IMPORTANT SAFETY INFORMATION

WARNING: Failure to follow these warnings and instructions could result in serious injury or death.

- Always follow the assembly instructions carefully to prevent instability.
- Do not exceed the weight capacity of 200 lbs for the upper bunk.
- Use the ladder carefully and ensure children can safely reach the top bunk.
- Always use the guardrails when in use.
- Only use mattresses that are 6 inches thick for the upper bed and 8 inches thick for the bottom bed.
- Ensure all connections are tight before use. Periodically check and tighten hardware as needed.
- This product is designed for children older than 6 years old.

PACKAGE CONTENTS

Your Rovibek House Bunk Bed Twin Over Twin is delivered in 2 packages. Please verify all components are present before beginning assembly.

Components List:

- Wood frame pieces (Pine + Plywood + PB)
- Wood slats (14 pieces)
- Ladder components
- Guardrails
- Hardware pack (screws, bolts, nuts, etc.)
- Assembly instructions manual

Tools Required (Not Included):

- Screwdriver

SETUP AND ASSEMBLY

Estimated Assembly Time: Approximately 2 hours (for reference only).

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out on a clean, soft surface to prevent scratches. Refer to the included parts list to identify each piece.
2. **Assemble Bed Frames:** Follow the step-by-step diagrams in the separate assembly instruction booklet to connect the main frame pieces for both the upper and lower beds. Ensure all bolts are finger-tight at this stage.
3. **Install Slats:** Secure the 14 wood slats to the bed frames using the provided hardware. Ensure even spacing for proper mattress support.
4. **Attach Guardrails:** Install the guardrails on the upper bunk as per the instructions. Verify they are securely fastened.
5. **Assemble and Attach Ladder:** Construct the 3-step ladder and securely attach it to the bunk bed frame.
6. **Final Tightening:** Once all components are in place, systematically tighten all screws and bolts using a screwdriver. Do not overtighten.
7. **Safety Check:** Before use, perform a thorough safety check to ensure all parts are correctly assembled and tightened.

MATTRESS RECOMMENDATION

Size & Thickness:
Upper bed: Twin 6"
Bottom bed: Twin 8"

NOTE:
Mattress not includede

Image: Visual guide recommending a 6-inch thick mattress for the upper bed and an 8-inch thick mattress for the bottom bed. It also states that mattresses are not included.

OPERATING INSTRUCTIONS

The Rovibek House Bunk Bed is designed for sleeping and light recreational use within its structure. Please adhere to the following guidelines:

- **Mattress Placement:** Place a Twin-sized mattress on both the upper and lower bunks. Ensure the upper mattress does not exceed 6 inches in thickness and the lower mattress does not exceed 8 inches in thickness.
- **Ladder Use:** Always use the provided 3-step ladder for accessing the upper bunk. Ensure a firm grip and stable footing.
- **Guardrails:** The upper bunk is equipped with 16-inch high guardrails. These must always be in place when the upper bunk is occupied to prevent falls.
- **Window Storage:** The integrated window storage shelves can be used for lightweight items such as books or small toys. Do not overload these shelves.
- **Weight Capacity:** The upper bunk has a maximum weight capacity of 200 lbs. The bottom bed has no specific

limit but should be used responsibly.

MAINTENANCE AND CARE

- **Cleaning:** Wipe the bed frame with a dry cloth to remove dust and dirt. Avoid using harsh chemicals or abrasive cleaners, which can damage the painted finish.
- **Hardware Check:** Periodically (e.g., monthly or quarterly) inspect all screws, bolts, and connections to ensure they remain tight. Retighten any loose hardware to maintain stability and safety.
- **Structural Integrity:** Regularly check for any signs of wear, damage, or structural weakness. If any issues are found, discontinue use immediately and contact customer support.
- **Environmental Conditions:** Avoid placing the bed in areas with extreme humidity or direct sunlight, which can affect the wood and finish over time.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose hardware.	Check and tighten all screws and bolts. Ensure all connections are secure.
Squeaking noises.	Loose slats or frame connections.	Verify all slats are properly seated and secured. Tighten all frame hardware.
Missing parts during assembly.	Packaging error or lost during unpacking.	Double-check all packaging materials. Contact Rovibek customer support with your purchase details.
Difficulty assembling.	Incorrect step sequence or misaligned parts.	Review the assembly instruction booklet carefully. Ensure parts are oriented correctly before tightening.
