1. **Prepare Components:** Unpack all components and verify against the package contents list. Ensure all parts are labeled correctly (numbered or lettered).
2. **Attach Side Frames to Bottom Shelf:** Secure the side frames (parts 3 and 4) to the bottom shelf (part 1) using the provided screws (e.g., type C). Ensure the holes for the cross braces face outwards as per the diagram.
3. **Attach Top Shelf:** Place the top shelf (part 2) onto the assembled frame and secure it with the appropriate screws (e.g., type D).
