AGold Premium Wireless Lavalier Microphone Kit (MCF-09) User Manual

Model: MCF-09 (0001)

1. INTRODUCTION

Thank you for choosing the AGold Premium Wireless Lavalier Microphone Kit. This kit provides a high-quality, wireless audio solution for various recording needs, including videos, interviews, online classes, and podcasts. Designed for ease of use, it features intelligent noise cancellation and broad compatibility with Android (USB-C) and iPhone (Lightning) devices, as well as cameras and PCs.

This manual will guide you through the setup, operation, maintenance, and troubleshooting of your new microphone kit to ensure optimal performance.

2. PACKAGE CONTENTS

Before you begin, please verify that all items are present in your package:

- 2x Wireless Microphones
- 1x USB-C Receiver
- 1x Lightning Receiver
- 2x Windproof Foams (Microphone Covers)
- 1x USB Charging Cable
- 1x User Manual (this document)

ITENS INCLUSOS

- 2 Microfones;
- 1 Receptor;
- 1 Cabo USB;
- 2 Prendedores (Clip);
- + 1 Adaptador para iPhone GRÁTIS

Image Description: This image displays all components included in the AGold Premium Wireless Lavalier Microphone Kit. It shows two black wireless lavalier microphones, one USB-C receiver, one Lightning receiver, two black windproof foam covers, and a black USB charging cable. The items are neatly arranged, indicating a complete kit ready for use.

3. PRODUCT OVERVIEW AND FEATURES

The AGold Premium Wireless Lavalier Microphone Kit is designed for portability and high-quality audio capture. Key features include:

- **Plug and Play:** No application required; simply connect and use.
- **2.4GHz Wireless Connection:** Ensures stable and clear audio transmission with low latency.
- **Intelligent Noise Cancellation:** Captures clear audio even in noisy environments.
- **Long Battery Life:** Up to 6 hours of continuous use per microphone.
- **Compact Design:** Lightweight and discreet lavalier clip for easy attachment.
- **Omnidirectional Pickup:** Captures sound from all directions, suitable for interviews and group recordings.
- **Wide Compatibility:** Includes both USB-C and Lightning receivers for Android and iPhone devices.

Image Description: This graphic highlights the main features of the microphone kit. Icons and text indicate 'Plug and Play', '20 Meter Range', 'Precise Audio with Clarity and No Noise', 'Clean Sound Quality', 'High Capture Sensitivity', and 'Wide Compatibility'. A small box containing the two microphones and receivers is shown at the bottom.

LEVE, CONFORTÁVEL E COMPACTO

Image Description: This image illustrates the compact size and design of the microphone. It shows a microphone attached to a shirt collar, highlighting its discreet nature. Dimensions are provided: 6 cm in length and 2 cm in width for the microphone, and 4.5 cm for the receiver. A 360-degree audio capture icon emphasizes its omnidirectional capability.

4. SETUP INSTRUCTIONS

Follow these steps to set up your AGold Premium Wireless Lavalier Microphone Kit:

- 1. Charge the Microphones:** Before first use, ensure both microphones are fully charged using the provided USB charging cable. Connect the cable to the microphone's charging port and a standard USB power source. The indicator light will show charging status.
- 2. Select the Correct Receiver:** Identify the appropriate receiver for your device. Use the USB-C receiver for Android phones, PCs, and other USB-C compatible devices. Use the Lightning receiver for iPhones and other Lightning compatible devices.
- 3. Connect the Receiver:** Plug the selected receiver directly into your device's charging/data port. The receiver's indicator light will illuminate.
- 4. Power On the Microphone(s):** Press and hold the power button on each microphone you intend to use. The indicator light on the microphone will blink, then turn solid green when successfully paired with the receiver.

5. **Verify Connection:** Once connected, your device should recognize the external microphone. You can now open your recording application (e.g., camera app, voice recorder) and begin recording.

Image Description: This image provides a visual guide to the 'Plug and Play' setup. It shows three steps: 1) Plug the receiver into the phone, 2) Press the microphone button, and 3) The device is connected. Below, it illustrates both dual and individual microphone usage scenarios.

Compatível com todo tipo de dispositivo

Entrada Tipo-C + adaptador para iPhone GRÁTIS

Image Description: This image highlights the broad compatibility of the microphone kit. It shows two microphones wirelessly connected to a smartphone via a USB-C receiver, with an additional Lightning adapter for iPhone compatibility. The text confirms compatibility with all device types.

