CERAGEM M6

CERAGEM M6 Luxury Massage Chair User Manual

Model: M6

INTRODUCTION

Thank you for choosing the CERAGEM M6 Luxury Massage Chair. This manual provides essential information for the safe and effective use of your new massage chair. The M6 is designed to offer a superior relaxation experience with advanced features such as spine scanning technology, targeted 3D massage modules, and comprehensive heat therapy. Please read this manual thoroughly before operating the chair and retain it for future reference.

SAFETY INFORMATION

To ensure safe operation, always adhere to the following precautions:

- Ensure the chair is placed on a flat, stable surface.
- Keep children and pets away from the chair during operation.
- Do not use the chair if the power cord is damaged or if the chair is malfunctioning.
- Avoid placing heavy objects on the chair or standing on it.
- Do not attempt to disassemble or repair the chair yourself. Contact qualified service personnel.
- Unplug the chair from the power outlet when not in use or before cleaning.
- Consult a physician before using the chair if you have pre-existing medical conditions, are pregnant, or have a pacemaker.

SETUP

Unpacking and Placement

Carefully remove the massage chair and all components from the packaging. Ensure all packing materials are removed. Place the chair on a level, stable floor, allowing sufficient space around it for reclining and operation. A minimum of 10 inches (25 cm) from a wall is recommended for full recline.

Figure 1: The CERAGEM M6 Luxury Massage Chair, ready for placement.

Component Assembly

The M6 chair comes largely pre-assembled. Attach the Air Cell Lower Body Massager as per the instructions provided in the separate quick start guide. Ensure all connections are secure.

Power Connection

Connect the power cord securely to the power inlet at the rear of the chair. Plug the other end into a grounded electrical outlet (AC 120V, 60Hz). Ensure the power switch is in the OFF position before plugging in.

OPERATING INSTRUCTIONS

Powering On/Off

Locate the main power switch, usually at the back or side of the chair. Flip the switch to the ON position. The chair will enter standby mode. To begin a massage, use the remote control.

Remote Control Usage

The M6 comes with a comprehensive remote control. Familiarize yourself with the buttons for power, recline, massage modes, intensity adjustments, and heat functions. Refer to the remote control diagram in the quick start guide for detailed button functions.

Intelligent Spinal Scanning Technology

Upon starting an automatic program, the chair will initiate its patented Auto-Spinal Scan Technology. This feature maps your unique spinal curvature to deliver a personalized and targeted massage experience, ensuring optimal comfort and effectiveness.

CERAGEM

Intelligent Spinal Scanning Technology

Patented Auto-Spinal Scan Technology maps your unique spine to deliver personalized, targeted relief for maximum comfort and effectiveness.

Figure 3: The M6's intelligent spinal scanning technology customizes the massage to your body.

Massage Modes

The M6 offers 15 distinct massage modes:

- **10 Automatic Modes:** These pre-programmed routines combine various massage techniques and intensities for specific benefits (e.g., Full Body, Neck & Shoulder, Back & Waist, Relaxation, Sleep).
- **5 Custom Programs:** Allows you to manually select massage areas (Full Body, Neck & Back, Waist & Pelvis, Partial, Fixed) and adjust techniques (kneading, tapping, shiatsu, etc.) and intensity to create your preferred massage.

Figure 4: Overview of the 15 automatic and manual massage modes.

Zero Gravity Recline

Activate the Zero Gravity function via the remote control. The chair will recline the upper body up to 150 degrees and elevate the built-in footrest up to 80 degrees. This position distributes body weight evenly, reducing pressure on the spine and enhancing the massage experience.

CERAGEM

Zero Gravity Dual Reclining System

With a simple touch, the M6s reclines the upper body up to 150° and elevates the built-in footrest up to 80°, effortlessly creating the perfect Zero Gravity Position for optimal massage and relaxation.

Figure 5: The M6 in its optimal Zero Gravity recline position.

Heating Technology

The M6 features direct heating thermal technology with fast-heating massage modules. These modules can reach up to 149°F (65°C) in approximately 10 minutes, providing soothing warmth that enhances relaxation and targets specific areas for heat therapy.

Direct Heating Thermal Technology

This patented innovation features an internal heating element that rapidly warms to 149°F in just minutes. Experience deep, targeted thermal therapy that enhances relaxation and delivers precise heat relief exactly where you need it.

Air Cell Massage

The chair includes comprehensive air cell massage for the legs, pelvis, and thighs. These airbags inflate and deflate to provide compression massage, promoting circulation and relieving muscle tension.

Figure 7: Air cell massage for legs and pelvis.

Smart Connectivity

The M6 is equipped with built-in Bluetooth speakers. Pair your device to enjoy music or audio during your massage. A USB Type-C charging port is also available for convenient device charging.

MAINTENANCE

Cleaning

To clean the chair, first unplug it from the power outlet. Use a soft, damp cloth with a mild, non-abrasive cleaner. Do not use harsh chemicals or solvents. Wipe dry immediately. For leather or synthetic leather surfaces, use products specifically designed for their care.

Storage

When not in use for extended periods, store the chair in a cool, dry place away from direct sunlight and extreme temperatures. Cover the chair to protect it from dust.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Chair does not power on.	Power cord not securely plugged in; Main power switch is OFF; Power outlet malfunction.	Check power cord connection; Ensure main power switch is ON; Test outlet with another device.
Massage function not working.	Chair is not in an active massage mode; Remote control batteries are low.	Select an automatic or manual massage mode; Replace remote control batteries.
Heat function not felt.	Heat function not activated; Insufficient warm-up time.	Activate heat function via remote; Allow 10-15 minutes for modules to reach full temperature.
Abnormal noise during operation.	Normal operational sounds; Loose component.	Some mechanical sounds are normal. If noise is loud or unusual, discontinue use and contact customer support.

If the problem persists after attempting these solutions, please contact CERAGEM customer support for assistance.
