4.2. Step-by-Step Assembly

1. Install the Front Wheels:

- Remove the nut and a gasket from the front axle.
- Install the wheel, gasket, and nut onto the front axle in turn.
- Tighten the nut with a wrench.
- Install the wheel cover on the wheel.
- Repeat for the other front wheel.

2. Install the Rear Wheels:

- Remove the nut, gasket, and cardboard tube from the rear axle.
- Install the wheel, gasket, and nut onto the rear axle in turn.
- Tighten the nuts with two wrenches in opposite directions at the same time.
- Install the wheel cover on the wheel.
- Repeat for the other rear wheel.

3. Install the Steering Wheel:

- Connect the steering wheel cable to the instrument panel.
- Plug the cable into the cable hole.
- Align the steering wheel with the connector and push it into place.

4. Install the Windshield:

- Align the windshield to the body position.
- Fix the clip to the hole position.

5. Install the Rear View Mirrors:

- Distinguish the left mirror from the right one.
- Insert the mirrors into the hole site on the door.

6. Connect Battery and Install Seat:

- Connect the power cord to the battery.
- Align the seat to the position on the body.
- Lock the seat with screws.

5. OPERATING INSTRUCTIONS

Your ELEMARA Lamborghini ride-on car offers dual driving modes: manual control by the child or remote control by an adult.

5.1. Manual Control

- To move forward, press the 'D' button on the control panel and then press the foot pedal.
- To reverse, press the 'R' button on the control panel and then press the foot pedal.
- Use the steering wheel to control direction.
- Adjust speed using the high/low speed buttons on the control panel.

Image: The ride-on car can be operated manually by the child or via remote control by an adult.

5.2. Remote Control Operation

- The remote control allows parents to steer, move forward/backward, and stop the vehicle for safety.
- Use the directional arrows on the remote to control movement.
- The remote has buttons for forward, reverse, left turn, and right turn.

5.3. Multimedia Features

- The car features a multifunctional control panel with music playback.
- Connect via Bluetooth or USB to play your own music.
- LED headlights and taillights enhance the driving experience.

Image: The ride-on car features Bluetooth music mode, allowing children to enjoy their favorite tunes while driving.

6. MAINTENANCE

- **Charging:** The charging time is approximately 8 to 12 hours. Do not overcharge.
- **Battery Depletion:** If the car's battery is depleted, it can be effortlessly pulled home using the built-in small wheels located at the rear.
- **Cleaning:** Wipe the car with a damp cloth. Avoid using harsh chemicals.
- **Storage:** Store the car in a dry, cool place away from direct sunlight when not in use.

Enhance Abilities through Entertainment

1. Train hand-eye coordination
2. Enhance cognitive abilities
3. Improve athletic skills
4. Promote parent-child ties

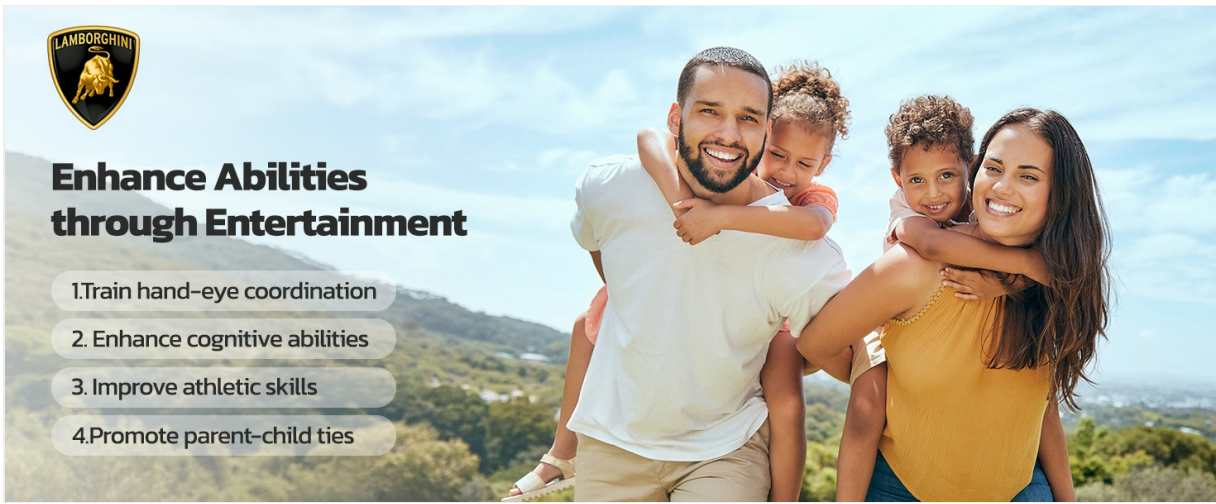

Image: The ride-on car includes a battery depletion warning system and built-in wheels for easy towing when power is low.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Car does not move.	Battery is low or disconnected.	Charge the battery for 8-12 hours. Ensure battery cables are securely connected.
Remote control not working.	Remote batteries are dead or not paired.	Replace remote batteries. Refer to the full manual for pairing instructions.
Car moves slowly.	Low battery or operating on an uneven surface.	Charge the battery. Operate on flat, smooth surfaces.
Lights not working.	Loose connection or switch is off.	Check all light connections. Ensure light switch is in the 'on' position.