5. OPERATING INSTRUCTIONS

Once set up, operating your AGold Premium Wireless Lavalier Microphone is straightforward:

- **Single Microphone Use:** If using only one microphone, simply power on that microphone and ensure its indicator light is solid green.
- **Dual Microphone Use:** For two-person interviews or recordings, power on both microphones. Both will connect to the single receiver simultaneously.
- **Noise Cancellation:** The microphone features intelligent noise cancellation. This function is typically active by default to reduce ambient noise and enhance voice clarity. No manual adjustment is usually required.
- **Monitoring Audio:** Some devices and applications allow real-time audio monitoring through headphones connected to the device. Check your device's settings or recording app for this feature.
- **Battery Status:** The indicator light on the microphone will change or blink to indicate low battery. Refer

to the 'Specifications' section for battery life details.

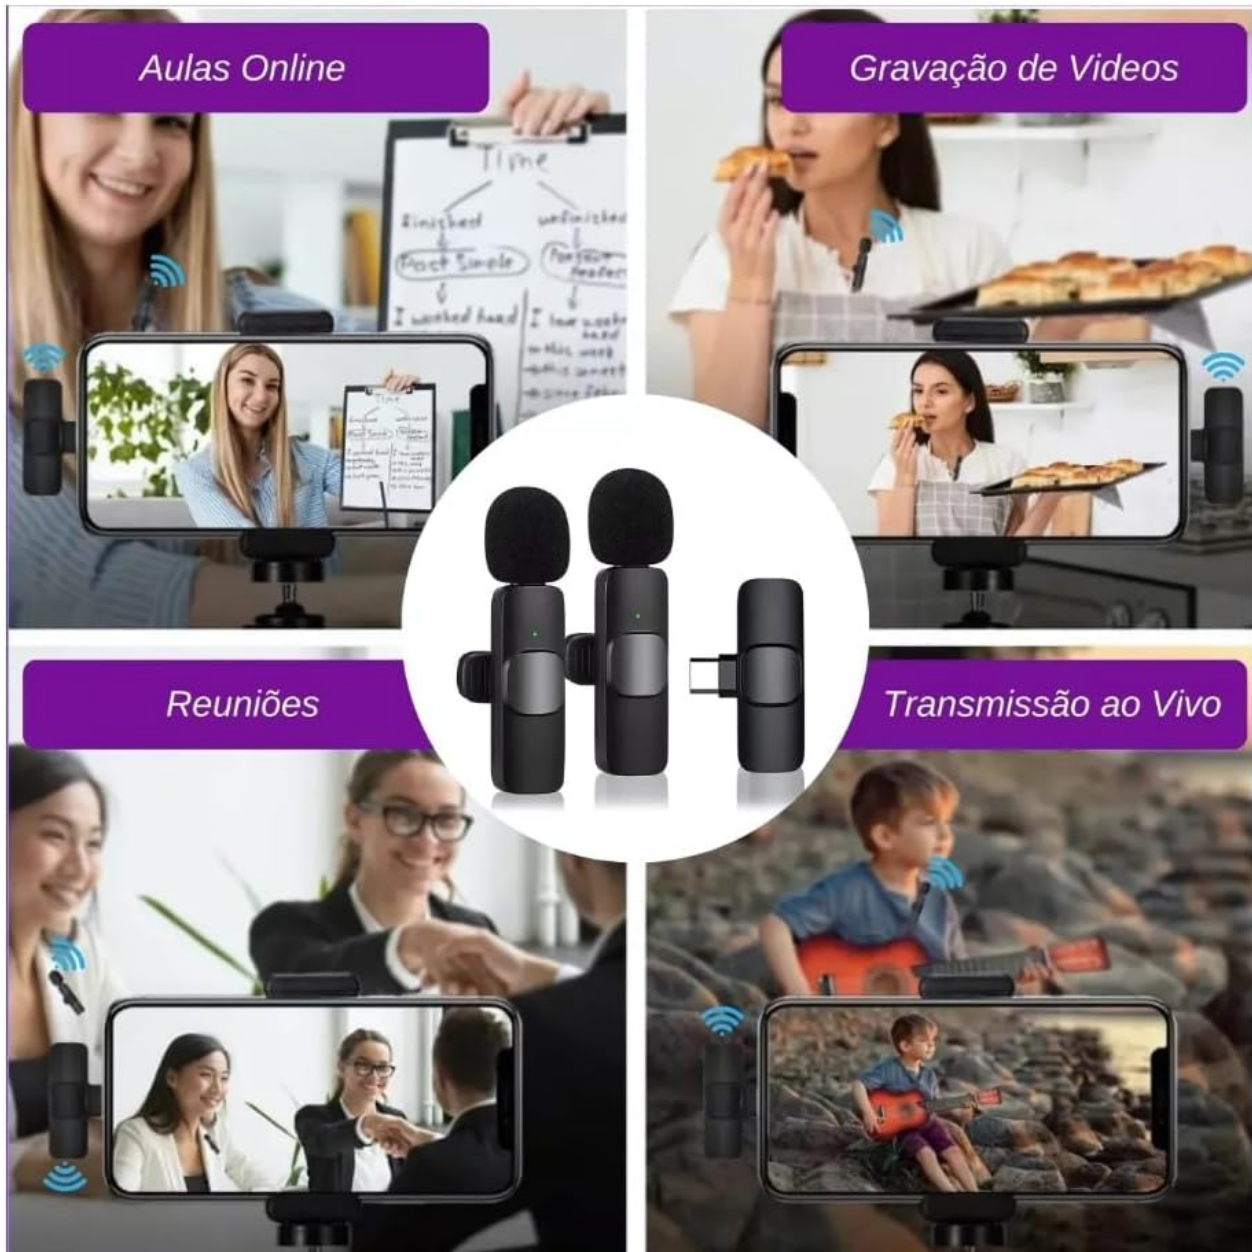

Image Description: This image showcases different applications for the microphone kit, including online classes, video recording, meetings, and live streaming. It demonstrates how the microphones can be used in various professional and casual settings to capture clear audio.

6. MAINTENANCE

To ensure the longevity and optimal performance of your microphone kit, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the microphones and receivers. Avoid using liquids or abrasive cleaners.
- **Storage:** Store the kit in a cool, dry place away from direct sunlight and extreme temperatures.
- **Windproof Foams:** The included windproof foams help reduce plosives and wind noise. Replace them if they become damaged or worn.
- **Charging:** Always use the provided USB charging cable. Avoid overcharging the microphones.
- **Handle with Care:** Avoid dropping the devices or exposing them to strong impacts.

7. TROUBLESHOOTING

