HOGOKIDS SC9905

HOGOKIDS Advent Calendar 2025 Christmas Building Set with Light (Model SC9905)

Instruction Manual

1. Introduction

This manual provides comprehensive instructions for the assembly, operation, and care of your HOGOKIDS Advent Calendar 2025 Christmas Building Set with Light, Model SC9905. This set is designed to create a festive Christmas house, a retro bus, and a Christmas tree transport truck, along with charming gingerbread men, snowmen, and a Santa Claus sleigh.

The set includes 1,993 high-quality 3.6mm eco-friendly ABS building blocks, divided into 24 individual packages for a daily building experience leading up to Christmas. Please note that these 3.6mm mini building bricks are not compatible with major brands.

2. Safety Information

- **Choking Hazard:** This product contains small parts and is not suitable for children under 3 years of age.
- This toy must be used under direct supervision of an adult.
- Ensure all small parts are kept away from young children and pets.
- Dispose of packaging materials responsibly.

3. Setup and Assembly

The HOGOKIDS Advent Calendar is designed for a daily building experience over 24 days. Each day, a new part of the festive scene is revealed and assembled.

3.1 Unboxing and Daily Process

1. Open the main Advent Calendar box to reveal 24 individually numbered treasure boxes.
2. Starting from December 1st, open the box corresponding to the current day.
3. Each daily box contains a sealed bag of building blocks and a small, illustrated step-by-step instruction manual specific to that day's build.

4. Follow the instructions to assemble the unique Christmas element for that day.
5. Continue this process daily until all 24 elements are built, forming the complete Christmas scene.

Image 3.1: Children engaged in the daily assembly of the Advent Calendar building set.

The instruction manuals are designed to be clear and easy to follow, guiding you through each step of the assembly process. The pieces are precisely manufactured to fit together tightly.

Image 3.2: An exploded view demonstrating the modular construction of the Christmas house.

4. Operating LED Lights

The Christmas house features innovative soft LED lights that can be activated to illuminate the model. The transparent windows will emit a warm yellow glow, and light strands will resemble a starry sky.

- To activate the LED lights, locate the designated switch or twist mechanism on the model.
- Twist or press the mechanism to turn the lights on or off.
- Ensure batteries (if applicable and not pre-installed) are correctly inserted according to the specific daily instruction for the light module.

Image 4.1: The assembled Christmas house with its LED lights activated, creating a warm glow.

5. Maintenance

- **Cleaning:** Use a soft, dry cloth to gently wipe dust from the building blocks. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the assembled model or disassembled blocks in a cool, dry place away from direct sunlight to prevent discoloration or damage.
- **Battery Replacement:** If the LED lights dim or stop working, replace the batteries as indicated in the specific daily instruction manual for the light component. Ensure proper battery type and polarity.

6. Troubleshooting

- **Missing Pieces:** While rare, if you encounter a missing piece, please contact HOGOKIDS customer support with details of the missing part and the day's box number.
- **Difficulty Connecting Blocks:** Ensure blocks are aligned correctly. Apply gentle, even pressure. If a block is consistently difficult, check for any debris or manufacturing imperfections.
- **LED Lights Not Working:**
  - Check if the power switch/twist mechanism is in the "on" position.
  - Verify that batteries are correctly installed with the correct polarity.

- Replace old batteries with new ones if necessary.

7. Specifications

Brand	HOGOKIDS
Model Number	SC9905
Number of Pieces	1993
Material Type	Plastic (Eco-friendly ABS)
Item Weight	3.52 pounds
Product Dimensions	Assembled House: 8.5 inches (width) x 7.9 inches (height). (Note: The JSON's 0.79 x 0.79 x 0.79 inches likely refers to a single block, not the full assembled set.)
