUDN 5-in-1 Magnetic Wireless Charging Stand, featuring its compact design and multiple charging points.

2. PACKAGE CONTENTS

Verify that all items are present in the package:

- 1 x 5-in-1 Magnetic Wireless Charging Station
- 1 x 20W PD Adapter
- 1 x 3ft USB-C to USB-C Cable
- 1 x User Guide

Package include

- 1 Wireless Charger
- 2 20W Adapter
- 3 Cable
- 4 Packing Box
- 5 Manual

All components included in the product package.

3. KEY FEATURES

- **5-in-1 Charging:** Simultaneously charges compatible iPhone models (12 series and newer), Apple Watch, and AirPods. Includes an additional USB-C output port.
- **Magnetic Alignment:** Features N52 array magnets for secure and precise alignment of MagSafe-compatible iPhones, ensuring stable charging.
- **Night Light Function:** Integrated night light with touch control for on/off functionality, providing soft illumination.
- **Foldable and Portable Design:** Ultra-compact and foldable, making it convenient for travel and easy storage.
- **Adjustable Viewing Angles:** Offers 180° tilt and 360° rotation for optimal viewing of your iPhone in both vertical and horizontal orientations while charging.
- **Advanced Safety Protection:** Equipped with overcurrent, overvoltage, overheating, and short-circuit protection, along with Foreign Object Detection. Certified by FCC/CE/ROHS.

5. SETUP INSTRUCTIONS

Follow these steps to set up your charging stand:

1. **Unfold the Stand:** Gently unfold the charging stand to its desired upright position. Ensure the stand is stable on a flat

surface.

2. **Connect Power:** Insert the provided USB-C to USB-C cable into the "IN" USB-C port on the charging stand. Connect the other end of the cable to the 20W PD adapter.
3. **Plug into Outlet:** Plug the 20W PD adapter into a wall power outlet. The night light on the base of the stand may illuminate, indicating power.
4. **Adjust Watch Charger:** For Apple Watches with non-detachable bands, elevate the watch charging module to ensure proper contact and efficient charging.

Ensure Correct Alignment

For watches with non-detachable bands, elevate the charging module.

Align the watch and charging module fully for efficient charging.

During charging, contact between the watch band and surface may shift the watch. Make sure the watch and charging module remain fully aligned.

Ensure correct alignment for Apple Watch charging.

6. OPERATING INSTRUCTIONS

- **Charging iPhone:** Place your MagSafe-compatible iPhone onto the magnetic charging pad. The magnets will align the phone automatically. The phone can be rotated 360° and tilted 180° for optimal viewing in vertical or horizontal mode.
- **Charging Apple Watch:** Place your Apple Watch onto the dedicated charging module. Ensure the watch is properly seated for charging to begin.
- **Charging AirPods:** Place your wireless charging compatible AirPods case onto the designated charging area on the base. The AirPods indicator light may dim shortly after being charged, which is normal.
- **Using the Night Light:** Touch the control key on the base of the stand to turn the night light on or off.
- **Using USB-C Output:** The additional USB-C output port can be used to charge other accessories.

VERTICAL MODE

FaceTime and facial recognition while charging

HORIZONTAL MODE

Watch a favorite movie and enjoy some time to your self

The stand supports both vertical and horizontal viewing modes while charging.

7. SAFETY GUIDELINES

To ensure safe and optimal performance, please observe the following:

- Use only the provided 20W PD adapter and USB-C cable for stable performance.
- Avoid using wireless charging with non-MagSafe cases or no case when charging your devices to ensure proper magnetic connection and charging efficiency.
- The product features multiple safety protections including overcurrent, overvoltage, overheating, and short-circuit protection.
- Do not place foreign objects on the charging surfaces.
- Keep the device away from water and high temperatures.

Built-in charging protection features.

8. MAINTENANCE

To maintain the longevity and performance of your charging stand:

- Clean the device with a soft, dry cloth. Avoid using abrasive cleaners or solvents.
- Ensure the charging surfaces are free from dust and debris before placing devices.
- Store the stand in a cool, dry place when not in use.

9. TROUBLESHOOTING

Issue	Possible Solution
Device not charging wirelessly.	Ensure the device is correctly aligned on the charging pad. Verify that the device supports wireless charging. Remove any thick or non-MagSafe compatible cases. Check if the power adapter and cable are securely connected.
Charging is slow.	Confirm you are using the provided 20W PD adapter and USB-C cable. Ensure no foreign objects are between the device and the charging pad.
Night light is not working.	Ensure the charging stand is powered on. Lightly touch the control key on the base to activate the night light.

Issue	Possible Solution
Stand feels warm during charging.	A slight warmth during wireless charging is normal. If it becomes excessively hot, disconnect the power and devices, and contact customer support. Ensure proper ventilation around the stand.