If you encounter issues with your AGold Premium Wireless Lavalier Microphone Kit, refer to the following troubleshooting tips:

- **Microphone Not Connecting/Working:**

- Ensure the receiver is fully inserted into your device's port.
- Verify that the microphone is powered on and fully charged.
- Check the indicator lights on both the microphone and receiver; they should be solid green when connected.
- Restart your recording device (phone, PC, camera) and try connecting again.
- Ensure your device's settings allow external microphone input.

- **Poor Audio Quality/Noise:**

- Ensure the windproof foam is properly attached to the microphone.
- Check for strong electromagnetic interference sources nearby (e.g., Wi-Fi routers, other wireless devices).
- Ensure you are within the effective operating range (up to 20 meters) of the receiver.
- Avoid speaking too close to the microphone, as this can cause audio clipping or 'popping' sounds. Maintain a suitable distance.

- **Short Battery Life:**

- Ensure the microphones are fully charged before use.
- Battery life can vary based on usage and environmental conditions.
- If battery life significantly degrades, contact customer support.

8. SPECIFICATIONS

Feature	Detail
Model	MCF-09 (0001)
Special Features	Noise Reduction
Compatible Devices	Mobile phones (Android, iPhone), PC, Camera
Color	Black
Polar Pattern	Omnidirectional
Audio Sensitivity	10 Decibels
Impedance	1 Ohm
Microphone Form Factor	Plug On
Power Source	Battery Powered
Material	Plastic
Signal-to-Noise Ratio	80 dB
Hardware Platform	Smartphone
Number of Channels	2
Connectivity Technology	2.4GHz Wireless (Bluetooth mentioned in title, but 2.4GHz in description is more specific for connection type)
Connector Type	USB Type-C (with Lightning adapter)
Wireless Range	Up to 20 meters
Battery Autonomy	Up to 6 hours continuous use
Recharge Time	Approx. 1.5 hours via USB-C
Product Weight	60 g
Package Dimensions	13.4 x 8.3 x 3.2 cm
